NOTICE.—We have been requested by the Fur-nishing Committee, to state that the new Odd Fel-lows' Hall, recently fitted up in the second story of the new building of David Snare, Esq., will be thrown open on this evening for the reception of visitors. The public, generally, are invited.

fature of that State, for the promotion of the Fine Arts in the United States. We have only time and room at present to say, that on the payment of five dollars, any person can become a member of this Association, and receive yearly a beautiful engraving, and stand a chance also to receive an elegant painting and sculpture, publicly distributed by lot among the members at the annual meetings in December. Each mem-ber also receives a copy of the annual report, which is filled with excellent matter, calculated to improve both the mind and taste. Persons sub-scribing to this Association, will be accomplishing two desirable ends, that of decorating their parlors with beautiful pictures, cheaper than can be done in any other way, and also of encouraging an As-sociation having in view the truly patriotic purpose of encouraging American Arts.

the Navy of the United States, vice Hon. George Bancroft, resigned. VREMONT.—The recent election in Vermont has resulted favorably to the Whig cause. In 1:7 towns, SMITH, the Whig candidate for Governor, leads EATOS (Locofoco) upwards of 4.000 votes —being a gain of about 1.000 over last year. In consequence, however, of the number of scattering votes there has been no election of Governor by the people. Smith will of course be chosen by the Legislature, which is strongly Whig.

ADVERTISE.

ADVERTISE. Our merchants will soon be getting on their fall and winter goods. When they do so, they should not fail to make the fact known to the public through the medium of the Press. This is the way to attract the attention of the Peo-ple, and improve the business of a town. We hope all will give it a trial, both merchants and mechanics. It is the sure road to wealth.

BLAIR COUNTY .- The Locofoco ince for Assembly in Blair county, Mr. E. Bell, publicly declines being a can-didate. The Standard is trying to urge Col. R. A. McMurtrie to run against Mr. Col. K. A. McMurrie to run against Mr. Bridenthall, the Whig nominee. We hope the Col. will do no such thing, un-less Mr. B. should decline. The respect we entertain for Col. McMurtrie, both as a Whig and a man, induces us to express this hope.

ROBBERY.—The Tailor shop of A. Wil-loughby, of this borough, was entered on Saturday or Sunday night last, and robbed of the cloth for a suit of clothes, worth \$20.00. Mr. W. has no idea as to who the offender is

D Our friend of the Hollidaysburg Register will please consider his kind feelings fully reciprocated. Let the unpleasant things of the past be "in the deep bosom of the ocean buried."

CLINTON COUNTY.—The Whigs of 'Lit-tle Clinton' met at Lock Haven on the 5th inst., and nominated the Hon. Jas. Pollock for Congress, by acclamation. Wm. Harris of Centre county was nom-inated for the Senate and Robert Ham-ilton of Clinton, for the Legislature.

The Whigs of the 22nd district have nominated John W. Farrelly, Esq., of Crawford, as their candidate for Con-gress. The district is composed of the counties of Crawford, Mercer and Ve-

Globe we find an article under the im posing caption of "Climax of Misrep-resentation," which contains a short ex-tract from the Journal of the Sth July last, commendatory of that paper for opposing the efforts then making by its litical friends in Congress to repeal pointcai friends in Congress to repeal the Tariff of 1842. It then asks the readers of the Journal—" What think you of the political consistency of the editor who has thus *wilfully* committed a bare-faced act of misrepresentation, for no other purpose than to deceive and mislead."

Now, gentle readers of the Journalwe did say, on the 8th July, that we were pleased that the editor of the Globe acknowledged himself to be opposed to the efforts then making to repeal the Tariff of 1842. But we humbly conceive that the 8th of July is a different time of year from the first of Septem-ber, and the interval is quite sufficient for a weazel to enter a great many barns. The Globe, about the 8th of July, published doctrines which it was utterly ashamed of on the 9th of September. It was then trying to show off a little in favor of the Tariff of 1842, but since that time it has received its instructions

-been told that the Tariff of 1846 is the easure of the party, and that the Locofoco corps editorial are supporting it, and if it does not wish to be kicked out of the party, it must support it too .--Whatever the professions of that paper may have been two months ago in favor of the Tariff of 1842, (and we now see that they were nothing but professions,) it dare not say so now. Any person who will put himself to the trouble of article referred to, it declares "uncom-promising opposition to any measure which does not guarantee to Pennsylvania an equitable share of protection for all her productions;" but under such a broad declaration as this, a man can be in favor of anything. Again, it denies that it is a British Free Trade paper, but the editor does not openly denounce the act of '46, and come out boldly for its *repeal*. The fact is, it could not be in-duced to declare *now* for the Tariff of 1842. It, in company with the party to which it is attached, is hostlle to that great charter of American Industry, and *fears to*

great charter of American industry, and it dare not deny *this* position. About, and previous to the 8th of July, we were disposed to treat the Globe with some degree of respect, believing that it had almost persuaded itself to try and do what it conceived to be right. It apbe matrix barries to desire to regain a character for honesty. But, ah ! how delusive the prospect ! In a few weeks it was back to the dog, and there it re-It was back to the dog, and there it re-mains yet! We have come to the con-clusion that it is unsafe to write the pan-egyric of any living thing—especially a Locofoco. We will risk no more praises on the Huntingdon Globe, for in a short time it will be advocating the very reverse of what we considered comr verse of what we considered commend-able. At one time it says it is opposed to the act of '46, and again it says, "give it a trial"—"All a Whig panie"—"Let us see how it will work," &c. &c.

