

SCRAPS FOR FARMERS.

Manure.

Having selected the best place for your pit, first lay in way soil, peat, or any soil as different as possible from that of your farm...

The lower pit may be used as a store of liquid manure, for watering your corn in May or June, which gives it a start and much strengthens its growth.

Butter.

In Holland, where butter making has arrived at the greatest perfection, and whose butter brings the highest price...

"We beg of our dairy-women," says Judge Buel, "to mark two points in the preceding process. 1. No salt is used but what is incorporated with and dissolved in the butter, and which is necessary to give it flavor; and, 2. the butter intended is worked from six to eight times, to incorporate the salt, and to separate from it every particle of liquid, which, if left in it, would induce rancidity."

The Peach Tree Worm.

This worm can be destroyed by growing the tanzu, wormwood, or any bitter plant or shrub, around the peach-tree. A dozen sprouts or so are quite sufficient for protection, and it is best to set them out in the spring of the year.

Things to be Remembered.

If a farmer wishes to have his pork barrel or meal chest hold, out let him look well to kitchen garden. Plenty of vegetables conduce not more to health than to profit.

In laying in a stock of winter fodder for animals, let it not be forgotten that a little too much is just enough. Starving animals at any time is miserable policy.

As you treat your land so will it treat you. Feed it with manure liberally and it will yield you bread bountifully.

Avoid debt as you would the leprosy; if you are ever tempted to purchase on credit put it off for three days. You need time for reflection.

The man who uses good seed, has a good soil, and works in a good season, rarely fails having a good crop to reward his toil.

Never forfeit your word. The saying it in truth of any farmer, "his word is as good as his bond," is worth more to him than the interest of ten thousand dollars, annually.

Horses should never be put to severe work on a full stomach. More horses are hurt by hard driving after a full feed than by a full feed after hard driving.

The cheapest and best Lady's Magazine.

THE LADIES' NATIONAL MAGAZINE.

(BEING THE ARTIST AND WORLD OF FASHION COMBINED.)

EDITED BY

Mrs. A.S. Stephens & C.J. Peterson.

Permanent Contributors,

Mrs. L.H. Sigourney, Frances S. Osgood, A.M.F. Annan, Emma C. Embury, Caroline F. Orne, Miss Mary Davent, Mrs. Caroline Lee Hentz, M.L. Lawson, Amelia B. Welby, Lydia Jane Pierson, and other Females of the first rank as authors.

This elegant and popular monthly periodical was established in July, 1843, by the union of the 'World of Fashion,' and F. Quarré's 'Artist,' and has already attained the reputation in our great cities the text book of Fashion and literature.

The correctness and beauty of its fashion plates; in the novelty, splendor and costliness of its other embellishments; and in the chastened tone and peculiarly refined and feminine character of its literary department, it is conceded that this magazine has no superior. Fully equal to the best three dollar magazines in these respects, it is yet but little more than half their price.

To render this magazine as useful on the work-table as in the parlor, the publisher has secured the services of an eminent author to furnish monthly—beginning with the January number—a Home Department, in which directions for knitting the newest styles of lace, working Berlin and Persian work and needle work, and embroidery of all kinds will be given, together with receipts for compounding cakes and sweetmeats of every variety, and, in general, whatever may be useful to the housekeeper, whether daughter, wife, or mother to know.

As this work is intended for the boudoir as well as the domestic hearth, great pains have been taken to secure the earliest reports of the London and Paris fashions. Accordingly this department has been entrusted to Madame Quarré, who receives from her Parisian correspondents designs in advance, enabling us to anticipate every rival, as has been done constantly during the past volume.

While the correct Parisian fashions are given, care is taken, in the letter press description, to point out how far these costumes are suited to our climate, a necessary caution observed by no other contemporary. In a word, this department is managed thoroughly, and not used as a mere catch-penny. Nor are the plates ever omitted in this magazine, which has been the only one to publish, in 1843, an unbroken series of fashions. These plates are always originally engraved for us, and not transferred, as in other cheap magazines, from any other contemporary.

