Whig and Antimasonic County Ticket. HENRY BREWSTER ROBT. A. MCMURTRIE. PROTHONOTARY JAMES STEEL, REGISTER & RECORDER, JOHN REED, TPEASURER. JOSEPH LAW. WILLIAM BELL. CORONER. SAMUEL P. WALLACE. AUDITOR. SETH R. McCUNE.

Our usual variety has been somewhat in fringed upon, in consequence of a lengthy extract, which we publish in to-day's paper, from the Charge of Judge Parsons. We invite for it a

A large portion of our paper is also taken up with local politics, which our readers will also ex-cuse, as we have to reply to both the Locofoco papers in this county, our friend of the Hollidaysturg Register, being, we believe, in a mesmeric state at

The advertisement on our fourth page, sign Wm. Buchanan & Conerd Eckerd, should have been changed to Wm. Buchanan alone as the firm has been dissolved, and the business is now carried on by said Buchanan. We received his note after the outer form was worked off. The correction will be made in our next.

The regular Locofoco Convention of Northumberland county, have re-nominated E. Y. Bilght; for the Legislature, and appointed conferees, with instructions to support Wm. Dewart for Senator. Every man on the ticket with the exception of or, was taken from the borough of Sunbury.

A second meeting was held and resolutions passed against the course pursued by the Convention A second set of Conferees was appointed with in-structions to support John M. Foster, of Dauphin The last Penna. Intelligencer has about a column of extracts from the Whig press of the State, recommending S. D. Jas. Burns, of Mifflin county, has beer nominated by the Locofcos, for the office of Canal Commissioner. We are informed by a gentleman from Lewistown, that Mr. Bürne can write his name, and that his business capacity is unequalled, having made a fortune in a very short time.

We caution the Whigs to be on their guard against the lies that are now being circulated by the Locofoco candidates and their friends in every section of the county. These same men told v that Jas. K. Polk was in favor of the Tariff of 1842, and knew they were lying when they said so. They succeded with Polk, and they now are trying to lie themselves into office.

There has been a report put in circulation by the enemies of the Whig candidate for this office, that in the event of his election the duties would be performed by another person. This statement we pronounce, on the authority of James Street, himself, false. And we believe the authors knew it to so, or else they do not know the man did not ask the nomination, but as the Con-Steel did not ask the nomination, but as the convention conferred it upon him, he would scorn to

Since the above was in type, we have been shown a letter received by Major Steel, from a friend in Ennisytle, stating that a "son of the Locofoco camient language of our neighbor, they are all "matidate was circulating a story in that place, that if ters of perfect indifference to him." Do tell—no This story, for the to Theo. H. Cremer, Esq." satisfaction of all concerned, Mr. Steel pronounces basely false. If the person alluded to in the letter is circulating a story of this kind, we can assure him that it will only recoil upon himself, as JAMES STEEL is too well known to have his character impeached at this late day, by irresponsible young-

Capt. Samuel D. Karns seems to have large number of friends, who wish him to be a can-didate for Canal Commissioner. The Lewistown Gazette contains communications strongly recom mending him. The Captain is well acquainted with our public imprevements, and the evils of the system that has been followed for many years. He is an intelligent and energetic man, in the prime of life, and we have no doubt would make an excellent Commissioner-Telegraph.

Alexander Gwin, Esq.

We hold now, as we have ever held, that the people, whose suffrages are solicited for any office more especially for a legislative office—have a Eagle Club," in their last number. right to know who and WHAT their candidates mention this to show out readers how these genties are, as regards general and local measures, in which their constituents have an interest. Acting upon this principle, we have charged the friends of the nothing of himself) with concealments of his views and principles. For this we have incurred the de. trol of a master, was suggested, no doubt, by their nunciation of the Locofoco papers of this county, who sing unceasing hosannahs to Mr. Gwin, but persist in "keeping dark" as to what his views are on any subject, whether connected with the county, or nation. Now, we age again, in the unsothe Lo-cocce editors to affect that they do not understand us—and to set them and all others straight on that point, we repeat again that we are straight ing information for ourse! —it is sufficient for us to know that Mr. Gwin and the rest of his ticket are Locofocos, and nominated as such—it is for that (independent of other considerations) that we would oppose them; it is enough for us to know that they are leaders of that party which, in the language of prominent members of it, "is held together by the cohesive power of public plunder," and declares in piratical language, "that to the vic-tors belong the spoils"—that party whose chief weapon is falsekood and detraction—who practise fraud and stop short of no means, however base, to accomplish its ends, and secure "the cohesive power of public plunder." To know this, we say, is enough for us-amply sufficient to secure ou opposition to them; but we want these skulking editors and leaders to act fairly towards the funthe temperature of the temperatu tors will advocate and what oppose; and he who conceals any part of this practices a fraud upon them—a fraud little, if any, less wicked than he who misrepresents facts to them.

