CUMBERLAND COUNTY. The following resolutions were passed at the Cumberland county Locofoco meeting held on the 10th instant :

ting held on the 10th instant: Mesolved, That we disapprove of the tariff of 1846-that we are in favor of a "revenue tariff," that will afford "inci-dental protection to our home industry" --that we consider the tariff of 1846 will not produce revenue sufficient to defray the expenses of the government conomi-cally administered, is an abandonment of the principle of incidental protection to American industry, and in its results may be ingurious to the great iron and coal in-terests of Pennsylvania. Resolved, That our Senators ard Rep-resentative in Congress who opposed the tariff of 1846, honestly represented the wishes and interests of their constituents, and that their course meets with our un-qualified approbation.

and that their course meets with our un-qualified approbation. Resolved, That the measures of the ad-ministration of President Polx meets with our cordial approval, with the single ex-ception of the tariff of 1546, and we be-lieve our sister States possess the magnan-imity speedily to repair the wrong and redress the grievance of which we com-plain.

"OLD BERKS."

A large meeting of the democracy of Berks county was held at Reading, on the 4th instant, for the purpose of expressing their views on the tariff question. Among the resolutions passed, were the fol-

The resolution pasted, were the for-lowing: Resolved, That we, the laboring men of Berks county, believe that the time has arrived when it is important that we should speak in a tone not to be misunder-stood, that we call upon the laboring men of the country, to raise their voice against the British tariff of forty six, and that we insist upon its imediate repeal. Resolved, That we call upon Congress to re-enact the tariff act of forty-two, and which by our votes was supported in forty-four, under which as a free people and laboring men, we are in a more happy and fourishing condition than we ever were before. lowing :

KEEP IT BEFORE THE PEOPLE.

KEEP IT BEFORE THE PEOPLE. That Mr. Lewis, the Democratic Chair-man of the Senate Committee on Finance, during the debate on the Tariff bill, stated that the 8th and 9th sections were both of them substantially corres or A Bartrish Starvre long in operation 11:1 That Mr. PAYNE, of Alabama, when asked where the country would get reve-nue, replied, "Easy enough--we shall con-sume FOREIGN goods instead of goods made at home / We shall derive a reve-rue of \$100,000,000, it need be, by IM-FORTING FIVE TIMES AS MAYY AS WE NOW bor,"

That Mr. McDUFFIE, in replying to Mr. Webster, made use of this extraordi-nary language: "It was represented that the LABOR of the country would be affected by this bill—THAT (said Mr. McDuffie, contemptuously.) IS BUT A SMALL MAT-TER" !! That Mr. SEVIER of Alabama, said in refly to Gen. CAFRON, who was nodly

refly to Gen. CARROS, who was nobly yindicating the cause of the laborers of the North, that *labor was the same everywhere* ? Thus attempting to degrade the free and independent laborers of Pennsylvania to the level of the *slaves* of the South.

Laborers and working-men remember these things.

MEETING OF LABORERS IN TROY.—A meeting of the mechanics, millwrights, blacksmiths, laborers and others, employ-ed in the Troy Vulcan Iron Works, was held at the Works on the 30th ult., to con-sider the effects of the repeal of the Tariff of 1542. Resolutions was unanimously adopted expressing their conviction that the owners of the Works had no alterna-tive but to close their business, and de-claring that without reference to their former political principles, they solemnly pledged themselves, the one to the other, from this day forward, to oppose the party which alvocates or carries into effect a measure which deprives them of the means of supporting themselves and their fami-lies. This is talking to some purpose. HEAR HIM I

HEAR HIM!

The Ohio Statesman, an administration paper, and the organ of the Locofoco party in Ohio, makes no reserve in ex-pressing its condemnation of Mr. Polk's yeto on the Harbor and River bill. It save:

pressing its condemnation of Mr. Polk's yeto on the Harbor and River bill. It says: "The message in which the President supports his views, is a shallow perform-ance, vulgar in its language, ridiculous for its false logic, and paltry as the treatment of a thesis by some hair splitting and wire-drawing schoolman of the middle ages, who thought himself a great man because like all small characters, he had mistaken cunning for wisdom. It is, however, quite worthy the man whose imbecility has been so unhapply displayed in his ac-tion on the Oregon question—first uttering boasts of the loudest kind, and then sneak-ing off to cover when the enemy's bay was faintly heard in the distance. There is a remarkable similarity in the President's conduct on these two subjects. * * We most earnestly hope that the day is not coming when every true democrat will have, in bitterness of heart, to ask par-don of God and man for having aided in elevating to power, men who mistake treachery for good conduct, and paltry shifts for great statesmanship."

