In Alabama there has been one hundred and forty-two applications to the presen 3,434 34 Legislature for divorces—One thing must be certain that they must have very bad 567 00 men—or women. This repudiation of 5,088 50 contracts is becoming prevalent in that portion of the U.S. We should not wonder at such a result in Mississippi.

Indiana has passed a law staying all Executions until the 1st February; and they are now discussing a more permanent law .- Making the stay one year on all debts, and two years on the half of each debt; and no property can be sold that does not bring three fourths of its appraised value. We do not know exactly \$5,380,782 23 what to call this, but it is evidently, one of the family of Repudiation.

> Rhode Island in trouble. The people persons of this State have by a vote ratified the New constitution of the Free suffrage convention. The freeholders and present Government do not acknowledge the New constitution. Of course their will be two setts of State officers elected next spring. It is thought that the supreme court of the U. S. can settle the question-They ought to be satisfied with one set of officers if they can squander as much of the peoples money as one set in this state.

CAIN is generally called the first mur-derer, but some call him the first soldier; others might call him the first physician as the three terms are considered synon

as the three terms are considered synonymous.

Frederick the Great must have destroyed a great many thousand lives before he became so proficient in the art of killing; yet, when in the presence of his own physician he resigned his laurels to the M. D. and surrendered all claims to superiority over him in that department. Napoleon, in his fatal Russian campaign, destroyed about one million of human beings, and we call him a hero! Dr. Brandreth's Vegetable Universal Pills have saved the lives of at least half that number; and when the properties of his medicine shall be duly appreciated, he will receive the thanks of his fellow citizens; a richer gift than either titles or crowas.

In order to secure the medicine in its purity, he has excluded druggists from any participation in its sale.

These very distressing complaints often lead into CONSUMPTION through neglect at the first attack. I would therefore advise those whose bough begins to become troublesome, and the Expectoration scanty, with more or less soreness of the throat, difficult raising of phlegm, &c. that they sho'd immediately apply jor a suitable medicine. fficult raising of pillegm, &c. that they sho'd immediately apply 10° a suitable medicine, which is Dr. DUNCAN'S EXPECTOR.
