TO THE DEMOCRATS OF HUNTINGDON

paper alluded to—the Harrisburg Argus:

"We now say, and can safely appeal to every man that has ever heard Mr. Foster speak on the subject, (and they are not a few.), that he was an OPEN OPPONENT OF THE TARRIFF OF 1842, and an advocate and defender of the views expressed on that subject, by the organ of the Administration at Washington."

Here, fellow-Democrats, you have his position fairly before you. He has not denied it—and is it, therefore, not natural to suppose, that it is correct, emanating, as it does, from "head quarters?"

But this is not all. Mr. Foster is not the candidate of the voting portion of the Democratic party. Contrary to the wishes of a majority of the Democracy of this State, (1 mean the hard-fisted yeomanry and mechanics) he was palmed upon us, at the last 4th of March convention, by a few partizans, aspirants for office, and the "powers that be."—His nomination was wholly effected by the corrupt use of the patronage of the Canal Commissioners' office. The different appointments on the several lines of the canal were all withheld for the express purpose of bribery and corruption—for the purpose of buying up votes in the Convention. This cannot be denied. It has been charged upon him by the press of all parties, and never yet refused.

A GOOD ANSWER.—A correspondent of the Boston Atlas tells the following ancedote of Gen. Joseph Chandler, of Augusta; Maine, who presided at a meeting of the Independent Democrats in that town a few days ago:

A Locofoco, who had more impudence than brains, (which is a very usual occurrethed) tisked General Chandler if the was going over to the Federalists?" He said, in reply, "that, in olden times, the test of Democracy was the disposition to entering the me industry—the wearing of home made appared, the protection of home labor; and those were called Tories who were for procuring articles of clothing and manufactures from British workshops."

The Oregon Question.

A Sign.—We have received a copy of a new paper started in Johnstown, Pacalled the "Democratic Courier." It is published by H. C. Divine; and supports the Locofoco party, but goes it strong against Wm. B. Foster, and the British Tariff of 1846. We find the following, from the first number of this paper in our exchanges:

"Believing that Cambria county has a deep and abiding interest in the protection of the lidustrial pursuits, and a the development of the mineral wealth that lies buried in our mountains and hills, we advocate a Protective Tariff, and assist in demanding the Repeal of the British Tariff of 1846.

The Policy of the Free Traders.

The New York Globe (Locofoce) affirms that the next step in relation to coal and iron will be to reduce the duties still further. It ridicules the idea of the repeal of the Tariff of 1846, and intimates that all such promises with political objects, should be regarded as little better than attempts to deceive. The Pennsylvanian of this city, another Locofoco organ, speaks of a repeal of the Tariff of 1846, as "an impossibility." The Journal of Commerce, also a Free Trade paper, contains a letter from Washington, in which the game of our political opponents is still more boldly avoided, thus:

"I heard many of the most influential of those who had labored for the passage of the new bill, exclaim—"NOW LET US CREATE AN ANTITARIFF LEAGUE; LET THEREBENOCOMPROMISE, LET OUR CRY BE DOWN WITH THE TARIFF; LET US HAVE NO DUTIES, NO CUSTOM HOUSES; LET US RESORT AT ONCE TO TAX. ES ON PROPERTY FOR THE SUPPORT OF THE GOVERNMENT!!!!" A league for those objects would inevitably be supported by the whole de-

PORT OF THE GOVERNMENT!!!"
A league for those objects would inevitably be supported by the whole democratic party, which, as long as it has Southern support, will ever be in the majority, and two or three years more would with the state of the support of the whole Tariff system.

We trust that our friends of the interior will circulate these expressions of opinion amongst the people. Let the truth be known; let the real objects of the Free Traders be made distinct and apparent, and Pennsylvania at least will pronounce an unequivocal verdict upon the subject.—Penna. Inq.

The Morning News has discovered a mare's nest—nothing less than a sceret, underhand effort of the Whigs to carry New York and Pennsylvania this Fall. Now, my good folks, will you please to understand that the Whigs will make a strong effort, not merely for these two States, but for several more? Don't say you were taken by surprise—don't trouble yourselves to smell out secret Whig efforts—we are OPENLY AT WORK, and mean to deserve success. Do you hear?

The Globe apprehends the loss of Connecticut to its party, in consequence of the Tariff overthrow. Yes, sir, but you will lose several other States before that.—N. Y. Tribune.

The Custoff House Editor of the

The Custoff House Editor of the Pennsylvanian, in attempting to prove that the British Tariff will not affect the iron interest, said in his paper of the 1st instant, "that one company in Lehigh county, has within the last ten days received applications for more than forty thousand tons of pig iron!"

A writer in the U. S. Gazette, of the 3d, to show the miserable falsehood thus put forth to deceive the people, states that there is no company in Lehigh having more than two furnaces in operation, and if they were of the largest class of Anthracite Furnaces it would require over five years in constant operation to furnish the 40,000 tons!" The \$1500 salary of the Editor of the Pennsylvanian is quite too small for such a genius. Lying, as disgraceful as the above, should be better paid—Reading Journal.

The Markets.

In Philadelphia, wheat is selling at \$1 per bushel. In Baltimore good white wheat has been selling at \$1,20. Flour has been worth \$4,50 during the past week in toth cities.

the news brought by this vessel, with the exception of the following in regard to the markets:

Corn Trade.—The London, Wheat Market has been rather fluctuating since last reports. Prices during the week ending August 24th, advanced 4s. per quarter, and at market, a further rise tock place, but in consequence of the high pretensions of sellets, the transactions of any extensive business were retarded.

Foreign free Wheat had rather a restricted sale, but prices continued to dayance, as did Flour, which was in good demand, particularly fresh brands. American, in good sweet state, the price being about 28s. per barrel, duty paid; the weather, having changed for the better, permitting agriculturists to secure outstanding crops, the grain trade has been influenced thereby, and sellers have manifested a solicitude to continue operations at the enhanced rates.

The British Iron trade has improved, in view of the opening of the warkets of the United States, under the new American Tariff.

The news from America announcing that the American Government had made overtures of Peace to the Republic of Mexico, caused a great change in the aspect of Mexican affairs, and produced quite a revolution in the market value of that stock.

THE MORMON WAR.

BATTLE AT NAUVOO—FROM TWELVE TO FIFTEEN KILLEN!—From the St. Louis Republican of the 14th inst., we learn that a battle took place between the Mormons and the anti-Mormons, on the 11th inst., The anties had encamped the day previous "rithin three miles of Nauvoo, and on the morning of the 11th they took up their line of rearch for the city. On ascertaining the movements of their foes, the Mormons beat to quarters, mustered between three and five hindred men, and went forth to meet their adversaries. The antagonistic parties met about one mile East of the Temple, when a battle commenced. The "Saints" and the "Gentiles" fired upon each other for two horrs, but the distance was so great that their leaden missiles were materially deprived of their death dealing properties. Having somewhat appeased their wrath, the beligerents drew off; each patty returning to its original position in the morning. The Mormons, in this affair, had one man killed and two badly wounded. The anties, numbering upwards of eight hundred, returned to camp with a loss of from eight to fifteen killed. The excitement was very great in the vicinity, and it was generally supposed that the battle would be resumed, either that evening or the next morning.