VOTERS! BEWARE!!

We caution the voters of this county, to be on the look out for all kinds of Locofoco Deception: between this and the election. The Free Traders are be-coming desperate enough to resort to any means, however low, to again cheat the people out of their votes. All the cautions published in the Globe are only intended to divert the attention of the people from the desperate means about to be resorted to by them to MISLEAD the people. It has been openly declared by leading Locofocos, that they would carry this Congressional District by the aid of their candidate's MONEY. And yet the Globe crics out "Aristocracy," and pre-tends to caution the people against the *means* about to be used by the Whigs. Again we say, Voters! Beware!! Be not deceived by the "stop thief" cries of

TERRIBLE DISCLOSURES !

A Challenge from the Globe! The delicate nerves of our neighbor of the Globe, have been again shocked further indications of the progress of the "Reign of Terror"—he having been shown a "SECRET" Whig Circular sent throughout the State, by John P. sent throughout the State, by John P. Sanderson, Esq., Chairman of the Whig State Central Committee. This Circu-lar urges the Whig party to organize and prepare to give the Free Traders a sound drubbing in October; which of course, does not meet the approbation of our neighbor. That our readers may have some idea how very "Secret" this White circular has been kent we will Whig circular has been kept, we will inform them that it was published at length, a short time since in the columns of the Pa. Inquirer, and North Amer-ican, two leading Whig papers publish-ed in Philadelphia, accompanied with a recommendation to the Whigs to act recommendation to the Whigs to act upon the suggestions it contains. We make the same recommendation to our readers, who may have seen this fright-ful document, that has so much alarmed the supporters of Jas. K. Polk. In commenting upon this circular, the Globe makes the following charge upon the Whig party :

Whig party: "The Federal-Whig Chairman of the Federal Whig State Central Committee openiy acknowl-edges the inability of HIS PARTY to meet the Democratic pariy upon open, fair, and honest grounds-that they cannot longer guilt the peo-ple by PUBLIC demonstrations, and must, htcrefore resort to SECRET and MIDNIGHT EFFORTS, and other "MEANS," to mislead the People !"

The above charge, Whigs of Hunting-The above charge, Whigs of Hunting-don county, is made upon you by those in the employ of A. Pontren WLISON, Esq., the Locofoco candidate for Con-gress in this District.

Now, knowing that the Whigs have who will put himself to the trouble of reading over the sheet as it weekly is-sues, will find in every leading article a direct dirk directed at the industry of the country. It is afraid to turn a somerset too suddenly, for it might be detected; but the time is coming when it will be where it is wanted. It is true, in the article referred to, it declares "uncom-promising opposition to any measure which does not guarantee to Pennsylva. We should prefer, as far as the can-We should prefer, as far as the candidates for the Legislature are concerned, to have a meeting in every township in the county, at which both should have an opportunity to speak; and for the candidates for Congress, as many meet-ings in each of the counties in the District as could be attended to previous to the election. Are you ready, Messrs Locos, for this arrangement? If so 80,

P. S.—" Beware of an enemy wh fears to meet you openly and honestly !

THE FRAUD ADMITTED !!

COAL, IRON, AND PENNSYLVANIA. Our readers will recollect that the leaders of the Locofoco party have been laboring hard to get up the impression in Pennsylvania, that an amendment, favorable to Coal and Iron, would be passed by the Locofocos, at the next session of Congress. Hear what a lead-

session of Congress. Hear what a lead-ing Administration paper, the New York Globe, says upon this subject: "We have made up our mind to state plainly to those who wish to hold out in-ducements to a portion of the people of Pennsylvania, that the next Congress will increase the duty on Coal and Iron, that no such thing will occur. We say to Pennsylvania, that the next CHANGE IN THE DUTY ON IRON WILL BE MADE IN THE DESCENDING, instead of the ascending scale."

