Dr. Moffat's Life Pills

PHENIX BITTERS.

The perfectly safe, unerring and successful treatment of almost every species of disease by the use of Dr. MOFFAT'S LIFE MEDICINES, is no longer an experiment, as a reference to the experience of many thousand patients will satisfactorily prove. During the present month alone, nearly one hundred cases have come to the knowledge of Dr. MOFFAT, where the patient has to all appearance, effected a permanent cure by the exclusive and judicious use of the Life Medicines—some eight or ten of these had been considered hopeless by their physicians. Such happy results are a source of great pleasure to Dr. M., and inspire him with a new confidence to recommend the use of his medicines to his fellow citizens.

The LIFE MEDICINES are a purely VEGETABLE preparation. They are mild and pleasant in their operation, and at the same time thorough—acting rapidly upon the secretions of the system—carrying off all acrimonious humors, and assimilating and purifying the blood. For this reason in aggravated cases of Dyspepsia, the Life Medicines will give relief in a shorter space of time than any other prescription. In Fever and Ague, Inflammatory Rheumatism, Fevers of every description, Sick Headaches, Heartburn, Dizziness in the Head, Pains in the Chest, Flatulency, Impaired Appetite, and in every disease arising from impurity of the blood, or a disordered state of the stomach, the use of these medicines has always proved to be beyond doubt, greatly superior to any other mode of treatment.

All that Dr. Moffat asks of his patients is to be particular in taking them according to the directions. It is not by a newspaper notice, or by any thing that he may say in their favor, that he hopes to gain credit. It is alone by the result of a fair trial. Is the reader an invalid, and does he wish to know whether the Life Medicines will suit his own case? If so, let him call at the office of the agent, and procure a copy of the Good Samaritan, published gratuitously. He will there find enumerated very many extraordinary cases of cure; perhaps some exactly similar to his own.