The Whig candidates for Assembly are in favor of the Tariff of 1842, as it is; and if elected will vote for instructing our Senators and requesting our Representatives in Congress to oppose the contem-plated reduction of the Tariff to the revenue standard. Mr. Gwin, we have very good reason to believe, is in favor of a reduction, and would there-fore advocate it with whatever ability he possesses, and his mouth-piece, the Globe, ascribes much to him. Will the Locofoco presses have the candor to say yea or nay to this? Will they say whether he is for the Tariff of 1842, or against it?

Our candidates are opposed to the thrice defeated Sub-treasury system, which the National Adminfstration intends to establish as the system of the and mocoloco candidates are in favor of this abominable system and will support it as a matter of course. What say you-yea or nay?

The former are in favor of the Distribution of the proceeds of the sales of the Public Lands, and will advocate that measure—the latter are opposed

to it.
The Whig candidates are in favor of selling the Public Works, and thus reducing taxation, where-by the hard earnings of the farmer, the mechanic and all classes, are forced from them, to be squan-dered in extravagance and to enrich the officers on those works. We believe the Locofoco candidates time at \$2.00 per day as a public officer off the can lead to be opposed to selling the source of so much of the "cohesive power," and in favor of continuing Manslatouterer.—The trial of Shamberger, Callio and Hahn, for maltreating Washington Brooks our belief, gentlemen! Are ye for or against the sale of the Public Works!

Last and least important, Robert A. McMurtrie, one of our candidates is in favor of the division of

voluntary manslaughter. They were sentenced to the county, and Henry Brewster, the other, is optivo years in the Eastern Pehiltentiary. over again (the assertion of the Globe to the con over again (the assertion of the Globe to the contrary liotwithstanding.) We have it on the very best of authority, that Mr. Gwin is in favor of the division of the county, and Henry L. Palterson is acknowledged to be so, even by the Locofoco presses. Now we want the mouth-piece of our friend "Janus" to say whicher Mr. Gwin is for or whether he is against this measure. We do not intend to let our neighbor of the Globe off with his convenient ples of "merfect indifference". his convenient plea of "perfect indifference," al-though he has been a few weeks longer in the county than ourself. Our neighbor may not care; but we assure him of what he already knows, that It is not a "matter of perfect indifference" to the citizens of the county, whether the county is divided or not. THEY want to know how "Janus" is in reality. They cannot understand a man who is for a measure in the upper end; significant it in the lower end; and both for and against it in the middle por-tion of the county. Do just have the "presump-

The Locofoco Press.

The gentlemanly editors of the Hollidaysburg Standard, referred us to "our masters of the Spread men are trying to conduct this campaign. This Club has been conied into existence by the fruitfulimagination's of the editors of the Standard, it being whose name heads this article, (to say the first, intimation we had that such a Club was f himself) with concealments of his views in existence. The idea of us being under the conown unenviable position, bound down as they are by the cords manufactured by James M. Bell, Esq. These men, who were AFRAID to tell the people to elect delegates to form a county ticket, fearing if they did so, that the interests of their master might not be so well attended to, as if they would Convention, and then quietly, without letting the people know anything about it, slip into the old Court House, after night, and nominate a whole ticket, made up and crammed down their throats by their masker, James M. Bell Esq.; these men, who DARE not tell the people what their candidates are; these men, who only dare, in 'speaking of what their candidates are, say they "hope," they are in favor of the division, talk of "our masters, forsooth! Do you not know, Messrs, editors, that Alex. Gwin is in favor of the division of the county? Do you not know that he went to Harrisburg last winter as the avowed opponent of division, and while there turned traitor to his friends and neighbors, and secretly favored that measure? Yes you do know it, but dare not avow it. We stated fearlessly in our first number after the nominations what both our candidates were, without ever con sulting the candidates or any one else. The mis-erable slaves of James M. Bell, who charge us with being under the control of "masters," only dare "hope," in one end of the county, and in the other they are "perfectly indifferent" as to what their candidates are. They know, they say, they are good locofocos, and that is all they care for. They know also, we suppose, that they will suit their master, as he generally prefers to have men without either principles or conscience in his employ.

