## FOURTEEN DAYS LATER FROM EUROPE—ARRIVAL OF THE BRITANNIA.

The Steamship Britannia arrived at Boston on Sunday evening 16th inst about midnight.

**IRELAND.**—The latest accounts from Ireland represent the mortal career of the Lord Lieutenant as rapidly drawing to a close. The Dublin Evening Post holds out no hope of his recovery.

The Potato blight has reappeared in the neighborhood of Belfast.

O'Connell is sinking daily; the accounts which came to hand through the medium of the French papers, show that his earthly career is drawing to a close.

The weather has, of late, undergone a favorable change; vegetation is making rapid progress. The accounts of the Wheat and Oat crops are highly encouraging, and even in regard to Potatoes very favorable accounts are received.

**FRANCE.**—Three men, whom the French Court sentenced to death for their participation in some of the Corn riots at Besancon, were executed on the public square of that town on the 12th ult. before an immense concourse of people.

The news of General Taylor's victories was received with much satisfaction.

Great distress continues to exist.—Bread is excessively dear, and it is feared that during the months of May and June provisions of all kinds will be dearer than they have hitherto been.

Vegetation is very backward, owing to the cold during the last fortnight.

Complaints have been made in the Havre Evening Journal that the Americans have imposed a tax upon foreign shipping arriving on the coasts of California—some of them even say that, the conquest of California not having been recognized by France and other countries, amounts to a robbery.

**ITALY.**—A most diabolical plot to murder the Pope has been discovered. It was first found out by the French Ambassador; he revealed the names of the conspirators to the Pope. Their intention was to assassinate him while giving audience to one of them, who was appointed to kill him.

A Capuchin Priest presented himself for an audience of the Pope. His Holiness requested his name. This he gave; but before admitting him, the Pope looked over the list of conspirators, and finding the name of the Capuchin there, he immediately summoned Carbone, who, on the Capuchin's entrance, seized him, and on searching him, found he had a brace of pistols and a poisoned dagger about his person. The Capuchin was conveyed to prison. Many arrests took place.

The plot is no doubt a concerted one. **MONEY MARKET.**—During the last fortnight the Funds have continued uninterrupted a downward course, the bullion in the Banks still disappear rapidly.

The European Times says:—Since we alluded to the position of the Bank of England, matters have become worse in the whole commercial world. From Cornwall to Caithness and from Cape Clear to the Giant's Causeway, all are up in arms in respect to our absurd monetary policy. Great is the triumph of the currency doctors, and great is their exultation at the embarrassment, which is bringing many to ruin, and has already caused proud hearts to bow in humble prostration.

The price of Cotton on the sailing of the steamship Caledonia had a downward tendency, and since her departure prices had further declined. The market had become flat, the sales less, and speculators not operating.

**FLOUR MARKET.**—There has been some fluctuation in the price of Grain and Flour during the month, but prices have now settled down at 40s. for Western Canal Flour. American Red Wheat, 10s. 6d. to 11s. 9d.; and White, 12s. to 12s. 3d. per bushel. Indian Corn, 51s. to 52s.; Red, 52s. to 53s. During the last day or two, Wheat has advanced 2 pence per 70 lbs.; Western Flour, 1s. per barrel; Philadelphia and Baltimore Flour, 6 pence.

In the Liverpool Market the demand is limited, and prices have declined 2s. per 180 lbs. on Yellow, 2s. on White.—Yesterday, May 3, foreign Wheat obtained an advance of fully 4s. per quarter. The Flour trade was very active, and a rise of 2s. per bbl. was established; while Indian Corn was sold at 56s. to 58s. for Yellow, and 58s. to 60s. for White.

The amount which the Americans have sent to the starving Irish has been the universal theme of eulogy in Ireland, and of warm and generous sympathy in England.

**THE POOR IN LONDON.**—Upwards of 50,000 persons are now inmates of the London workhouses; 60,000 are receiving out-door relief, and from 1400 to 2000 are nightly sheltered in the refuges for the homeless. The aggregate exceeds one hundred thousand. In addition to this number, there are many thousands who live by begging, and thousands more who live by criminal practices.

The Philadelphia city loan of \$3,500,000, for the subscription to the Central Railroad, has been taken, \$16,000 at a premium of from 1-4 to 2 per cent, the balance at par in one bid.

## Arrest of an American Ship Captain and his Boat's Crew

To Mr. Jeffrey supercargo of the brig Perfect, Capt. Gardner, from Tampico, the New Orleans Delta is indebted for the following. It was related to him by a passenger on board, who was from San Blas, and who was cognizant of the facts:

"The whale ship Stonington, Capt. Hamley, arrived at San Blas, from Upper California, on the 1st March. Three Mexican officers were passengers on board. One of them, Senor Narviz, had been for several years Captain of the port of Monterey, in California. Captain Hamley, at the instance of Narviz, took him ashore in his boat. Immediately on his landing on the beach, Captain Hamley, his crew of five men, and Senor Narviz, were immediately made prisoners by the Mexican authorities of the place.

