Williamsburg, March 19, 1845—1y.

TO SENSIBLE CITIZENS—We know from what we see and feel, that the animal body is, in its organs and functions, subject to deraucement, inducing pam, and tending to its destruction. In this disordered state, we observe nature providing for the re-essablishment of order, by exciting some salutary evacuation of the merbific matter, orby some other operation, which escapes our imperfect senses and researches. In some cases she brings on a crisis by the bowels, in others by sweating, &c. &c.

Now experience has taught us that there are certain substances, by which, applied to the living hady internally or externally, we can at will produce the same evacuations, and thus do in a short time, what nature could do but slowly, and do effectually what she might not have strength to accomplish. When then we have seen a disease cured by a certain naturalevacuation, should that disease occurs again, we may count upon curine it by the use of such substances, as we know bring about the same evacuation, which we had before observed to cure a similar disease. It is in consequence of the power which the Brandreth Bills exert upon the whelessystem, that makes them so universally beneficial. It is because they impart to the body, the nower to expel disease without leaving any evil effect.

As a gen rulfamily medicine, Brandreth's Pills are, it is believed by the Proprietor, superior to every ather offered to the public. Dr. Brandreth's Pills are for sale by the Islawing Agents in this county.