We did "hope" that the questions that we put

to the Locofoco editors in regard to their candidates, would have been treated in a different spirit. We did not expect they would have been answered by low, sneaking insinuations in regard to ourself; but if these gentlemen are desirous for this kind of warfare, we have only to say to them in the language of Shakspeare-

guage of Snakspeare—

"Lay on, Macduff;
And d—-nd be he who first cries, Hold, enough And d—-nd be he who first cries, Hold, enough."
But as long as there are questions of vital importance to the people of the county in agitation, we do not intend to be "perfectly indifferent" on local matters. We consider it the duty of the press, as seep them auvised or the opinions of candidates on all questions of importance to them, and the editor who refuses or is afraid to do so, forfeits his right to the proud title of freeman, and is only fit

The Globe---Mir. Gwin's Influence.

"There is no man in either party who is better known to the voters of this county than Alexander Gwin, and particularly, is he known, and his influence appreciated by the Whigs and anti-masons, who have for years felt that his untiling opposition to their mongrel party, was making gradual, but lasting roads into their rotten organization. The fact is, there is no man whom the democrats could bring forth, that these ahli-masonic whigs have such a holy horror of as Alex. Gwin; therefore the necessity of them assailing him with so much virulence."

This is the way the Hunting'on Globa are.

This is the way the Huntingdon Globe an swers the inquiry who and what Alexander Gwin is. That paper has not the manliness to tell its readers where its candidate stands with reference to gefieral or local politics, but falls back upon his Sampson-like political strength. We have a "holy horror of" him, we are told, because of his untiring opposition to our party, into which he has been "making gradual, but lasting roads! This sounds very well; don't it, venerable sage of the Globe? But let us compare it with facts, and you shall sets the greatness of your candidate, as well as your own gooieness. First, then, you will not deny that this place is the home of your great candidate, and that his influence is chiefly exerted in this election district, where all his demagogueical operations are started. Let us take up the "returns" next, so that we may appreciate his influence, as you have it; and that these everlasting rough "roads" into our "rotten organization" may be seen. We will begin with 1839. In that year the Locofocos carried the district by a majority of 174 votes, and came within about 200 votes of beating us in the county. At the Presidential election in 1840 your great and influential candidate got for his candidate, Mr. Van Buren, 45! ma-jority; and at the Presidential election last fall, your very Ajax of a candidate, who exerted 89670 in him, raised up to 4 !!! majority for Mr. Polk ! in him, raisea up to 4::: majority for Mr. Polk! Now, venerable youth, is not this an awful specimen of "making gradha", but lasting roads" into our organization? Truly the Whigs ought to have a holy horror of a man who has been retiling 1. T UP on them in such a way !!!

So much of past history—now for a little editorial prophecy. At the next election there will be a majority against Alexander Gwin, Esq. in this district. Stick a pin there, and mark it.

That the locofocos will elect to some of the offices in this county, men who voted for James K. Polk, is rather probable, than otherwise.—Globe.

The idea of the locofocos electing a Polk man in a county where there is a majority of 1500 against them, is rather "presumptuous," neighbor. Don't you expect some help from the Whigs to elect your Polk men to offices where they could advance the Polk men to offices where they could advance the locofoco and retard the Whig cause. Although we have not been in the county quite as long as your venerable self or the veteran junior of the "Stand" ard," yet we can assure you that it is highly "presumptuous" to expect the Whigs thus to cut their

own throats, politically.

The election of a locofoco to fill some of the offices in this county, in the place of the present incumbents who have grown quite grey, would, to say the least of it, be rather "honest," than otherwise.

