

[By Magnetic Telegraph.]
FROM WASHINGTON.

Correspondence of the U. S. Gazette.
WASHINGTON, Dec. 4, 6 P. M.

By the Southern mail, we have New Orleans papers of the 26th ult., which contains the announcement of the arrival of the brig Mary Jane, at that port from Brazos Santiago, the Captain states that the Steamer Neptune, left Brazos for Tampico on the 21st, with several companies of the 2d Regiment Artillery. The steamer Sea, was taking in field batteries of the regiment consisting of eighteen, sixteen, and six pounders, with other munitions of war.

A passenger in the brig, direct from Camargo, states that there was no late news from the army, when he left Camargo that was not already received and published here. The schr Berlin, with government stores from New Orleans, bound to Matagorda, went ashore in Matagorda Bay on the 9th inst., and proves a total loss. Crew saved.

It is confidently stated that our report of Commodore Stewart's having received orders from Government to proceed to the Gulf, is altogether incorrect.

Levi D. Slamm, of New York, has been appointed purser in the U. S. Navy.

BALTIMORE, Dec. 4, 9 P. M.

The Western Mail this evening brings later dates from Santa Fe. Great fears were entertained that the stock of provisions would be altogether inadequate to the necessary supply of the Army during the winter.

The American soldiers were said to be in a state of insubordination, and daily committing outrages on the Mexicans, and as a consequence, assassinations were quite frequent.

Movements of Santa Anna.

The Washington correspondent of the N. Y. Commercial writes as follows:

"There is a rumor in the city to-day, which, it is said, comes through the Postmaster General, that Santa Anna has withdrawn all his forces from San Luis Potosi, and concentrated them upon the city of Mexico, which he will strongly fortify.

It is also rumored that this movement is suspected by the Mexicans to be intended to secure to him the dictatorship, notwithstanding all his disclaimers of that intention. Several officers in command at San Luis had pronounced against Santa Anna, and declared him to be a worse enemy to Mexican liberty than the savage North Americans.

This news is "important if true."—It would go to show that Santa Anna is so shaping things as to secure his own interests, and then make peace with the United States—particularly if he can get Mr. Polk's two millions in addition to the two millions taken from British subjects.

Some suppose that Mr. Buchanan has been humbugged by the Mexican agent with whom he has been in correspondence, and that the agent has no authority to speak as to the disposition of the Mexican Government and the Mexican Congress elect. But it is very possible that it is some intrigue of Santa Anna's, and may possibly be a precursor of peace.

NEW WHEEL.

The U. S. Gazette of a late date, says:

"We saw the model of a newly invented wheel for carriages made entirely of iron, and so put together that the danger from fracture of any of the parts is guarded against. The hub was made with an outer shell with holes drilled through at the proper places for the spokes. Each hole was countersunk on the inner side and the spoke, having a head like a screw, was pushed through the hole and screwed into the tread or tire of the wheel, no fellics being used. The spokes are screwed until the shell of the hub is brought exactly to the centre, the spokes straining equally from it and upon the tire at all points. Inside the shell of the hub, which is made concave, the real hub fits, and the axle being inserted and the linc pin adjusted, a cup screw over all, and holds the real hub tight in its place in the shell.—Among the merits of this invention are that the upper spokes aid to sustain a load, and that the wheels can be constructed in this manner, 25 per cent. cheaper, and lighter than the wood and iron ones now in use.

The inventor is Mr. C. R. Connelly, of New York.

COAL STATISTICS.—The total amount shipped from the various Coal regions of Pennsylvania during the present season, up to the latest dates, has been as follows, viz:

Tons.	
From Schuylkill Coal Mines,	1,084,504
" Lehigh,	493,929

" Wilkesbarre,	189,582

Several papers have suggested the propriety of holding a State Tariff Convention at Harrisburg sometime during January or February.

Hon. Mr. McDuffie, U. S. Senator from South Carolina, has resigned his seat on account of ill health.

The Whigs and the War.

