HATHAWAY'S COOKING Hot Air Stoves.

THIS celebrated stove is now manufactured by Arthur B. Long, in Lewistown, Pa., which he will endeavor at all times to keep on hand ready for use, he is making the three following sizes:

No. 2, smallest size, receives a stick of wood 2 feet 4 inches long.
No. 2 1/2 middle size receives a stick of wood 2 feet 6 inches long.
No. 3 largest size receives a stick of wood 2 feet 8 inches long.

This stove No. 3, is calculated for Taverns, Boarding Houses, or other Houses where much cooking is required, and No. 2, and 2 1/2 is calculated for the use of farmers and small families.

There never has yet appeared any system or plan of a cooking stove which has the same advantage that this stove has. Its culinary purpose is not to be equalled—its baking qualities are far superior to any other, as the hot air principle is the continuation of heat in the stove by which a much less quantity of fuel is required to perform a much larger amount of cooking or baking than any other stove that has formerly been used.

All orders addressed to Arthur B. Long, Lewistown, through the Post Office, or at his Foundry will be punctually attended to.