In the costliness, brilliancy and number of its other embellishments, this magazine shall continue to equal the best three dollar monthlies. The past is the best guarantee for the future; and it is conceded by the press that, in 1843, we have surpassed in the novelty of our illustrations.

The magnificent colored engraving of the French lilac published in October—the mezzotint given in July—and the embossed view of West Point in the November number are specimens of our enterprise on this point; for the publisher is resolved that all that capital, taste, and the skill of our artists can do to embellish his work shall be done, to render it universally, in country as well as city, the ladies favorite.

The novelty and brilliancy of our illustrations, form a striking contrast to the dull monotony of the embellishments in other magazines. While we give, in each number, either a line or stipple engraving, or one of Sartain's mezzotints, we publish invariably a third plate, which is either a colored flower; an arabesque pattern; a new style for lace-work or embroidery; colored birds; embossed landscapes; or bouquet colored and uncolored; portraits printed in color; or others of varied, novel and beautiful illustrations, designed especially for us by the eminent French artist, F. Quarré.

The line and stipple engravings are from the burins of our most eminent engravers,

done originally for this work, often from original American pictures. There will be no coarse lithographs in this work, nor worn out plates; but our engravings shall rival those of the best annuals. Among them Sartain's glorious mezzotints, which have never been equalled in this country, and are unattainable in every other lady's magazine, shall fill a prominent place.

Embossed work of Mr. Leonard, the celebrated die-sinker, solely engaged for this work, will also appear at intervals. The volume, beginning in January 1844, besides these great improvements, will appear in a new and beautiful type, cast expressly for this work. Everything will be done, in short, to make the "Ladies National" an ornament to the centre table, the companion of the doudoir, and the home book and instructor of the fire-side.

Time of publication.—This magazine is issued from the office between the 15th and 30th of the month preceding the one for which it is dated, or immediately on the arrival of the steam-ships bringing the reports of the fashions.

THE TERMS.

The Cash system, adopted and maintained by the publisher, enables him to afford a magazine, in every respect equal to the old three dollar magazines, at one third less cost. The price of the "Ladies National," is, therefore, only two dollars per annum, cash, in advance. Each subscriber, at the end of the year, is notified of the expiration of his term, when, if the subscription is not renewed, he is no longer served. This is far better than forcing the book on a subscriber, if he neglects to notify the publisher at the end of the year. Let it be remembered that this is the only magazine, similar in embellishments and literary character to the three dollar monthlies, which is afforded under their price.

TO CLUBS.

In order to facilitate remittances from post-towns where there is no local agent, the publisher offers the following terms to persons disposed to club, viz:

Table with 2 columns: Quantity and Price per annum. 1 copy \$2.00, 3 copies 5.00, 6 copies 10.00, 12 copies 20.00.

This money must be sent, post paid, in advance.

PREMIUMS.

We offer the following inducements to Post Masters and others who will take the trouble to procure subscribers:

For a club of three, and \$5, any one of Miss Bremer's novels, or the "Gems of Art and Beauty."

For a club of eight and \$10 any one of Rockafellar's Original American novels—Mrs Fore's "Bankers Wife," or any of Harper's late novels.

For a club of seventeen, and \$20 Cooper's new novel, "Wyandotté," or two copies of the "Gems of Art and Beauty," or any other of the premiums, or any work of equal value the post master may wish.

A Pictorial annual, containing a selection of his choicest embellishments, will be published by the subscriber on the 1st of December. This elegant work will be sent to any postmaster or other person who will procure us two new subscribers, and the money, or who will obtain either of the above clubs.

All letters must be franked or postpaid. Any premium offered by any contemporary we will give, on equal terms.

As the January number will be ready very early in December; friends and neighbors cannot be too prompt in getting up clubs.

AT THE HEAD OF THE PERIODICALS OF THE WORLD.

Graham's Lady's and Gentleman's Magazine for 1844.

