

Arrival of the Hibernia. LATE AND IMPORTANT FROM EUROPE.

Boston, August 3d, 1846.

The Hibernia was telegraphed at an early hour this morning. She brings to the United States the Oregon Treaty ratified by the British Government, under the seal of the new Foreign Minister, Lord Palmerston.

This document was signed by his Lordship and Mr. McLane on the 17th ult. at the Foreign Office, and afterwards conveyed by despatch by the Hibernia by his Excellency Mr. McLane, the American Minister to Great Britain.

In the House of Lords, on the 17th of July the Marquis of Lansdowne rose and said that it was his duty to lay before their Lordships and that House, the Treaty which had just concluded between her Majesty and the Government of the United States in reference to the Oregon Territory. He had the satisfaction of informing their Lordships that ratifications had that day been exchanged.

A similar motion was made in the House of Commons by Lord Palmerston, who appeared at the Bar and stated that he had a paper to present by command of her Majesty.

The new ministry has got to work, and the business of the country is again in a state of progression. All the members have been returned without opposition except Mr. Macaulay and Lord Elington.

In every quarter a disposition exists to give the new appointments a fair trial. In consequence of the excitement now passed, the country needs repose, and with the exception of the Sugar duties, there is no prominent question likely to embarrass the ministry, or test their capability.

The affairs of this session of Parliament will be wound up probably by the middle of August. The great movement to reimburse Mr. Colden for his loss of health and money, is progressing apace. There seems every chance that the hundred thousand pounds fixed upon as the maximum of the amount to be given to him, will be raised.

Efforts will be made to raise a splendid monument to Sir Robert Peel, by means of penny subscriptions throughout the British empire, as an expression of the nation's gratitude.

PARLIAMENT. The proceeding in the House of Parliament possess considerable interest. Lord Brougham led to the assault in the matter of the Judges salaries.

Earl Grey showed that if blame attached to any one, it was to the Lord himself. Mr. Doncombe wished to hear from the noble Lord himself a distinct avowal of his views on the leading topics of the day.

Lord John Russell declined this categorical analysis, but while doing so, said sufficient to paint the morale of his future career as Minister, to the principles of Free Trade, to which he avowed his unswerving attachment. Justice he would literally carry out; but with respect to the Established Church in the country, the Premier thought it imprudent to meddle in this early stage of the business.

The same evening, Lord John Russell declared that he would make his views respecting the sugar duties known on Monday.

COMMERCIAL. The manufacturing districts are busy, and confidence prevails. The season continues all that we could desire.

The Cotton market is firm, with good steady business, and prices have an upward tendency. The latest arrivals from the United States show that the last crop will not exceed 2,100,000 bales and that the prospects of the crops for the present year owing to the lateness of the spring, are not particularly promising.

The timber trade is in a most flourishing condition.

From the Army.

We have a little later intelligence from the army. The steamship Fashion arrived at New Orleans from Brazos on the 25th ult. She brings verbal reports that there was a general movement of the troops up the Rio Grande.

Gen. Taylor remained at Matamoras, sending troops forward as fast as his means of transporting them would allow.

Advices had arrived of the taking of Camargo without firing a shot. When the U. S. troops arrived at that place Carrajabal was on the opposite side of the river St. Juan, but offered no resistance.

Gen. Taylor had received advices by scouts that there were only about 300 troops in Monteroy.

The general impression was that there would be no resistance offered to the U. S. troops this side of that city on account of the quietude of the enemy.

The impression is also gaining ground in the army that negotiations for a peace are in progress.

It was said that Paredes was afraid to leave the capital on account of suspected attempts at revolution in his absence.

There was a report that Mr. Lumsden, of the Picayune, together with his party, had been cut off by the Indians, but it was not generally credited.

The volunteers were still suffering from diarrhoea, but otherwise enjoyed good health.

The trial of General Gaines is proceeding before a Naval Court of Inquiry, at Norfolk.

The nomination of Col. PAGE, as Collector of the Port of Philadelphia was confirmed by the Senate on the 4th instant.