Whigs, to your Duty. This is the first election in Hunting don county since her curtailment of ter ritory, and we hope that no Whig will remain inactive or luke-warm. The Locofoco party has become so corrupt, Located party has become so corrupt, that it is tottering and reeling like a drunken man, and if the Whigs but prove true to themselves, a glorious Whig victory, must be the result of the October election. Let the Whigs then be firm and united. In four weeks more, the best will be fourth. the battle will be fought. Whigs of Huntingdon county ! what will be your majority in favor of correct principles You can give seven hundred, if you bu but go to the polls. Will you do it ! We shall hold ourself in madiness to prompt-ly publish your decision to the world.—

DISTRESSING,-The Pa. Intelligencer ys:---- An 'interesting little girl, a sughter of Mr. Stephen McCalla of avs :--" An daughter of Mr. Stephen AcCalla of this borough, aged between three and and four years, died last week from eat-ing the berries of the *night shade*. This plant is rank poism, and should be care-fully eradicated wherever there are children." "Democratic Principles."

We have been told again and again by the Huntingdon Globe, that the 'true issue" is between Democracy "true issue" is between Democracy and Federalism. The editor of that paper cries out at the top of his voice "Democratic principles," but fails to tell his readers, what those principles are. By a letter in another column, giving an account of the doings of the Conferee meeting that nominated A. P. Wilson, Esq., it will be seen that the representatives of "Democratic princi-ples," in this District declared them to be nothing at all, so far as the grea question of the Tariff is concerned.

Freemen of Hun tingdon county ! can you be induced to follow the unmeaning and senseless cry of "Democratic principles," and cast your votes for A. P. Wilson, when those who are asking you to do so are AFRAID to tell you what those principles are ? We cannot, for a moment think so meanly of you as to suppose that you will. Rally, then in your might for Honest Joun BLANCHARD who has been "tried and not found wanting"-who has already defended your interests upon the floor of Con-gress, and who stands pledged again to you to vote for the REPEAL of the pres ent British Bill-which, if not repealed will utterly prostrate the labor and in dustry of Pennsylvania.

A Falsehood Nailed.

Manager of these works nails the false-hood. TRENTON IRON WORKS, } August 31, 1846. To the Editors of the Public Ledger: GENTLEMEN-About ten days since my attention was called to a paragraph in your esteemed paper, and which I believe has passed the general round of circulation, stating that the wages of the hands employed in the Trenton Iron Works had been raised in consequence of the passage of the tariff of 1846. I forebore to contradict the statement at the time, as it seemed to me clear that every intelligent man, at all conver-sant with the state and prospects of the Iron business, would see at once that it was an entire error and had originated in some misconception. But finding that it has been extensively copied and widely quoted and commented upon by the advocates of the new tariff, I am compelled to contradict the statement entirely, and to beg that you will give the correction the benefit of extensive circulation. It must be apparent that the reduction in the tariff will and has already reduced the price of iron, and that the loss which will accrue must fall alike on carrat. and LABOR; and wages, so far from being advanced, must, as a matter of absolute necessity, be very considerably reduced between this and the 1st of December next, so as to meet a falling market and after that still more considerably, unless Con-gress, at its next session, shall make the requisite modifications in the tariff to enable labor to receive its just re-ward. Very respectfully, your obd't serv't, EDWARD COOPER.

True, the author may have intended that it should only ope-rate against the renomination of Mr. Shunk, and thereby carry out the views of his Congress candidate on that subject; but if those who favor the one term tenure are actuated by *principle*, they cannot vote for Mr. Foster. of the "harmonious Democracy," which, as usual, came to loggerheads. A Mr. J. B. Awful Calamity. The new and handsome steamer Ex-celsior, that has been plying for a short time on the Hudson, between this city and Coxackie, (about 20 miles below Al-bany) burst her boiler this evening, just after leaving the wharf on the North River. She had a large number of pas-sengers on board and but few of them escaped, except by leaping overboard into the stream, as the boat was almost immediately enveloped in flames. The burning vessel drifted directly in the direction of the shipping at the piers, and it was only by great exertions that she was prevented from communicating fire to several valuable ships; but one vessel, a schooner, was injured by the flames.

flames. The Excelsior is now on shore, and burned to the water's edge. It is not known how many lives have been lost, but it is feared that the num-ber is not less than from twenty-four to thirty. All that jumped overboard were saved.

Opinion of Mr. Polk and his friends, of Penn-sylvania, in 1840. The Hickory Herald, a Locofoco pa-per, published in Jonesborough, Ten-nessee, in alluding to the alleged fraud upon Pennsylvania, in 1844, says: "Much has been said about Pennsyl-vania and Pennsylvanians, in connexion with the Tariff. From the beginning of the Presidential canva ss to the present hour, the Whig press has asserted that Polk's speeches, votes, and acts were against the Protective system, through-out a long, brilliant Congressional ca-reer—in the teeth of his letter to Kane, advocating the revenue principle—of his out a long, brilliant Congressional ca-reer—in the teeth of his letter to Kane, advocating the revenue principle—of his Inaugural, and finally of his message to Congress—the men or set of men, the State or part of a State, who could still be so ignorant of his views as to think him a friend of a Protective and not a Revenue Tariff, are so GROSSLY STUPID— so destitute of COMMON SENSE, so per-fectly fall of all the qualities of the ASS, THAT THEY ARE INCAPABLE OF SELF-GO-VEENMENT."
