STOCKS, &c., &c.

All garments at this establishment are warranted both in fit and quality of workmanship; they are all got up expressly for the retail trade, consequently more care is taken in the selection of the goods as well as the style of cutting. The proprietor of the establishment is a practical tailor (having served a regular apprenticeship to the business) and has none but practical workmen in his employ.

Gendemenin want of CLOTHING may depend upon being suited in every respect, as we are determined not to be undersold by any competitors. All goods are purchased for CASH, which enables us to sell a little lower than those who deal on the credit system, it being a self-evident fact that the "nimble sixpence is better than the slow shilling."

Also, always on hand an extensive assert.

Also, always on hand an extensive assort-ment of Cloths, Cassimeres and Vestings, which will be made to order at the shortest

M'ALLISTER'S ALL-HEALING OINTMENT.

INSENSIBLE PERSPIRATION.

INSENSIBLE PERSPIRATION.

THE preceding figure is given to represent the insensible perspiration. It is the great Evacuation for the impurities of the body. It will be noticed that a thick cloudy mist issues from all parts of the surface, which indicates that the perspiration flows uninterruptedly when in health, but ceases when we are sick. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and disposes by this means of nearly all the impurities within us. The language of scripture, "in the Blood is the life." If it ever becomes impure it may be traced directly to the stoppage of the "insensible perspiration." Thus we see all that is necessary when the blood is stagnant or infected, is to open the pores and it relieves itself from all impurity instantly. Its own heat and vitality are sufficient, without one particle of medicine, except to open the pores upon the surface. Thus we see the folly of taking so much internal remedies. All practitioners, however, direct their efforts to restore the insensible perspiration. The Thompsonhun, for instance, steams; the Homocopathist deals out infinitissimals the Allopathist bleeds and doses us with mercury, and the blustering Quack gorges us with pills.

ry, and the blustering Quack gorges us in pills. Fo give some idea of the amount of the ensible Perspiration, we will state that learned Dr. Lewenhock ascertained tive-eights of all we receive into the nach passed off by this means. In other day, if we cat and drink eight pounds day, we evacuate five pounds of it by Insensible Perspiration. This is some rethan the used up particles of the blood, other juices giving place to new and hones. To check this, therefore, is to in in the system five eights of all the lent matter that nature demands should et the body, is by stopping the pores that overwhelm kind with coughs, colds and consumptasse induced by a stoppage of the Insenses induced by a stoppage of the Insensering the meak, now, every candid mind.

diseases induced by a stoppage of the Insensible Perspiration.

Let me ask, now, every candid mind, what course seems the most reasonable to pursue, to unstop the pores after they have been closed? Would you give a physic to unstop the pores? Or would you apply something that would do this upon the surface, where the clogging actually is? And yet! know of no physician who makes any external application to effect it. Under these circumstances! present to physicians and all others, M'ALLISTER'S ALL-HEALING OIN THENT, or the World's Sative. It has fower to restore perspiration on the feet, on the head, around old sores, upon the chest, in short, upon any part of the body, whether diseased slightly or severely.

has fower to cause all external sores, fulious humors, skin diseases, poisonous ands, to discharge their purid matters, then heals them. It preserves and deste set earlied from all derangement of anctions. The surface is the outlet of eights of the bile and used up matter in. It is pierced with millions of open-to relieve the intestines. Stop up these sand DEATH knocks at your doon—rightly termed all-healing, for there are the disease, external or internal, it will not benefit. I have used it for last fourteen years for all diseases of clare before Heaven and man, that not ne single case has it failed to benefit in the patient was within the reach of all means.

most medicines were to children taken inwardly, they would be slow to resort to them. Especially "mercurial lozenges," called 'medicated lezenges," vermifuges, 'pills,' &c. The truth is, no one can tell, invariably, when worms are present. Now let me say to parents, that this salve will always tell if a child has worms. It will drive every vestage of them away. [Read the directions around the box.] There is probably no medicine on the face of the earth at once so sure and so safe in the expulsion of worms.

Old Sores.—That some sores are an outlet to the impurities of the system, is because they cannot pass off through the natural channels of the Insensible Perspiration. If such sores are healed up, the impurities must have some other outlet, or it will endanger life. This salve will always provide for such emergency.

RREUMATISM.—Almost every case cured with this ointment.

FEYERS.—In all cases of fever, the difficulty lies in the pores being locked up so that the heat and perspiration cannot pass off. If the least moisture could be started, the crisis has passed and the danger is over. The all-healing ointment will in all cases of fevers almost instantly unlock the skin and brings forth the perspiration.

SGALD FIEAD.—We have cured cases that actually defied every thing known, as well as the ability of fifteen or twenty doctors, One man told us he had spent \$500 on his children without any benefit, whena few boxes of the ointment cured them.

Corns.—Occasional use of the Ointment will always keep corns from growing. People need never be troubled with them if they will use it.

As a family medicine, no man can measure its value.
