THE EDITOR.

The "Clinton County Whig" has nailed to its mast head the glorious flag of CLAY for President, M'KENNAN for Vice President, and IRVIN for Governor in 1844.

County Commissioners.

Messrs. JOHN F. MILLER and MORDECAI CHILCOTE, the Commissioners elect, were sworn in, this week, and are now attending to the duties of their office. The Board at present consists of Alexander Knox, Jr., Mordecai Chilcote and John F. Miller.

Melancholy Accident.

The Rev. Mr. Hesser, a Methodist minister, stationed near Orwigsburg, Schuylkill county, was accidentally killed on the 17th ultimo, in Jackson township Northumberland county. When descending a steep hill, the tongue of the vehicle in which he was suddenly broke causing it to run against the legs of the horses; Mr. H. acting as driver, received several kicks from the animals, breaking both his legs, and receiving such other serious injuries that he died in a few days after the accident. He was, at the time, in company with three other ministers, on his way to the Ohio Conference.

The Governor of Maryland has appointed the 30th of November as a day for general thanksgiving.

Gov. Thomas has signed the death-warrant of Wm. S. Chrise, convicted of murder in the Allegheny county Court, Md. He is to be executed on Friday, the 24th inst., at 2 o'clock.

Fire at Rochester, N. Y.

SIXTEEN HOUSES BURNED.—A fire occurred in Rochester, N. Y., on the 3d inst., which destroyed sixteen houses on St. Paul's and Church streets, including dry Goods stores and Groceries, Auction stores, Livery stables, Mechanics shops, &c.

MILITIA FINES.—It may not be generally known that the militia fines are now but fifty cents a day, or one dollar for two days' absence. The Legislature at its last session, in the third section of the Appropriation Bill, so altered and reformed the law, the next reformation needed, says the Harrisburg Union, is to abolish the fifty cents fine also, which is a tax upon poor men, and goes only to fill the pockets of a few officers, under the pretext of keeping up a system of defense—the State annually, besides the fines, several thousand dollars.

The Clay Club of Pittsburgh, Pa., has appointed a committee to invite Henry Clay to visit that city on returning from his southern tour.

The York (Pa.) Republican contains an account of the formation of a Clay Club in that borough. John Evans, Esq., was chosen President, and William R. Morris, Corresponding Secretary.

Audubon, the Naturalist.

The Pittsburg papers state that AUDUBON the celebrated and indefatigable Naturalist arrived at that city, from the Far West on Tuesday of last week. He brought with him a number of large boxes filled with specimens of rare animals and birds, and also a living deer, fox and badger. He also brought two large rocks, perfectly spherical, one of which weighed two hundred and eighty pounds, which he procured in the bed of a small river at the head waters of the Missouri, called the Cannon Ball River, from the fact that large numbers of rocks are found in it resembling cannon balls in shape and color. He is a man of venerable appearance, having a white beard, eighteen or twenty inches in length, which makes him look like a Dunkard.

HIGHLY IMPORTANT FROM ENGLAND!

Arrival of the Britannia Steamship
---Arrest of Daniel O'Connell and eight others---Suppression of the Repeal Meetings, &c.

The British Mail Steamer Britannia arrived at Boston late on the 4th inst., in 16 days and 3 hours from Liverpool. We are indebted to an extract from the Boston Atlas for the news brought by her, which is of a startling and important character.

The Atlas says:—By this arrival we have our full file of London and Liverpool papers to the 19th of October—being fifteen days later than our former advices.

The business affairs in England still held their improved state. Cotton advanced full 4d, and very large sales had been made, even at the advance. Our accounts say that the sales of Cotton had been larger than at any time for the last fifteen years—amounting to 91,580 bales in one week. Money continued abundant, and was placed at low rates of interest.

