DAYTON, Feb 11th, 1845.

DAYTON, Feb 11th, 1845.

Mr. J. W. Whitomore:—Dear Sir. As you are the regular authorized agent in Dayton, for the sale of "Dr. Wister's Balsam of Wild Cherry, "I take this method of making a statement of facts to you (which I hope may be published to the world) in reference to an almost miraculous Cure, wrought in my case by means of the above Invaluable Balsam.

Langnage fails to describe the salutary effect it produced and the great benefit I derived from its use.

The citizens of Dayton and viciuity, well recollect, that on the 8th of August last, I received serious injury from the explosion of a cannon. A portion of its contents entered my right side and breast, and in all probability, some fragments or splinters of the ram-rod passed through the 'plura' and pierced the lungs.

After the lapse of six weeks, I wasattacked with a distressing cough and violent pain in my right side. Some ten days after this, when in a paroxysm of coughing, suddenly an ulser broke, and a large quantity of offensive matter, mixed with blood, was discharged, most of which found passage through the opening of the wound: from this opening there frequently passed a quantity of air, supposed to issue from the lungs.

My physicians, meanwhile, paid the strictest attention to me and did all in their power for my recovery. But with all their skill they could uot reach the seat of distance of the tent of the strictest attention to reach did not refer the large of the later of the strictest attention to reach did all in their power for my recovery. My physicians, meanwhile, paid the strictest attention to me and did all in their skill they could not reach the seat of distress, after the lungs had become affected. I was visited during this time by at least twenty physicians.

It was now reduced to a certainty, that inflamation of the lungs was rapidly taking place, and that this would terminate my lite in a short time, was in the highest degree probable.

At this critical state, a messenger was dispatched to Cincinnati, and a celebrated physician, of that place was consulted. When he was made acquainted with my situation, he remarked that nothing could be done by medical aid, if the constitution itself was not sufficient to throw off the disease.

My friends now despaired of my recov-

INSENSIBLE PERSPIRATION.

INSENSIBLE PERSPIRATION.

THE preceding figure is given to represent the insensible perspiration. It is the great Evacuation for the impurities of the body. It will be noticed that a thick cloudy mist issues from all parts of the surface, which indicates that the perspiration flows uninterruptedly when in health, but ceases when we are sick. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and disposes by this means of nearly all the impurities within us. The language of scripture, "in the Blood is the life." If it everbecomes impure it may be traced directly to the stoppage of the "insensible perspiration." Thus we see all that is necessary when the blood is stagnant or infected, is to open the pores and it relieves itself from all impurity instantly. Its own heat and vitality are sufficient, without one particle of medicine, except to open the pores upon the surface. Thus we see the folly of taking so much internal remedies. All practitioners, however, direct their efforts to restore the insensible perspiration. The Thompsonian, for instance, steams; the Hydropathist shrouds in wet blankets; the Aliopathist bleeds and doses us with mercury, and the blustering Quack gorges us with pills.

To give some idea of the amount of the language in the prescription we will test the

, and the blustering Quack gorges us pills. o give some idea of the amount of the sighte Perspiration, we will state that learned Dr. Lewenhock ascertained five-eights of all we receive into the lack passed off by this means. In other lack passed off by this means. In other lack, if we eat and drink eight pounds day, we evacuate five pounds of it by assensible Perspiration. This is none than the used up particles of the blood, other juices giving place to new and ones. To check this, therefore, is to in in the system five eights of all the lent matter that nature demands should the body, is by stopping the pores that overwhelm

e the body,
is by stopping the pores that overwhelm
kind with coughs, colds and consumps. Nine-tenths of the world die from
ases induced by a stoppage of the Insenet me ach

sible Perspiration.

Let me ask, now, every candid mind, what course seems the most reasonable to pursue, to unstop the pores after they have been closed? Would you give a physic to unstop the pores? Or would you apply something that would do this upon the surface, where the clogging actually is? And yet I know of no physician who makes any external application to effect it. Under these circumstances I present to physicians and all others, MALLISTER'S ALL-HEALING OIN IMENT, or the Hordd's Salve. It has hower to restore perspiration on the feet, on the head, around old sores, upon the chest, in short, upon any part of the body, whether diseased slightly or severely.

Pimples on the Face, Masculine Skin, Gross Surface—When there is grossness, or dull repulsive surface, it begins to soften until the skin becomes as smooth and delicate as a child's.

Worms .- If parents knew how fatal

most medicines were to children taken inwardly, they would be slow to resort to them. Especially "mercurial lozenges," called 'medicated lozenges," vermifuges, 'pills,' &c. The outh is, no one can tell, invariably, whe worms are present. Now let me say to parents, that this salve will always tell if a child has worms. It will drive every vestage of them away. [Read the directions around the box.] There is probably no medicine on the face of the earth at once so sure and so safe in the expulsion of worms.

Old Sorrs.—That some sores are an outlet to the impurities of the system, is because they cannot pass off through the natural channels of the Insensible Peispiration. If such sores are healed up, the impurities must have some other outlet, or it will endanger life. This salve will always provide for such emergency.

RREUMATISM.—Almost every case cured with this ointment.

FEVERS.—In all cases of fever, the difficulty lies in the pores being locked up so that the heat and perspiration cannon pass off. If the least moisture could be started, the crisis has passed and the danger is over. The all-healing olimment will in all cases of fevers almost instantly unlock the skim and brings forth the perspiration.

SCALD HEAD.—We have cured cases that actually defied every thing known; as well as the ability of fifteen or twenty doctors. One man told us he had spent \$500 on his children without any benefit, when a few boxes of the ointment cured them.

Feet, and all Nervous diseases.

HE following certificate of the restoration to health and the perfect cure of a deformed and crippled child, who was thought to be beyond the reach of hope, shows that, no matter how appalling the case may be, there is a remedy in HUNT'S LINIMENT, that will conquer the most desperate cases, and that, if the disease be curable, this cerebrated external remedy will do it. It has never failed in giving immediate relefi if timely applied, as proved by the abundance of high and unimpeachable testimony, the particulars of which are to be found in the pamphlets which are to be had of every agent.
