From the New Orleans Picauyne, May 1. Later from the Army I Col. Cross murdered !—His body found!—2000 Mexicans Across

the Rio Grande !!

the Rio Grande !! The brig Apalachicola, Capt. Smith, arrived at his port yesterday from Brazos Bay, where she ailed on the 24th ult., and reports that on the 22d, he left Point Iaabel, where Major Thomas, the ting Quarter Master, informed Capt. Smith that he body of Col. Cross had been found about four ailes from Gen. Taylor's eamp on the Rio Grande-'rom the wounds upon the body, it seems evident hat he was killed by a lance. It was further reported that a person in Matamo-as had acknowledged that he was the murderer, nd had the watch and clothing of Cel. Cross in is possesion.

Gen. Taylor had made a formal demand for the aurdorer. The Mexican schooner Juanita, from this port or Matamoras, was taken into Brazos Bay on the 22 ult. by the pilots—no doubt by permission of he blockading force. The schr. Cornelia, Capt. Stark, arrived last vening from Brazos Santiago, whence she sailed an the evening of the 24th inst. She reports that bout three hours before she sailed an express had trived from Gen. Taylor, stating that the com-nander of the Mexican forces had made a format feelaration to Gen. Taylor that if he did not move is army from the position he then occupied within hirty-six hours, that the Mexican batteries would be opened upon them.

his army from the position he decline occupied within thirty-six hours, that the Mexican batteries would be opened upon them. The same express also stated that at that time a body of 2,000 Mexicans had crossed the Rio Grande, near Boretta—a small town about eight miles below Matamoras, on the west bank of the river—and taken up a position between Point Isabel and Gen. Taylor's camp. The design of this worement is evidently to cut off the American troops from their supplies. A private letter was also received last even ing from an officer in Gen. Taylor's camp, confirming in part, the above report of the Mexi-cans having crossed the river, but stating the num-ber at 1000 only. We have a letter from an officer in the camp, dated the 21st ult, the postscript to which states, what we have a letter from a statery of 18 pounders that can 'spot' anything in Matamoras.'' Additional troops and munitions of war are being despatied from New Orleans, for Gen. Taylor's any. The New Orleans Commercial Times

Additional troops and munitions of war are being despatched from New Orleans, for Gen. Taylor's erray. The New Orleans Commercial Tiwes of the 1st instant has the following intel-ligence, which is the latest that had reach-ed New Orleans before the mail left for the Narth : We are informed by Capt. AT WELL, of the schooner Gen. Worth, who left Brassos St. Jago on the 25th, that the day before (the 24th) the Mexican schooner Juanita, was taken by the U. S. schooner Juanita, in Grande, had captured several wagons, be-longing to settlers loaded with provisions for the American camp. The object of the enemy seems to be, to intercept the supplies destined for the U. S. troops. It is more than probable that an engage-ment has taken place before this. The American Consul and Merchants, resident in Matamoros had been order-d by Gen. Amerora to leave for Victoria, Tamaulipas—twenty-four hours having been allowed them to adjust their affairs. This is a violation of the terms of treaties existing between the United States and Mexico, it having been agreed on, that in the event of war, the citizens of the two countries, respectively should not be mo-lested in their affairs, but six months be allowed to those in the interior, to arrange for their departure. Dar army is in good health and spirit, only 155 being on the sick list. THE New Orleans Picayune of the 1st instant has the following paragraph: THE BLOCKANE OF THE RIO GRANDE — We learned last evening that femal parates had how me in the following baragraph.

The New Orleans Picayune of the 1st instant has the following paragraph: THE BLOCKADE OF THE RIO GRANDE – We learned last evening that formal protests had been made before the British Counsel by the English houses which had shipped cargoes on board the schooners Equity and Floridan, for Mat-amoras, which were turned back by the United. States brig Lawrence, off the mouth of the Rio Grande. agraph: THE RIO

Peace! Yes-after their sort who 'make a solitude and call it peace.' The work of repression was prompt, effectual, and is done : that of punishment is in progress. Eight hundred nobles within the limits of three circles only in Gallicia have been slain or made to disappear since the commencement of the present troub-les. Daily arrests take place-summary trials, confiscations, death, and exile to Siberia, are the certain fate of the arrest-ed. Voluntary death has been prefered by many.'

Marriage of the American Minister

Marriage of the American Minister at Turin. The Hon. Robt. Wicklife, Jr., Charg d'Affaires of the United States at Turin, was married on the 7th April to Miss Josephine Yan Hourn, of Rot-tendam--a lady of rank and fortune. The mar-riage was celebrated in the chapel of the Prussian embassy, at Turin, by the Rev. Mr. Bert, pastor of the Protestant Legations. In the evening Mr. W. entertained the bride and a distinguished party at dinner. The act of marriage was attested by the chevealier Biscarra, for the bride, and by Mr. G. J. Crufts, of Charleston S. C., for the bridegroom.

The Mexicans-Our Army. An officer of the army, writing to N. Y. Spirit of the Times, says:

N. Y. Spirit of the Times, says: "On the morning of the 28th we march-ed for Matamoras. It was believed by many that we would have a fight; I was, and have been, an unbeliever. However, we were all prepared. The country pas-sed through was really beautiful, such acres of the pea-vine found. The ground appears to be alive with qual, and aext Fall they may look out for having their number decreased. As you approach the river, the chaparral increases in density. The soil is very rich. If they—the Mex-icans—had intended to have attacked us, numerous points could have been select-ed, where they could have forced us into a bloody fight. Within a mile of the riv-er we came to some settlements. Large fields were enclosed in fences made by driving in posts and filling up the space twith brush. The country is a perfect twith brush. In another part of the letter he says:—

I understand we are to en-trench ourselves; the General says he will not retreat a foot. I wish they would here upon us, or commit some act that would authorise us in taking the town! Their quarters would be a confounded sight more comfortable than squatting in a corn field, the soil of which is baked har-der than a brick bat. I think they are a great set of fools for not opening a friend-ly intercourse. They are losing all this time the society of a clever set of fellows, who would walk into the affections of the men and all the pretty girls, as easy as falling off a log. It is rather provoking to be in sight of so much comfort and lux-ury, and not to be permittiged s
