Harrison Democrats in Italie—Locosoco Humbugs in Roman. There was no Locosoco candidate for Congress—and in some districts no tickets were received. The 28rd District—Murray's Run, and the 27th District—Gaysport, were gave only the votes polled for the highest candidates, or in other words, for the Humbug ticket. We have, however, added the votes of these districts, as they appear on the tally papers returned and filed in the Prothonotary's office.

HUNTINGDON COUNTY

The Result. GLORIOUS VICTORY!

It will be seen, by the official returns published in another part of this paper, that "Old Huntingdon" is redeemed. -Our whole county ticket is elected by majorities ranging from about 250 to

The shallow Locofoco Humbug. under The shallow Locofoco Humbug, under the specious name of "The Workingmen's Party," is "most essentially used up," as the grand sachems of the Kickapoo tribe now freely admit. George R. McFar-Lane, the Anti Tariff candidate for Assembly, will perhaps never again emerge out of the obscurity into which this election has thrown him; and his "Humbug" colleague, Thomas Weston, is doomed to share the same fate. Maj. Steel leads the ingrate JERRY nearly a thousand

Only 3829 votes were cast for Senat exclusive of two rejected districts, and Elliotts majority is 641, being a large majority, considering the smallness of the "turn out," but not sufficient to elect

Blair's majority over Weston is 659; and McWilliams' over McFarlane 688. Steel's majority over Cunningham is 962. Reed's over Dorland 257. Knox's over Miller 683. Orbison's over Patton 600. And Saxton's over Bumbaugh 1390.

The Locofocos exerted all their powers to elect Eyer to the Senate and McFarlane and Weston to the House of Reprethat Free Trade and Anti Tariff doctrines cannot flourish on the soil or in the iron works of Huntingdon county.

Considering all things, the hardy sons of "Old Huntingdon" have done nobly! The same "old coon" that terrified the poor Locofocos so awfully in 1840 is still here, but as we could not raise so loud a noise this fall, we could not run him up so high as we did then. We repeat it—and mark what we say, neighbor—the same wild con?" is still living and shout then. Considering all things, the hardy sons of "Old Huntingdon" have done nobly! We repeat it—and mark what we say, neighbor—the same "old coon" is still living, and about these "diggins," with his tail curled up into a real old fashioned "O. K."

Co The Whigs and Antimasons have lost their Senator in this district; and they have none to blame for it but themselves. We feel confident that there is a majority of Harrison Democrats in the district this day.

That Rooster:

We expect to see our neighbor's big "rooster" strut most magnificently to-day, to the All most and the seed up" with the Humbug ticket. He are a real true blue "democratic" chicken!

On account of the great length of Mr. Webster's speech, and the Sheriff's sales, we are obliged to omit several articles prepared for this paper.

The results of the October elections will be noticed next week. At present well be noticed next week. At present we can only say that in this state we have lost the majority in the Senate, and gained considerably in the House. In some of our strongest counties the "old coon" has been completely skinned; and in some of the heretofore unwavering Locofoco counties the Whigs have so cut Chapman's "comb" that he has not been heard to crow since.