The January Number to be published December 10th, 1843.

GRAHAM'S MAGAZINE has long enjoyed the enviable reputation of being the best periodical in the United States, in the quality and number of its embellishments, and the tone of its literary matter. It is the cheapest as well as the best. For the year 1843 the publisher has given about 100 pages more original reading matter than any other of his contemporaries, and more original steel engravings, in addition to the fashion plates and colored flowers.

The cheapness and merit of a three dollar magazine over all others may be understood, which has made an outlay of over seventeen thousand dollars greater than any other, and an addition of engravings over other magazines that would embellish the costliest Annual. The publisher is, however, satisfied that nothing but real excellence can maintain the high position his periodical has assumed in the United States, and as the taste improves and extends for good works, that nothing of a humbug order will be tolerated. Every number of Graham's Magazine is issued at a cost of nearly \$4000—the plates alone, costing nearly half the sum. Most of the plates are from ORIGINAL AMERICAN PAINTINGS.

Executed expressly for the proprietor, for engravings for the Magazine. Among the pictures painted for the volume for 1844, are two by Solly the great artist, several by Leutze, Chapman, Inman, Conarre, Rothermel, Thompson, and others of the best artists of America.

To POSTMASTERS AND OTHERS.

The high merit of Graham's Magazine considered, the publisher flatters himself

that the following liberal terms will induce thousands to subscribe.

To CLUBS the following proposals are made—two copies for \$3, five for \$10, eight for \$16, eleven for \$20.

To postmasters, or other persons forming a Club, the publisher will forward a Novel for every subscriber sent, so that varying the books a complete Library may be obtained by any person in a short time. Single copies, three dollars per annum, in advance.

And to the person sending the money, a copy of "The Gems of Art and Beauty," containing 13 splendid Mezzotint and Line Engravings, and also a copy of "Ringwood the Rover," Herbert's Prize Novel, will be forwarded gratis.

NEW MIRROR.

Every Number embellished with an original and exquisite design on steel.—Edited by Geo. P. MORRIS.—Illustrated by J. G. CHAPMAN, who is engaged exclusively for this work.

TERMS—Three Dollars per annum.—Single Number 6 cents.

In the course of a few weeks the undersigned will commence on his own account the MIRROR, in the octavo form, on an entirely novel and original plan, with a steel engraving in every number, and at the reduced price of three dollars per annum, or six and a quarter cents per copy.

The NEW MIRROR will appear with many striking and attractive features, distinguishing it from every other periodical. It will be published with new type, on fine paper, and each number will contain a beautiful original Engraving on steel, designed and etched by Chapman, illustrating the letter press which it accompanies and which it will invest.

Besides the contributions of all our extensive corps of correspondents, which embraces most of the talent of this country, we have made arrangements for fresh and early translations from some of the best writers of France, and for proof sheets from several of the popular authors of England. With such materials and with such able fellow-laborers in the literary vineyard, we hope to present to the American reader a weekly journal of much value and unusual excellence.

The parade of mere names will be sedulously avoided. The Mirror will be remarkable, we hope, rather for good articles without names, than for poor articles with distinguished names. It will embrace in its scope every department of elegant literature, comprising tales of romance, sketches of society and manners, sentiment and every day life, piquant essays, domestic and foreign correspondence, literary intelligence, wit, humor, fashion, and gossip, poetry, the fine arts, and literary, musical and dramatic criticisms. Its reviews of new works will be careful, discriminating and impartial. It will aim to foster a literature suited to the estate and desires of the age and country. Its tendency will be cheerful and enlivening, as well as improving. It will seek to gratify every refined taste, but never to offend the most fastidious, and it will ever feel its duty to be to turn the sunny side of things to human eyes.

The work will be published every Saturday, in numbers of sixteen large octavo super-royal pages, with double columns, and enclosed in a neat ornamental cover. It will form, at the end of the year, two superb volumes, each of four hundred and sixteen pages, filled with the gems of literature and the fine arts.