What does the conspicuous word "honest" mean in the above extract? Is it an imputation of want of honesty so far as James Steel or John Reed, or any other man on our Ticket, is concerned? Come, neighbor, speak out with more plainness. If you meignor, speak out with more planness. It was wish to impeach the character of any man, let us know it—if not, make no insinuations. And what about the "quite grey!" Have you not been in the county long enough to know that your candidates, John Cresswell and Jacob Miller, have held office a considerable portion of their lifetime; and that grey hairs honor their heads also. Do you not know that they have held office as tongs as the people, the Governor, and the Banks, would appoint them—and that they are yet as greedy as ever for office, orrice OFFICE!

The Penna Intelligencer, in speaking of the increase of our subscriptions, makes the following remirks:

remarks:

We congratulate him upon his encouraging prospects, which his numerous friends here will be glad to hear of. His paper is conducted with ability and in true Whig spirit, and the best evidence he can have that his services in the cause are duly appreciated, is the fact that new subscribers are thus pouring in upon him. It is proof also that the Whigs of Old Huntingdon are active and vigilant, and that they know that the best way to advance their cause is to disseminate as widely as possible the principles of the party, through the press. Whenever we shall see similar efforts on the part of the active Whigs of the several counties, to increase the subscription to their local papers throughout the State, then we shall look with confidence to the speedy redemption of the Keystone from Locofoco rule."

We are under obligations to our friend of the Intelligencer, who has been pleased to notice our undertaking and prospects so favorably. We could not receive a compliment from any source that would be more flattering to our feelings, than from the pen of friend McCurdy, and through the columns of the Intelligencer—the first paper that brought out Gen. Harrison for the Presidency. We can only say to all our old friends, who may feel an interest in our success, that we are in Hun-tingdon county — among Huntingdon county at \_tam there is no such ward a

At a public meeting in Virginia on the sub-ject of education, Gov. McDowell said that, while in Connecticut there were not 500 persons over 20 years of age who cannot read or write, in the Old Dominion, there were not less than SIXTY

Here is presented a striking contrast between two States, one governed by Locofocos and the other by Whigs! Does any one want any better, evidence of the fact that wherever ignorance prevalls, Liocofocoism has unchecked sway? Where does it rule with a more iron despotism than ir

OF THE

HUNTINGDON JOURNAL.

It is a fact admitted by every one, that
the "HUNTINGDON JOURNAL" has
been a faithful and efficient sid to the Whig
and Antinasonic cause in Huntingdon county. Believing that its influence and usefulness may be made still greater, we issue this
short Prospectus for the purpose of increasing and extending jis circulation to that end.

The paper will continue as heretofore to
advocate Whig principles with whatever
ability we may possess, and with the assistance of correspondents in the county and
abroad; and whether success or defeat shall
follow our efforts, we shall be the last man
to fly from our standard, or abate in arder
for the glorious cause in which we have engaged. During this campaign, (and we
trust all others) we shall go—heart and penhand and yote—for the regular Whig and
Antimasonic ticket, the whole ticket, and
nothing but the ticket, and urge all others
to do likewise.

Although politics shall form a prominent
feature of our paper, it shall not be the only
one. Its columns shall from tune to time,
and at all times, be well stored with interesting and useful information to the Farmer,
the Mechanic, the Manufacturer, the Mecchant, and to all classes of business men in
the country.

Every Whig and Antimason in the county ought to have his county paper, and if here and there one is found too poor, another who is able ought to procure it for him. There is now no postage on papers sent within thirty miles of the place of publication, which is a saving of 52 cents a year to each subscriber.

To the ardent and patriotic young, Whigs of Huntingdon county we would appeal at this time to aid as in extending the circulation of our paper. To this class now belongs the duty of bearing aloft the Whig banner. On them the country relies for its redemption from the grasp of Locofocoism. Come up, then, fellow young men, and aid and sustain us in our determination to "FIGHT ON! FIGHT EVER!" in defence of the men and the principles of the great Whig party.

The terms of the paper are the same as heretofore: \$2 00 if paid within the first six months—\$2 50 if not paid until the end of the year.