The Locofoe Press, says the North American, strives to impress the world with the belief that a considerable portion of the people of this country are anxious to cripple the energies of the Government in its present struggle with Mexico. Their journals know the statement to be false—a calumny and almost a treason, against the country; yet for the gratification of party spleen, or party interests, they persist in it. That the millions of the country do not approve the policy of the Administration on the Mexican question is most true; but it is also true that the opposition have tendered men, money, all the resources and aids which the country can furnish, to prosecute the war with energy. The Whigs have, from the first moment of the war, complained of the inefficiency of the military policy of the administration; and condemned the tameness and feebleness of spirit which protracted a struggle that, by a bolder and more energetic course, would have been crushed and closed at once.

NEXT GOVERNOR.—The Clinton County Whig says:

"Friend KNABB, of the Reading Journal, inclines to the belief that the Whigs of the Country differ from the Philadelphia delegation with regard to the gubernatorial nomination. We know to the contrary, and our knowledge is based upon the actions and sentiments of the Whigs of the Country. Politicians may prefer some other man, but the people are for Gen. IRVIN; and we regard his nomination as a matter of certainty.

The Cayuga Tocsin, a leading barn-burner organ, nominates Silas Wright unqualifiedly for next President, and pretty strongly insinuates that he owes his recent defeat to the benevolent interposition of his dear friends in and about the White House, Washington. The Tocsin concludes:

"The name of Silas Wright will be a rallying point for the Democracy of this State, and a rallying point also, for that portion of the Democracy of the Union who desire to REDEEM THEIR FAITH FROM COMBINATIONS AT THE SOUTH FOR POWER, AND AT THE NORTH FOR FLATTERY."

Spunky and blunt, any how.

A PROOF THAT A MAN CAN BE HIS OWN GRANDFATHER.—There was a widow and her daughter in law, and a man and his son. The widow married the son and the daughter the old gentleman. The widow was therefore mother to her own husband. They had a son, to whom she was great grandmother; now, as the son of a great grandmother must be either a grandfather or great uncle, this boy was one or the other. He was his own grandfather! This was the case with a boy at school at Norwich.

The physician to the Penitentiary on Blackwell Island, and ten Keepers, have been indicted by the Grand Jury in New York, for bringing convicts to the city from the Island, to vote at the late election in New York.

PENNSYLVANIA REGIMENT.—It is said that 6 Philadelphia companies, 2 from Pittsburg, 1 from Lycoming county, and another from Schuylkill, have been accepted as the regiment for Mexico, as called for under the requisition from the President.

The oldest Methodist preacher in the United States, Rev. Thornton Fleming, died in Allegheny county, on Saturday last. He was one of the first Methodist ministers who preached the Gospel West of the Allegheny mountains.

IMPORTANT FROM MEXICO.—ANOTHER REVOLUTION.—A telegraphic dispatch to the N. York Herald, dated Washington, Nov. 29, says—I learn that impetuous despatches have this day been received from our Squadron in the Gulf of Mexico. The Mexican Administration is dissolved, and Almonte is going to England. Santa Anna has been compelled to refund the two millions of dollars which he recently stole from a conducta.

It is said that on a field of eight acres, of the farm of Isaac Evans, in Uwehlan township, Chester county, there were raised the past season, 825 bushels of Corn.

We learn by the Pittsburg American, that engineers have ceased laying out the route of the Pittsburg and Connelville railroad, because the Baltimore and Ohio Railroad Company seem not determined to give it their aid and concurrence.

Hon. Thomas Corwin is warmly recommended as a candidate for next President by several Ohio Whig papers.

The Boston Star says, the reason the boys are anxious to whip Mexico is, because she refuses to treat. To which Darby replies—The boys had determined to liquor long before she refused to treat.

ANOTHER STEAMBOAT DISASTER.

THEY OR THIRTY LIVES LOST, TWENTY OR THIRTY SCALDED.