The very low price at which it will be issued renders it the cheapest periodical in this or any other country, considering the cost of its fifty two engravings, and the intrinsic value of its literary contents.

Those desirous of receiving periodically from the commencement, will have it punctually sent to their address upon their forwarding to the undersigned, at No. 4, Ann street, three dollars free of expense.

Letters enclosing the amount of subscription, may be franked by all postmasters. Agents, carriers, and newsmen, will be supplied on the usual terms. The cash system will be rigidly adhered to without any deviation whatever.

Such editors as copy the above, will oblige me by forwarding a marked paper, and by resuming the exchange which was interrupted much to my regret, by circumstances over which I had no control.

GEORGE P. MORRIS, Editor and Proprietor.

NATURAL PRINCIPLES.

It is written in the Book of Nature and common sense, that the natural vegetable productions of every country are, if properly applied, amply sufficient for the cure of every malady incident to that climate.

WRIGHT'S INDIAN VEGETABLE PILLS are founded upon the principle, that the human body is subject to but one disease, viz: corrupt humors, which, when confined to the circulation, give rise to those disordered motions of the blood called levers; but when lodged in the various parts of the body, are the cause not only of every ache or pain we suffer, but every malady incident to man.

It should be remembered that Wright's Indian Vegetable Pills are composed of roots and herbs, which grow spontaneously on our own soil, and consequently are so admirably adapted to our constitutions that, while they cannot possibly injure even the most delicate, a perseverance in their use, according to directions, is absolutely certain to drive disease of every name from the body.

When we wish to restore a swamp or morass to fertility, do we not drain it of the superabundant water? In like manner, if we would restore the body to health we must cleanse it from impurity.

Wright's Indian Vegetable Pills, will be found peculiarly adapted to carrying out this grand purifying, because they expel all corrupt humors in an easy and natural manner, and while they every day GIVE EASE AND PLEASURE,

the constitution is restored to such a state of health and vigor, that disease will find no abiding place in the body.

Beware of Counterfeits!

As the great popularity of Wright's Indian Vegetable Pills, has raised up a host of counterfeiters the public are cautioned against impostors, who are travelling about the country, selling to the unsuspecting storekeepers a spurious article for the above celebrated Pills.

It should be remembered that, all who sell the genuine medicine are provided with a certificate of agency, of which the following is a copy:

This is to certify that the within named — is a regular and duly appointed Agent for the sale of Wright's Indian Vegetable Pills, in the town of —, in the State of —, and this certificate, which is signed by Wm. Wright, Vice President of the North American College of Health, must also be countersigned by the acting Clerk or Agent, from whom said certificates are received.

This certificate of agency will be renewed every twelve months; therefore, if any alteration should be made in the date, do not purchase.

The public are further informed that all who receive the above certificate, are also required to sign the following

PLEDGE.

This is to certify, that the subscriber by certificate bearing eye date herewith, signed with the proper handwriting of William Wright, Vice President of the North American College of Health, — been appointed Agent for the sale of

WRIGHT'S INDIAN VEGETABLE PILLS, Or Indian Purgative,

in the town of —, and State of —, to hold and continue in said agency during the pleasure of the said William Wright, and no longer, any thing contained in the said certificate signed by the said William Wright, to the contrary thereof notwithstanding.

In consideration whereof, I hereby covenant and agree to and with the said William Wright that I will not sell, or expose to sale, any medicine bearing the above or a similar name during my said agency, other than that which I receive from his authorized agent or agents, under the penalty of five hundred dollars to be paid by him, as liquidated damages, of itness — hand and seal, the — day for — one thousand eight hundred and forty —

Thus it will be seen that the friends of the genuine medicine may be perfectly free from any apprehension of fraud, as all agents, who are provided with a certificate of agency, have invariably

SIGNED THE PLEDGE

not to sell any Indian Vegetable Pills except those received from the above named William Wright, or his authorized agents.

