

ALEXANDER SENTENCED.—Milton J. Alexander, convicted of manslaughter in killing Noah Lougee, was brought up for sentence a few minutes after ten o'clock yesterday morning. Judge Conrad delivered the judgment of the Court. He remarked to the prisoner that he had been in favor of a more severe punishment than that which the Court had decided to inflict; but the penalty was the result of the deliberations of the Judges by whom he had been tried, and that it was not the desire of the Court to add to his afflictions by any remarks on the nature of his crime. "The sentence of the Court is, (said Judge C.) that you pay a fine of one dollar to the Commonwealth, and the costs of prosecution, that you undergo an imprisonment at separate and solitary confinement at hard labor in the Eastern Penitentiary for the term of four years, that you be fed and clothed as the law directs, and stand committed until the sentence is complied with."—*National Forum.*

LOCO FOCOISM IN NORTH CAROLINA.—Consistency is a jewel, it has long been held. As one of the many remarkable illustrations of this saying, we quote the following notice of a Loco Foco movement in the Legislature of North Carolina. Mr. Shepard, of Wake county, and Mr. Cooper, of Martin county, two members of that party, which, by the violent and factious warfare waged by its leaders against banks, produced most of the pecuniary embarrassments of the country—introduced, says the Raleigh Register, propositions into our Legislature to issue one million and a half of shillings—by way, we suppose, of illustrating the title of their party to the name of the "HARD MONEY BOYS." The people will not fail to observe, who are the "Bank rag" Party, now.

STEAMBOAT DISASTERS.—The iron steamer Valley Forge was sunk a few days since at the "Grave Yard," on the M. S.issippi. She was built at Pittsburgh in 1839, at an expense of \$60,000. The St. Louis papers also announce the loss of the Loyal Hannan. She was stove in by the ice near the mouth of the Illinois. On the 30th ult. the steamboats New Brazil and Rock Island were crushed by the ice, and sunk near Davenport, Iowa. The steamer Bowling Green struck a rock in the Missouri, near the mouth of the Osage River, and sunk in 7 feet of water.—*National Forum.*

DI-TRESS IN OHIO.—In Ohio, it is known, the circulation of the sound Banks is reduced to a very trifling amount, and as the currency is almost exclusive of hard money, the value of property of every description is correspondingly depressed. The distress which is thus brought upon debtors may be understood from the facts, which are stated in a Dayton paper, "that well saved hay has been sold for a dollar a ton, at a constable's sale, and excellent cows for three dollars a piece—At another constable's sale, five hundred bushels of corn in the ear were sold for three dollars!—and eighty acres of wheat well put in, for the same sum!—*Balt. American.*

Such are some of the blessings of a specie currency. Bankruptcy and suffering in the midst of abundance!

THE PENNSYLVANIA CANALS.—From the Pittsburg Advocate we learn that the amount of articles received at that place, from the Eastward, has fallen off considerably, while the amount shipped for the East far exceeds what was shipped in 1841, and, though the tolls on Western produce have been reduced to 20 percent, the aggregate received from the opening to the close of the navigation is greater than the amount received during the same period in 1841. A further reduction, we do not doubt, would be attended by the same result.

LOCOFOCOISM IN MISSOURI.—It appears from a statement transmitted to the Missouri General Assembly, by the auditor of public accounts, that there are thirty-one public defaulters in that State, principally collectors of revenue, all of whose defalcations have accrued since 1837.

NATURAL PRINCIPLES.

It is written in the Book of Nature and common sense, that the natural vegetable productions of every country are, if properly applied, amply sufficient for the cure of every malady incident to that climate.

WRIGHT'S INDIAN VEGETABLE PILLS are founded upon the principle, that the human body is subject to but one disease, viz: corrupt humors, which, when confined to the circulation, give rise to those disordered motions of the blood called fevers; but when lodged in the various parts of the body, are the cause not only of every ache or pain we suffer, but every malady incident to man.