THE REPORTS IN RELATION TO MEXICO.—The Washington Union in noticing the reports of proposals for peace from Mexico, &c., says:—We are not advised that any messenger has arrived from Mexico, or that any overture has been made by her to the government at Washington. What prospect there may be for peace, and at what period it may be effected, we cannot undertake to conjecture; though it is certain that the President will make good his repeated declarations to conclude a peace, as soon as he can do so consistently with the rights of the United States. If we wish to obtain peace, and to secure the objects of the war, we must talk less and do more. We must prosecute the war with all our energies. We must see our smaller vessels, which draw less water, arriving on the coast of Mexico, to which they are destined in the gulf, to blockade the smaller ports, to seize their small towns, and cut off every artery of their commerce. The Mexicans must see their ports in California seized and occupied by our squadrons and our troops. We must strike other blows at the Mexican strongholds, and their troops, if they will once remain in the field to measure weapons with us.—When Santa Fe, and Coahuila, and Monterey are taken, or about to be taken, by our various detachments, and Mexico can see nothing but commercial distress on her sea-coast—when she sees California about to be lost to her, and her strongest places in Upper Mexico about to be occupied by our arms, she may begin to calculate the costs of the war, and to manifest a more decided disposition to make peace with us by a direct negotiation. But, we repeat, the best way to secure a peace is not by talking too much of its attainment. We must advance into her country, satisfy her people by our kind treatment that we do not go among them to plunder their property, to abuse their religion, or to violate their liberties; but that so long as her government refuses us justice, war—energetic, continued war—is to be the fortune of her people. It is in this way only that we are to obtain a decided and permanent peace.

GEN. SCOTT.—Some of the Canada papers are copying with much gusto, the attacks of some of our Locofoco papers upon Gen. Scott. The Detroit Advertiser says:—

"These Britons bitterly remember Lundy's Lane, Chippewa and Fort Erie, and they are delighted to find Americans abusing and blackguarding the heroes who there struck down the British flag."

This may be natural enough for some of the baser sort of Britons and renegades in Canada, though it will be despised by the more gallant spirits even there; but what shall we say of men on American soil, claiming to be Americans, within sight of some of the most renowned fields of American valor, who like a pack of hounds or sneaking, cowardly wolves, attempt to hunt down a man whose whole life has been consecrated to the service of his country, and whose achievements both in war and peace, illumine many of the brightest pages in our nation's history. The gallant soldier has been caught in the toils of mouthing wily politicians, but they may push the matter too far. The people are generous as well as just.—Buffalo Com.

GEN. SCOTT.—Gen. Scott has been quite indisposed for a few days, but has recovered sufficiently to be about. The Washington correspondent of the N. Y. Tribune says, "I said some time ago that the predictions and calculations he made about the Mexican war would all turn out true. I am now certain that this will be the case; though the General was ridiculed by a lot of military greenhorns, for calculations on so late an invasion of Mexico, times and facts will prove the foresight and the wisdom of this brave and distinguished soldier. The panders and sycophants of power have laughed, and they supposed over his grave. He still lives in the hearts of his countrymen."

THUNDER STORM.—There was a terrific thunder storm at Chambersburg on Wednesday last, during which, William Waddles, Esq., of Meckersburg was killed.—Several buildings were struck by lightning, and a number of persons were struck down and seriously injured.

DIED. In this borough, on Thursday morning the 6th instant, JOHN PEEBLES CARMON, (Printer) aged 21 years, 6 months and 25 days.

The deceased was "the only son of his mother, and she a widow." Being in delicate health from early childhood, and left without the care and protection of a father, he was nurtured by a fond mother like a tender plant; but that insidious destroyer, Consumption, preyed upon him, painting the rainbow hues of promise and hope before him, until he had marked him for his own. In his feebleness, however, the sufferer awakened to the reality of his situation, and turned his thoughts from the world and its vanities, and fixed his affections upon higher objects; and at length parted in peace, welcoming Death with a serenity and joy, in the comfortable hope of the resurrection to eternal life, and the enjoyment of the blessed promises of the Gospel, in the world beyond the grave. To his bereaved parent and relatives and friends it is consoling to feel that their loss is his gain.

August 8, 1846.

On Tuesday, the 4th inst., in this borough, DAVID L., infant son of William and Ann Snyder, aged 5 months.

MODERN IMPROVEMENT IN DENTAL SURGERY, That renders it in most cases unnecessary to extract Teeth, even when they become painful.