The New Orleans Picayune of the 22d inst. furnishes the following melancholy particulars of a terrible steamboat collision on the Mississippi:

The Sultan, Capt. Tufts, which arrived this morning from Vicksburg, brings the particulars of a terrible steamboat accident which occurred on the 21st instant, about seven miles below Natchez, in the bend of the river, by which some twenty or thirty lives were lost and a great number of persons were severely scalded.

The Sultan, bound down the river, came in contact with the steamboat Maria, Capt. T. W. Dunnica, bound up, about 2 o'clock in the afternoon, striking her just forward of the wheel-house, and by the violence of the shock broke the connection pipe of the Maria, by which the chief clerk, the second engineer and between twenty-five and thirty deck passengers were scalded, many of them so severely that there was no prospect of their recovery.

The Maria sunk to within about two feet of her cabin floor within five minutes after the collision, drowning between twenty-five and thirty persons who were on the lower deck. It is thought that Capt. Dunnica was drowned, but it is not certainly known. The cabin passengers were all saved.

The steamboat Talma, Capt. Hite, came down the river soon after the accident, and took on board the wounded and conveyed them back to Natchez to be placed in the hospital. The Sultan remained by the side of the wreck till sunrise the next morning, rendering every assistance in their power. We are unable to furnish a list of the names of killed and scalded. The Maria will be a total loss, it is thought. The bows of the S. were much injured.

The New Orleans papers, state that the only persons known to be lost in the upper cabin of the Maria was Mr. James P. Durat, principal clerk of the boat; and Mr. Samuel Heim, third engineer. No other names are mentioned.

A WINDFALL.—The Bridgeport, Connecticut, Farmer says:

"T. Keaf, an Irishman, employed as a laboring hand on our railroad, last week received intelligence in authentic shape, that he was the inheritor of an estate in the Emerald Isle, to the amount of £13,000, or \$60,000. After reading the letter, Thomas picked up his old coat, it is said, and gave it a sling as far as he could off the dock; then calling his fellow countrymen, told them of his good fortune, and "put them all through," without stopping to count the cost. He starts for Ireland, we learn this week.

DANIEL WEBSTER AND EX-CHANCELLOR KENT.—An intimate friend of the venerable Ex-Chancellor Kent, states, that to Daniel Webster's foresight, judgment, and precaution, may be attributed, the preservation of the great jurist from a shocking death, as, but for the urgent remonstrance of the Senator, he would have taken passage in the Atlantic. "Do not trust that impeding storm," said the far-seeing statesman; "there is appalling danger in its threatening aspect." "We may safely confide in a kind and overruling Providence," meekly replied the good old man. "Help yourself first, and then providence will also aid you," answered the Eastern sage. His advice was adopted; both left the vessel for the railroad train, and both were saved.

The Philadelphia Times, Locofoe, says:

"With Com. Stewart at the head of our naval forces, and Gen. Scott in command of the new land expedition against Mexico, we fancy that something would soon be done that would induce Santa Anna to sue for peace without a much longer contest."

A clergyman in Virginia writes to the Methodist Protestant thus:—"Yesterday at half-past 3 o'clock, I preached the funeral sermon of a man, and, to-day, at the same hour I married his widow to another man—the former husband has been dead four weeks."

THE CONSTITUTION.—Hon John Quincy Adams, in a recent letter speaks of the retrocession of Alexandria to Virginia, as unconstitutional and void. He adds: "How the Supreme Court of the United States would consider it, I cannot undertake to judge, nor how they could carry it into execution should they determine the Act unconstitutional."

An editor at dinner table, being asked if he would take some pudding, replied—"Owing to a crowd of other matter, I am unable to make room for it."

One thing is Certain.

THAT Wistar's Balsam of Wild Cherry is far the best remedy now used for all distressing coughs, and diseases of the lungs. The cures being performed are really astonishing of the kind. Dr. Wistar's celebrated preparation is wholly an innocent remedy—being composed principally of the Wild Cherry and extract of Pine; combined by a new chemical process with the genuine Iceland moss, another of Nature's great curatives for pulmonary diseases.

Those who want a remedy that will surely cure, should send immediately to the store of THOS. REED & SON.
