### Mexico and Texas.

We received the following slip by the Baltimore American last evening.

Madisonian.—Extra.  
**THE MEXICANS RETREATING FROM TEXAS!**

We have just received the following highly important information—

Extract of a letter from Mr. E. W. Charge d' Affaires of the United States to Texas, to the Department of State, dated

"GALVESTON, March 19th, 1841.

"SIR—Since I wrote you on the 10th inst., news has reached here by express, that the Mexicans have abandoned San Antonio, and that General Burleson, the Vice President, and General Johnson, with twenty-five hundred Texans, were in pursuit of them. Since the proclamation of General Arista and the letters of Santa Anna to Colonel Bee and General Hamilton have been published, the President of Texas has issued his proclamation that the war with Mexico shall never cease until Mexico acknowledges the independence of Texas. The citizens have by voluntary contributions chartered, armed and equipped two private vessels, and sent them to the coast of Mexico. Every citizen in Galveston, who has not left for the army, is constantly employed in erecting batteries for the defence of the place."

**REMARKS ON BLEEDING.**—Bleeding may alleviate the symptoms of some diseases, as the impeded circulation is rendered more free by abstracting a portion of the circulating fluid; but it is manifest that only a small portion of the impurities are taken by this means, because the pure blood will flow with the most freedom. Brandreth's Vegetable Universal Pills possess the unrivalled power of stimulating the blood to discharge its impurities into the bowels—the sewer provided by nature for that purpose—hence it is strictly in accordance with nature, causing her to do that which is required to produce a healthy condition of the body. Such being the case, it is evident that they can be administered with safety to advanced age, as well as to helpless infancy, and invariably with the same beneficial results.

Purchase them in Huntingdon of Wm. Stewart, and only of agents published in another part of this paper.
