THE MORTALITY ON BOARD THE

THE MOR TALLTY ON BOARD THE

U. S. SHIP PREBLE.

The U. S. store ship Ecie, from Fort
Praya, brings full details of the lamentable mortality on board the Preble, belonging to the African squadron. On her
arrival at Rio Grande there were seventysix on the sick list, including the 1st
Licutenant and Sailing Master. A correspondent of the Heraid, in a letter dated at Rio Grande, Feb. 3d, furnishes the
following interesting particulars:

The day after we arrived Md. Smith
died, who was first on the list of deceased,
in a lew days two more died. There
was no burying ground on shore of any
sort, there were a few graves (which belonged to some English and French men
of war) in an open common, exposed to
the trampling of mules; goats and jackasses. As soon as the Commodore came,
he purchased a lot and had a near para
pet wall built around it, with a handsome
railing on top, with a cross on each angle
and one over the gateway. This precaution has been taken in order to secure the
cemetry from any molestation on the part
of the natives, who would not nay the Memorabel 13 of Classes and Library Contracts of Li

crash occasioned by the passenger cars running into a train of burthen cars, and breaking four or fore cars, belonging to D. Leech & Co., all to atoms. We understand that there were several boxes of specie in one of the ears, which were broken open, and the specie scattered over the road.

Another—Yesterday morning as a train of burthen cars were coming down the grade into town at a very rapid rate, it run over a horse which was about crossing the road, throwing the train off the track, and precipitating part of it over a slight embankment, breaking in the front of a store house belonging to Peter Haldeman, Esq., and the other part directly across our principal street. A four section boat was completely demolished, and four trucks belonging to the State, ditto. Although several men were on the caus at the time of the collision, not one of them was seriously injured.

Shocking Accident.

We learn from the Hollidaysburg Register that a most shocking accident occurred at the Basin in that place on Tuesday the 1st inst, by which a fellow being was instantly hurried into eternity. It is unnecessary to describe the circumstances minutely: suffice it to say that the unfortunate individual, Mr. Levi Trine, conductor of a train of coacars, by some means lost command of his cars as they turned off the main track on to a side track which terminates abruptly in the basin, and that he was on the front car, when it pitched off the track into the water and was caught beneath the car following and buried in the werek, and thus crushed and drowned. He leaves a wife and three or four small children to mourn his untimely end, who must now become objects of charity, and are worty the kind attentions of the philanthropist.

For the Huntingdon Journal.

05 A gentleman who recently visited Washington, says the Philadelahia Saturday Inquirer, informed us on his return, that he had been told that Mr. Polk would be the President of the country aid not of a party—that he would make no removals on party grounds—that he would turn out no faithful and efficient officers turn out no faithful and efficient officers because opposed to him in politics—but would merely prefer his own competent and political friends, at the expiration of the commissions held by the then incombents. Our informant being an old politician, and pretty familiar with the doctrines and principles of Loco Focoism—we asked with some surprise, it he credited any such story with regard to the intentions and determinations of Mr. Polk. He hesitated, and then frankly confessed his belief, that whatever theory Mt. Polk might have adopted at Nashville, or before he departed from Tennessee, he would find himself so overwhelmed by persuasions and threats, not direct perwould find himself so overwhelmed by persuasions and threats, not direct per-haps, but equally cogent, that he would be compelled, even against his better na-ture, not only to turn out hundreds of honest, faithful, and capable officers, but

Mr. Webster and the Chinese,

We copy from the New York Courier of Thursday, the following curious letter which, although signed by Mr. Upshur, was as we learn, written by Mr. Webster. It is perfect of its kind.

was as we learn, written by Mr. Webster. It is perfect of its kind.

[To the Emperor of China.]
I, John Tyler, President of the United States of America—which States are: Maine, New Hampshire, Massachusetts Rhode Island, Connecticut, Vermont, New York, New Jersey, Pennsylvania, Delaware, Mavyland, Vieginia, North Carolins, South Carolina, Georgia, Kentucky, Tennessee, Ohio, Louisiana, Indiana, Mississippi, Illinois, Alabama, Missouri, Atkansas and Michigan—send you this letter of peace and friendship, signed by my own hand.

I hope your health is good. Chioa is a great empire, extending over a great part of the world. The Chinese are numerous. You have millions and millions of subjects. The twenty-six United States are as large as China, though our people are not so numerous. The rising soun looks upon rivers and mountains equally large in the United States. Our territories extend from one great ocean to the other; and on the west we are divided from your dominions only by the sea. Leaving the mouth of one of our great rivers, and going constantly towards the setting sun, we sait to Japan, and to the Yellow sea.

Now, my words are, that the governments of two such great countries should be at peace. It is proper, and according to the will of Heaven, that they should respect each other, and act wisely. I therefore send to your Court Caleb Cushing, one of the wise and learned men of this country. On his first arrival in Chioa, he will inquire for your health. He has then strict orders to go to your great city of Pekin, and there to deliver this letter. He will have with him secretaries and interpreters.

The Chinese love to trade with our people was to seal they be to death our people was to seal they to and city in the people was to seal they be to and sills for people was to seal to seal they be to trade with our people was to seal they be to trade with our people was to seal they be to trade with our people was to seal they be to trade with our people was to seal to seal the people was to seal to seal the peop

The Chinese lave to trade with our people, and to sell them tea and silk, for which our people, and to sell them tea and silk, for which our people, and to sell them tea and silk, for which our people pay silver, and sometimes other articles. But if the Chinese and the Americans will trade, there shall be rules, so that they shall not break your laws nor our laws. Our Minister, Caleb Cushing, is authorized to make a treaty to regulate trade. Let it be just. Let there be no unfair advantage on either side. Let the people trade not only at Canton, but also at Amoy, Ningpo, Fuschow, Shang-hai, and all such other places as may offer profitable exchanges both to China and the United States, provided they do not break your laws nor our laws. We shall not take the part of evil-doers. We shall not uphold them that break your laws. Therefore, we doubt not that you will be pleased that our messenger of peace, with this letter in his hand, shall come to Pekin, and there deliverit; and that your great officers will, by your order, make a treaty with him to regulate affairs of trade—so that nothing may happen to disturb the peace between China and America. Let the treaty be signed by your own imperial hand. It shall be signed by mine, by the authority of our great council, the Senate. And so may your health be good, and may peace reign.

Written at Washington, this twelfth day of Juty in the year of our Lord one thousand eight hundred and forty-three. Your good friend, JOHN TYLER. By the President:

A. P. Urshur, Secretary of State. terpreters.
