Insensible Perspiration. The preceding figure is given to represent the insensible perspiration. It is the great Evacuation for the impurities of the body. It will be noticed that a thick cloudy mist issues from all parts of the surface, which indicates that the perspiration flows uninterruptedly when in health, but ceases when we are sick. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and disposes by this means of nearly all the impurities within us. The language of scripture, "in the blood is the life." If it ever becomes impure it may be traced directly to the stoppage of the "insensible perspiration." Thus we see all that is necessary when the blood is the life." If it ever becomes impure it may be traced directly to the stoppage of the "insensible perspiration." Thus we see all that is necessary when the blood is the sufficient, without one particle of medicine, except to open the pores upon the surface. Thus we see the folly of taking so much internal remedies. All practitioners, however, direct their efforts to restore the insensible perspiration. The Thompsonian, for instance, steams; the Hydropathist shrouds in we blankets; the Allopathist bleeds and doses us with mercury, and the blustering Quack gorges us with pills. In we had mysicians, learned in the Gospel, Jadges of the Bench, Aldermen and Lawyers, gentlemen of the highest roution, and multitudes of the poor, use it in every variety of way, and there has been but one voice—one united, universal voice—saying, "M'Allister your Ointment is gous." The system. But if placed upon the chest, it penetrates directly to the lungs, search as they are vision of consumption continually, although we are told that it is foolishness. Leare not what it said, so long as I can cure several thousand persons of the Headache of 12 year's standing, and who had it regularly every weeks, othat vomiling often took place. Worms.—If parents knew how fatal most medicines were to children taken inwardly, they would be slow to resort to them. Especially 'mercurial lozen-ges,' called 'medicated lozenges,' 'ver-mifuges,' pills,' &c. The truth is, no one can tell, invariably, when worms are present. Now let me say to parents, that this salve will always tell if a child has worms. It will drive every vestige of them away. (Read the directions around the box.) Due Sores.—That some sores are an outlet to the impurities of the system, is because they cannot pass of through the natural channels of the Insensible Perspiration. If such sores are healed up, the impurities must have some other outlet, or it will endanger life. This salve will always provide tor such emer-gency. PHILADELFHIA, Sept. 20, 1845. Messrs. Robinson, Collins & Co.-Being afflicted last spring with a very severe cough, with pain in my side and breast, soreness and weakness of the lungs, shortness of breath, loss of apetite, &c., I tried various remedies, but to no good effect, my cough still continuing and growing worse. Such was the distress-ing nature of the cough, that I could not lie in bed night nor day, but was obliged to sit up in my chair, and could sleep very little at best; consequently I was wearing out very fast, till you very kindly recommended Dr. Davis's Com-pound Syrup of Wild Cherry and Tar, the first bottle of which gave me relief, checked my cough, loosened the phlegm, caused me to expectorate freely, restored my appetite, relieved the pain in my side, healed the soreness of my breast, and strengthened my lungs, causing me to breath efreely. I have now taken ten bottles i it has entirely cured my cough. I have gained considerably in flesh. I think it a most valuable medicine, and one that ought to be universally known, that those afflicted with colds and coughs