An important item in the news by this steamer, is the arrest of the great leader of the Irish political agitation, Daniel O'Connell. He was arrested in a private manner, on a charge of "conspiracy, for the purpose of compelling her Majesty, by demonstrations of physical force, to change her measures, and the laws of her realm; also with the utterance of seditious and inflammatory language, calculated to bring into contempt the government and constitution of the country, and produce dissatisfaction in the army; and further, with raising money to procure a change in the laws and constitution of the realm." O'Connell was subsequently bailed, and addressed a weekly meeting of the Repeal Association of Dublin. He is said to have given intimations of abandoning the idea of Repeal, and advocating the formation of a more perfect Federal Union.

Another important feature in the foreign news is the adoption of a new Tariff, and new commercial regulations in China, which had been promulgated at Canton. This information was received in London on the 9th of October. It came by the Oriental steamer from Alexandria to Marseilles. These new regulations all relate to the trade between Great Britain and China, and are the results of stipulations of a Commercial Treaty entered into by Sir Henry Pottinger, on the part of Great Britain, and Keying, High Commissioner, on the part of the Emperor of China.

The provisions of this Treaty will be highly beneficial to the English trade. Many burdensome and vexatious duties are entirely abolished, and uniform duties have been adopted in their stead.

Sixteen Lives Lost—Destruction of the Steamer Sarah Barnes.

We are indebted to the New Orleans Picayune for a slip containing the following particulars of the loss of the Sarah Barnes, as communicated by the mate, Charles Cloud, who arrived at New Orleans on the 23d October, in a schooner from Galveston, with Mr. A. G. Abell, bearer of despatches, Mr. B. P. Hartshorne, Mr. F. Pickard, and Mr. Matthews, first engineer on the Sarah Barnes.

On the 24th ult., noon, she crossed the Galveston bar for this port. On the next morning, the 25th, a considerable leak was discovered in her hold. All the pumps were set to work; but they were able to keep her free for a short time only. At half past 2, P. M., the water had ascended to the fires and the engine. Further efforts to counteract the leak were therefore unavailing, and to save their lives became the concern of all on board. They then set about making rafts of the cotton bales—four bales to a raft—and lashed together some spars for other rafts. She was now sinking rapidly. Orders were given to cast off the boat's painter, and while doing this she struck a rock, and the water rushed in.

New York Election.
At the election in the State of New York, last week, the Whigs achieved a glorious triumph. In New York city, through the remissness of some of the Whigs, the Locofocoos carried a Senator for four years, a County Clerk, Coroner and all the members of Assembly except one. When we receive the full returns we will lay them before our readers.

The New York Tribune contains the following: "By noting our returns it will be seen that, while the Whigs have almost every where else, in the face of a most violent snow storm and other difficulties, achieved decisive gains and often glorious victories, our city has behaved disgracefully—throwing away the triumph which was so completely in our hands and losing almost the entire Whig ticket by some 4 or 500 average majority—A Senator for four years is gone; a County Clerk and Coroner for three years; with all but one member of Assembly. We carry that one, with our Sheriff, who has a decided majority.

We might, if we pleased, exult over the reduction to 4 or 500 of the last Spring's Loco Foco majority of 5,800. We might exult over the valiant things the Whig have done, and the triumphs which surely await them. But we shall do no such thing. The majority of last Spring was, five-fifths of it, a notorious, palpable fraud, and amounted to nothing. There has been for years only a few hundreds against us here, when the city was not on our side. Now the chances were all in our favor. The Common Council elected by the swining vote of last April has behaved so badly as to excite universal disgust, and create a formidable, vetebrate schism in their own party. The Whigs, as a body, had only to exercise a moderate degree of energy and common sense, and they would have swept the City, electing their whole ticket by thousands. A part of them have chosen to do very differently, and the result is a defeat which we can not but consider disgraceful and injurious to the cause."

THE MORMON PROPHET TURNED TAVERN KEEPER.—We learn from the Warsaw Signal, that the "Nauvoo Mansion," kept by Joe Smith, was opened on the 3d ult., with great ostentation—speeches made, resolutions offered, and toasts drank, all which are reported in the Neighbor with great eclat.