DR. S. STOCKING, SURGEON DENTIST, would announce to the Ladies and Gentlemen of Huntingdon, that he has taken Rooms at the residence of Mrs. Clark, where he will be pleased to offer his professional services for a few days only.

He has the pleasure of saying that after much expense and scientific research, he has obtained the long sought for, and much desired desideratum with the Dental Profession, viz:

THE LITHODEON. Which is a substance suitable for filling teeth which are too far gone by decay to admit of their being filled with gold, silver, or any other hard substance. The principal advantages that this has over all other substances is, it being of the consistency of paste, is easily introduced into all the irregularities of the cavities without producing the least pain, and then moulded so as to give the tooth its original form. In the course of a few hours it becomes hard like stone, and will remain firm and incorruptible—preventing further decay—restoring the tooth to its lost usefulness in masticating food.

Dr. S. has also the pleasure of saying that he has discovered an

ANODYNE, That will immediately allay the most violent tooth ache, and destroy the nerve of the tooth without producing the least pain. This is also a valuable discovery, inasmuch as all the preparations hitherto resorted to for the purpose of destroying the vitality of the nerve, have produced the most excruciating pain for at least ten or fifteen hours. Most of the teeth that are usually extracted may be saved by first killing the nerve, after which they may be filed.

The full set of Paris instruments with which Dr. S. extracts teeth, has never been exceeded in perfect adaptation to difficult and almost hopeless cases by any other invention.

Artificial teeth set on pivot or gold plate from a single tooth to full set.

Particular attention will also be paid to filling with gold or silver. Teeth cleansed and polished in a beautiful style. Terms moderate and all operations warranted.

Patients waited upon at their Houses if requested. Examination and advice gratis.

ALSO, Premium colored Daguerreotype Likenesses, taken by Dr. Stocking, from Boston, in the latest and most approved style, without regard to weather.—Ladies and gentlemen are respectfully invited to call and examine the specimens. To those who wish to engage in the business, instruction, apparatus, plates, cases and chemicals will be furnished on reasonable terms.

August 5, 1846.

PUBLIC SALE, Of Valuable Real Estate!

BY virtue of authority given in the last Will and Testament of James Entekin, Esq., dec'd, the undersigned Executors of the said dec'd, will offer at public sale the following described Real Estate, at the Lower Mill, as it is called, on James Creek, near the late residence of said deceased, on

TUESDAY, the 25th of August, 1846, at 1 o'clock P. M. of said day, viz:

No. 1. A tract of Land, being the part of the old Mansion tract, lying on the south side of the Raystown branch of the Juniata River, containing

200 Acres, more or less, thereon erected a two story Log House and a good Log Barn. The said land is part of two surveys, and most of it is first rate bottom land and in a tolerable state of cultivation.

No. 2. A Tract of land, containing 100 acres, more or less, on which is erected a

Grist Mill & Dwelling House. The Mill is situated on the waters of James Creek, and is known as Entekin's Lower Mill; it is one of the best water powers in that vicinity. There is about thirty acres cleared. This is a very desirable property.

No. 3. A tract of land adjoining the last mentioned tract, containing 190 acres, more or less, and principally timber land.

No. 4. Also, a Tract of ridge land adjoining the last mentioned tract, in a state of nature; it is well timbered and is good land, and well calculated to make an excellent farm. It contains 315 acres more or less.

No. 5. Also, a Tract of land surveyed in the name of Wm. Barrack, a part of which is cleared and pretty well cultivated. There is a tolerable house and barn erected on it—it contains 275 acres more or less.

No. 6. Also, a Tract of Land containing 90 acres, more or less, adjoining the last described tract, all of which is well timbered.

No. 7. Also, a Tract of Land known as the old mill tract, containing 200 acres more or less—adjoining the last mentioned tract, a part of it cleared and there is erected on it two small houses, and a frame of a new Barn, raised to the square.

No. 8. Also, one other Tract of Land surveyed in the name of George Myers, containing 200 acres more or less, on which is erected a log house and barn; a part cleared and in a tolerable state of cultivation.

Purchasers, wishing to examine the property are invited to call and examine the premises, and any information desired can be had by applying to Jas. Entekin, at Coffee Run.

The above property will be sold free from all incumbrance—and the Terms will be easy, and made known on the day of Sale.