THE OAT CROP of Delaware is said to be very

THE SUB-TREASURY BILL. This measure, an innovation and a nov-elty in our administrative system—once already tried, and deliberately and signal-ly condemned ana renounced by the peo-ple—this offspring of abstractionism has passed the Senate, and is gigain to vex and annoy the country. If ever a measure was demonstrated to be unnecessary and unwise, this Bubtreasury schene was shown to be so by the debate which has taken place on it. In the Senate, as well as previously in the house, the arguments gainst it were so unanswerable that, in the former body, the able gentlemen who favored the bill did not attempt to answer them. But the Baltimöre Convention had willed it, and reason, and experience, and the public convenience must yield. So the Government must set about building vaults and iron safes, in which to keep se-cure, and free from bank contamination, and risk, the treasure of the Government its Treasury notes. It is about as wise a step as if a man having a peck of corn to prind should set about building a mill for his own use.--Nat. Int. THE SUB-TREASURY BILL.

THE ARMY OF GEN. TAYLOR.

THE ARMY OF GEN. TAYLOR. The main body of Gen. Taylor's army is yet encamped near Matamoras. One division of it, however, has advanced to Camargo, and we expect soon to hear that Monterey has been taken possession of by our troops. This post will open to us the interior of Mcxico, though it is still nine hundred miles to the capital. Col. (now Gen.) Kearney's force must be now well advanced towards Santa Fe, where, ac-cording to all accounts, there is but an in-considerable force of the Mexicans, who will probably make no opposition to our troops. The force seems, however, a small one for its ulterior object of pene-trating several hundred miles farther into Mexico, in order to unite with Gen. Tay-lor and the central army which is to march from Antonia de Bexar. Each will create, however, some division in the enemy's forces, and after their junction, they will present an overwhelming front. We are sorry to leara that Gen. Tay-lor's army is suffering a good deal from sickness. This is especially true of the volunteers, some of ulmate, and whose dis-cipline being much less rigid than that of the regular troops, does not admit of their being kept uader equal restraint. We have all along farened more for the army from the climate, than from the enemy's gus.—National Press.

ATTEMPT TO SHOOT A SISTER.

ATTEMPT TO SHOOT A SISTER. An attempt was made on last Thursday week, at the City Hotel, New York, by a brother, to shoot his isiter. There were at that house a party of five i two gentle-men and three ladies, of whom Alexander Wilson and his sister Caroline, and their cousin, William Wilson, jr., are three. A disagreement arose between Alexander and his sister, concerning her property, over which he wished to obtain the con-trol, which she refused. On Thursday morning as Caroline was coming down stairs to breakfast, leaning on the arm of her cousin William, Alexander approath-ed and attempted to shoot her and her consin by discharging one barrel of a six barrelled pistol at them, which did not hit them. He then snapped a second barrel at them, which was not however discharged, when he fled and has not been appahehend-ed. Caroline, his sister, and Wm. Wil-son, her cousin, went to the police office and preferred a complaint against him.

STARTLING RUMOR.

STARTLING RUMOR. The Bath (Maine) Enquirer says:---"Tweve years ago last fall, a brig call-ed the "Nile," Capt. Brookings, sailed from this port for the West Indies. Sub-sequently she was found bottom up, ashore on Bermuda. It was supposed that her officers and crew had found a watery grave. Last week, a young man named Reed, returned home to Woolwich, after an absence in Mexico and South America of six years, and he states that he saw in California a main atmeil Jones, who sailed in the Nile--that Jones, stated that when in the neighborhood of Bermuda, the brig was fallen in with by a rakish craft, that Capt. Brookings and all his crew were transferred to the pirate vessel *j* the Nile was then souttled, the crew were taken to the south side of Cuba, transferred to another vessel, carried to Mexico; placed in the nines, and there they have been kept at labor ever since, being allowed one hoir if twenty-four. Jones, by dint of good fortune, succeeded in escaping, some five or six years since, and in find-ing his way to California, where he is now living. The report has caused some ex-citement in this region, and we under-stand that measures are on loot to test its correctness. Mr. Reed's friends have no doubt of his veracity." A SERIOUS QUESTION SOLVED.