Some of the resolutions are quite rare specimens, and characteristic of their origin. Here follow two of them:

Resolved, Gen. Joseph Smith, whether we view him as a Prophet at the head of the Church; a General at the head of the Legion; a Mayor at the head of the City Council, or as a Landlord at the head of his table, he has few equals and no superior.

Resolved, Nauvoo the great Emporium of the West, the centre of all centres, a city of three years' growth, a population of 18,000 souls, (!) congealed from the four quarters of the globe (!!) embracing all the intelligence (!!!) of all nations (!!!) with industry, frugality, economy, virtue, and brotherly love: unsurpassed in any age of the world, in the State.—Pittsburg American.

ON DUTY.—The Baltimore Patriot of Wednesday evening says, "there are reports in this city that there was a flare up in the Cabinet yesterday at Washington—which ended in a breach among all the members except Mr. Tyler and Mr. Upshur.

From the Clinton County Whig.

Gen. James Irvin.

As a genuine Whig, we have ever held it to be our imperative duty to submit to the will of the majority. This is one of the first principles of liberty, recognized, adopted, and practiced as such by the Democratic Whig party. When we hoisted the name of Mr. M'Kenna, as our choice for Governor in 1844, we had every reason to believe that such a course would meet the decided approbation of the Whigs of Clinton county—and are well convinced that it was approved of at that time. But since the name of Gen. James Irvin of Centre county has been mentioned in connexion with that office, so great is his personal popularity here, and so great the confidence the people repose in his capability and strict integrity, that with one voice, almost, they have declared him to be their first choice. We have been spoken to and written to on the subject by our Whig friends from every section of the county—and indeed such the enthusiastic unanimity manifested by the Whigs of this county in the General's behalf, that we feel it to be our duty, as the organ of the party, to support the man of their choice. We therefore, in accordance with the views, feelings and expressed wishes of our political friends nail to our mast head the name of Gen. JAMES IRVIN, of Centre county, as the first choice of the Whigs of Clinton county for Governor in 1844. And we feel proud of the fact that we have in our very midst a man so admirably calculated to fill the Chair of State with honor to himself and advantage to the whole People of the Commonwealth. A man of splendid talents, he possesses a private character pure and unsullied as the noon-day sun. He is one of Pennsylvania's most talented and valuable sons—one of whom she has just reason to be proud. He is decidedly the most popular man in Northern Pennsylvania—as his vote at the recent election will show; and his popularity is confined to no particular section of the State. His course in Congress—his bold and determined stand in favor of the Tariff won for him golden opinions throughout the entire Commonwealth. A number of Whig Journals have already reared aloft the Whig banner; with the name of Gen. James Irvin as the Whig candidate for Governor in 1844 inscribed upon its ample folds. We have not the least doubt as to his nomination by the State Convention—and if nominated, nobly will the people of the Keystone State rally to his support. HENRY CLAY for President, THOMAS M. T. M'KENNON for Vice President, and Gen. JAMES IRVIN for Governor!

Locofocoos will tremble, totter and fall before the tower of strength! More anon.

A Hebrew Wedding.

Weddings are an interesting subject to our fair readers, and we suppose that nearly every one knows by heart what are the appropriate ceremonies to be observed "when the time comes!" The observances however, at a Hebrew wedding, are probably not quite so familiar, and therefore a brief account of one furnished below, will add a little to their information on the various ways and means of initiation into the mysteries of Hyphen.

The New York Tribune states that a Hebrew wedding took place on Wednesday, 1st inst., in Crosby street, where Mr. T. J. Scias was united to Miss Anna Judah. Rev. J. J. Lyons officiated as Priest, assisted by a Philadelphia brother. The ceremonies were most impressive to the large congregation of Gentiles whose curiosity had drawn them to the sacred edifice, which is rarely opened to any but the faithful on such occasions. A long recitation in Hebrew was chanted by the Priest from the altar, after which a canopy 120 years old, resting on four uprights, was brought out, and the parties took their station under it and were united. A ring was given, a glass of wine drank by the wedding pair, the glass broken, with some chanting intermingled, and the ceremony declared complete.