It should be remembered that Wright's Indian Vegetable Pills are composed of roots and herbs, which grow spontaneously on our own soil, and consequently are admirably adapted to our constitutions, hat, while they cannot possibly injure even the most delicate, a perseverance in their use, according to directions, is absolutely certain to drive disease of every name from the body.

When we wish to restore a swamp or morass to fertility, do we not drain it of the superabundant water? In like manner, if we would restore the body to health, we must cleanse it from impurity.

Wright's Indian Vegetable Pills, will be found peculiarly adapted to carrying out this grand purifying, because they excel all corrupt humors in an easy and natural manner, and while they every day

GIVE EASE AND PLEASURE, the constitution is restored to such a state of health and vigor, that disease will find no abiding place in the body.

Beware of COUNTERFEITS!
As the great popularity of Wright's Indian Vegetable Pills, has raised up a host of counterfeiters the public are cautioned against impostors, who are travelling about the country, selling to the unsuspecting storekeepers a spurious article for the above celebrated Pills.

It should be remembered that, all who

[WHOLE No. 364.]

If there be any of her citizens, who think that she will prove faithless and unwilling to discharge her obligations, we may safely say, they know little of her true character, and meet with no encouragement, or favor, from any considerable portion of the community. To do what she agrees to do, and to pay what she promises to pay, are two of her distinguishing characteristics; and he who would seek to induce her to forfeit either of them, will find, that he gains neither the confidence, nor respect, of her citizens by the attempt. She may be temporarily obliged to postpone the discharge of her engagements until a more convenient season; but to deny the obligation itself, or to refuse to comply with it, would be a reproach upon her integrity, which no public man dare advise or sanction.

However great her public debt may seem to be, a tax of a few cents per ton upon her coal and iron, which are scattered in every hill and valley throughout her borders, will at some future day not only pay the interest of her public debt, but the principal also, probably within the lifetime of many of those, who are now upon the stage of public action. This tax would be paid in a great measure by the consumers of these products in other states, and would be scarcely felt by her own citizens. Cut off as this country now is, and must continue to be, from the European supply of coal and iron, on which it has hitherto chiefly depended, the day is not far distant, when Pennsylvania will supply more than three-fourths of the other states of this union with coal, and a majority of them with iron. This is a position from which no legislation and no human power can remove her. Her geographical position, and the favorable relative locations of her coal and iron deposits, put Pennsylvania beyond the reach of all rivalry for any quarter. She seems to have been destined, by nature, to be the great work-shop of the American Union; and if, her citizens and her legislature are true to themselves, and will avoid catering to the views and interests

of a few individuals, she will not regret the construction of her public improvements, which have contributed to the development of these advantages. This is not the language of sanguine hope, or blind confidence, but of clear-sighted, practical experience, the truth of which every unprejudiced man must be convinced, who will carefully inquire into the proper relations to be established, according to the act of Congress, in the year 1840, by William Wright, in the Clerk's Office, of the District Court of the Eastern District of Pennsylvania, will be found at the bottom of the first page of said directions.

Thus it will be seen, that a trifling attention on the part of the purchaser to the above particulars, will put an effectual stop to this wholesale robbery, and drive it, it is hoped, all depredators upon society to an honest calling.

The following highly respectable store keepers have been appointed agents for the sale of

Offices devoted exclusively to the sale of the medicine, wholesale and retail, No. 283 Greenwich street, New York; and No. 199 Tremont street, Boston; and Principal Office, No. 169 Race street, Philadelphia.

N. B. The public are respectfully informed that the Pills made by one V. O. Flack, and sold by a man named Parker, in Third street, are not the genuine Wright's Indian Vegetable Pills; and as counterfeiters and their associates sell at half price, it is absolutely impossible for them to have the genuine medicine for sale.

* * * Be particular in all cases to ask for the genuine Wright's Indian Vegetable Pill.
