Health.—Health is that state of body and mind which renders mere existence a blessing; and any thing short of this is desease, and is caused by the accumulation of morbid humors in the blood, and other juices, by neglect of vegetable purgage. The cure is very simplet open the natural drains of the body which nature has provided for the carrying out of all its impurities, and health will be sure to follow. To the patrons of the Brandreth Vegetable Univirsal Pills.—I have often tound persons desirous to know how soon this medicine will cure them. It is impossable to say—it eltogether depends upon the state of the blood and humors. One thing may be relied upon—that if e.p pills are per severed with according to the printed direction which accompanies each box, the cure will be effected much sooner than the padient could have expected. The many lingering chronic diseaset we daily see, are owing either to mercury or bleeding, or to not having been properly purged in Fevers, Infl. mations, Colds, Measles, Small Pox, or lying-in. It is utterly impossible for us to at tain or keep health without sound purging. We may fasten up the disorder by barks and tonics, but if it be in the body, it must come out before health can be enjoyed, and sooner or later it will break out of itself worse than ever, if this method of purifying the blood is delayed too long. No danger can arise from purging with Brandreth's Vegetable Pills It h is been proved, beyond doubt, that these celebrated pills and the human body are naturally adapted one for the other. By the use of this grious medicine the contents or humors of the body can be entirely evacuated, altered fand completely regenerated; and in a manner so simple as to give every day case and pleasure.