Country agents and other, will be on their guard against travelling impostors, and remember that all authorized travelling agents are also provided with a certificate of agency as above described, and that Pills offered for sale, by those who cannot show a certificate of agency, are sure to be counterfeit.

It will be further observed that all genuine medicine has the title expressed in full on the sides of the boxes thus:

WRIGHT'S INDIAN VEGETABLE PILLS, (Indian Purgative) OF THE NORTH AMERICAN COLLEGE OF HEALTH.

The patrons of Wright's Indian Vegetable Pills, will also bear in mind that the directions which accompany each box of Pills, have been secured by copyright, and the proper form, viz: "Entered according to the act of Congress, in the year 1840, by William Wright, in the Clerk's Office, of the District Court of the Eastern District of Pennsylvania," will be found at the bottom of the first page of said directions.

Thus it will be seen, that a trifling attention on the part of the purchaser to the above particulars, will put an effectual stop to this wholesale robbery, and drive, to an honest calling.

The following highly respectable store keepers have been appointed agents for the sale of

Wright's Indian Vegetable Pills, of the North American College of Health.

William Stewart, Huntingdon. Henry Leamer Hollidaysburg. B. F. Bell, Antes township. Robert McNamara, Newry. Samuel S. Isett, Tyrone township. Millikens & Kessler, Mill Creek. A. & N. Crosswell, Petersburg. Gemmel & Porter, Alexandria. Moore & Steiner, Water Street. Joseph Patton, Jr. Duncausville. R. H. McCormick, Collinsville. Wolf & Willet, Frankstown.

Offices devoted exclusively to the sale of the medicine, wholesale and retail, No. 288 Greenwich street, New York; and No. 196 Tremont street, Boston; and Principal Office, No. 169 Race street, Philadelphia.

N. B. The public are respectfully informed that the Pills made by one V. O. Flack, and sold by a man named Parker, in Third street, are not the genuine Wright's Indian Vegetable Pills; and as counterfeiters and their associates sell at half price, it is absolutely impossible for them to have the genuine medicine for sale. * * * Be particular in all cases to ask for the genuine Wright's Indian Vegetable Pills.

Dr. Moffat's Life Pills

PHENIX BITTERS.

The perfectly safe, unerring and successful treatment of almost every species of disease by the use of Dr. MOFFAT'S LIFE MEDICINES, is no longer an experiment; as a reference to the experience of many thousand patients will satisfactorily prove. During the present month alone, nearly one hundred cases have come to the knowledge of Dr. MOFFAT, where the patient has to all appearance, effected a permanent cure by the exclusive and judicious use of the Life Medicines—some eight or ten of these had been considered hopeless by their physicians. Such happy results are a source of great pleasure to Dr. M., and inspire him with a new confidence to recommend the use of his medicines to his fellow citizens.

The LIFE MEDICINES are a purely VEGETABLE preparation. They are mild and pleasant in their operation, and at the same time thorough—acting rapidly upon the secretions of the system—carrying off all acrimonious humors, and assimilating and purifying the blood. For this reason, in aggravated cases of Dyspepsia, the Life Medicines will give relief in a shorter space of time than any other prescription. In Fever and Ague, Inflammatory Rheumatism, Fevers of every description, Sick Headaches, Heartburn, Dizziness in the Head, Pains in the Chest, Flatulency, Impaired Appetite, and in every disease arising from impurity of the blood, or a disordered state of the stomach, the use of these medicines has always proved to be beyond doubt, greatly superior to any other mode of treatment.

All that Dr. Moffat asks of his patients is to be particular in taking them according to the directions. It is not by a newspaper notice, or by any thing that he may say in their favor, that he hopes to gain credit. It is alone by the result of a fair trial. Is the reader an invalid, and does he wish to know whether the Life Medicines will suit his own case? If so, let him call at the office of the agent, and procure a copy of the Good Samaritan, published gratuitously. He will there find enumerated very many extraordinary cases of cure; perhaps some exactly similar to his own.