A SERIOUS QUESTION SOLVED.

A SERIOUS QUESTION SOLVED. The New Orleans Delta says—" Lord Rosse's immense telescope, according to Dr. Scoresby, the astronomer, clearly shows objects on the moon's surface sixty feet in height. Through this powerful instrument, rocks, innumerable masses of stone, craters of extinct volcances, &c., are seen. All seems chaos and desola-tion, not a vestige of anything that looks like animation or life being perceptible. Now the question has been asked, what is the reason of all this desolation? We the reason of all this desolation? We believe it to be owing to the entire triumph of locofoco principles in that planet."

DESTRUCTIVE FIRE.

We learn from an extra issued from the "Intelligencer" office, that Harris

the "Intelligenceer" office, that Harris-burg has been visited by another calamity. That paper says: "At about 5 o'clock, on the evening of the 20th inst. a fire broke out in the steam saw mill of John McAllister, in the upper end of Second street. The mill was soon enveloped in flames, and the wind blow-ing baildings, and proved quite Mestruc-tive.

spread with great rapidity to the neighbor-ing buildings, and proved quite tlestruc-tive. "The saw mill, the burr manufactory of Mr. Wm. H. Kepner, the stillth shop of Mr. Kunkel; a small dwelling house of Mrs. Wenrich's, and one of Mr. Awl's, and five or six stables, were totally de-stroyed, and two other houses of Mr. Awl's, adjoining, were almost wholly de-stroyed, the roofs being entirely burned off. "The buildings were all frame 5 and, we believe, were generally covered by in-surance. "The large brick dwelling house of Mr. Verbeck, now occupied by the mili-tary school, was in great danger. The roof was frequently in a blace, and was considerably burned. The stable attach-ed was burned to the ground. "The roof of the Roman Catholic Church and several other buildings farther west,

"The roof of the Roman Catholic Church and several other buildings farther west, were several times on fire. The Hall of the Sons of Temperance on the east of the mill, was also in danger, but was saved from injury. "The saw mill was recently, purchased by Mr. McAllister, from Mr. W. H: Kep-ner."

TRADES, &c., IN THE UNION. The number of persons engaged in ag-riculture in the United States in 1840. was 3,719,951, according to the census taken in that year. At the same time the number of persons engaged in other pur suits, was only 1,078,818, as follows :

Mining,	15,210
Commerce,	117,607
Manufactures and trades,	791,749
Navigation of the ocean,	56,021
Inland navigation,	22,976
Learned professions,	65,255
This statement includes, of	course, only
that part of the population o	ld enough to
be engaged in business. W	le presumer

too, it includes few, if any, females.

GEN. JACKSON AND AMERICAN LABOR.

As long ago as April, 1824, Gen. Jack on held this language to Dr. Coleman, o N. Carolina :

son held this language to Dr. Coleman, of N. Carolina: "In short, sir, we have been too long subject to the policy of British merchants. It is time we should become a little more Americanized; and instead of feeding pau-pers and laborers of England, feed our own; or else, in a short time, by continu-ing our present policy, we shall be ren-dered paupers ourselves. It is, therefore, my opinion, that a carefill and judicious tariff is much wanted to pay our national dett, and to afford us the means of that de-fence within ourselves, on which the safety of our country depends—and last, though not, least, give a proper distribution to our labor, which must prove beneficial to the happiness, independence, and wealth of the community. I am, sir, very respectfully, Your most obedient servant, ANDREW JACKSON."

ANDREW JACKSON.²⁹ Affection in a Brute. The Woodville (Ala.,) Republican states that on Pittsbarre plantation two lit-tle negro boys were recently riding on an old pony in pursait of cattle, when all on a sudden, a wild cat leaped from a fence upon the pony and seized one of the children: The pony in a fright jumped away. The older boy seized the cat, to rescue the other from his claws and teeth, when the pdfy returned to their rescue, and actually stamped the wild cat to death? The pony is a fet, some 25 years old -lives if the yard and eats slops--is a great favorite--walks among the cralles with the utmost care; in gratitude for kundness, has exhibited a trait of his char-acter which would honor man.