The ship lay off and on for several days, expecting the return of the captain and boat's crew, and at last set sail and went off. The captain and crew were kept in close confinement, and were finally sent to Topic, where they arrived on the 10th of March.

They were there confined till the 15th, when they were set at liberty, at whose instance is not stated. They left for San Blas, where they expected to get on board a Spanish barque, which was to sail for Guayaquil, from whence the expected to get a conveyance to Valparaiso to join their ship.

**Diabolical and Murderous Act.**  
Sixty persons poisoned—Ten or Twelve Dead—Eighteen or Twenty others Despaired of.

The New Orleans Delta of the 11th instant says that a friend of their's has received a letter from his brother, who resides in the parish of Sabine. It is dated on the 2d instant, and besides some reference to matters of private business, contains the following startling extract:

"There has been one of the most unexampled acts of poisoning committed in Shelby county, Texas; that ever I heard of.

"There was a wedding at old Mr. Wilkinson's of an orphan girl he raised; at which all the invited guests were poisoned, including the bride's maid and groom's man. Out of sixty persons poisoned; thirty, Dr. Sharp says, will certainly die. Ten or twelve are already dead, including two sons of preacher Britton, two Castlebury's—the one a young man and the other a young woman—one of the Slaughter's and his wife.

"Strange to tell, none of the family was injured, nor yet the bride and groom; yet one of the bride's maids died in the house.

"Old Wilkinson has absconded.—This portion of Texas is in arms; and woe-betide the guilty! What I write you is the fact without exaggeration.

"It is supposed that the negroes were hired to administer the poison in the coffee, or food, by a disappointed suitor, who was present at the wedding."

**The War and its Victims.**

Since the commencement of the war with Mexico, we have killed and wounded at least 10,000 of her soldiers, and taken possession of immense tracts of her territory. Nevertheless; there are no indications of peace. It is estimated moreover by a Washington letter-writer, that our loss in killed and wounded is 3,010; and that there have died of the climate 2,500—making together 5,510 men who have been either wounded or lost to the country in battle or by sickness. Amongst those who have been killed or wounded are some of the noblest spirits of the land—men who were calculated to be ornaments to the country. The writer above referred to, thus sums up our losses:

In the operations around Matamoras, in killed and wounded,	500 men.
At Monterey,	500 "
At Buena Vista,	800 "
In incidental skirmishing within the line of Taylor's operations,	200 "
In the operations in New Mexico, in killed and wounded,	200 "
In California,	250 "
At Vera Cruz and neighborhood,	50 "
At Alvarado in the attack of Com. Connor, say	10 "
In the attack of Capt. Hunter,	60 "
At Cerro Gordo, including the march there,	500 "
Total killed and wounded,	3,010 "
Died of the climate,	2,500 "
Total,	5,510 "

The territories of the enemy occupied by our forces, comprehend, says the writer, "an area of 800,000 square miles; equal to fifteen such divisions of territory as the State of New York." Besides this, we have possession of Vera Cruz and several other places; and perhaps of the city of Mexico itself. At every stage of the war the olive branch has been tendered to Mexico, but it has been insolently rejected, and defiance hurled in our teeth. In this condition of affairs what shall be done?—Pa. Inq.

**GREAT MORTALITY.**—The Washington (Pa.) Reporter, of the 15th inst., states: that within the last three months a large number of deaths has occurred in East Pike township, in that county—equaling, if not exceeding the ravages of the cholera. The disease is styled a malignant fever.

## A Most Singular Case.

We find in the Boston Medical and Surgical Journal, the following account of the anomalous case of Miss Sarah Burbeck, of Salem, who is represented not to have slept for a moment, nor to have been free from pain for fifteen years.—Her body and limbs are in perpetual motion—and almost all the joints in her body have been dislocated thousands of times:—

"When I entered her room, she was sitting up in bed, and her right arm, hand and fingers were twisting about in every direction; presently she leaned forward and threw herself back against the headboard, as if determined to break her head. The head-board was within an inch or two of the wall, and though a large well stuffed pillow was placed against it, when her head struck the pillow, it was with such force that the headstead struck the wall, causing the whole house to tremble. During ten minutes that I sat there, she was thrown back in that manner over thirty times. It appeared to me that each blow of her head against the pillow, board and wall, was sufficient to stun a common person, yet she hardly appeared to notice it.

During the intervals between these spasms, her right arm, hand and fingers were twisting about, and her right shoulder & under jaw were drawn out of joint & in continually; the bones rattling and grinding together with a noise that could be heard in other rooms, as I was told by several present. Being deaf I could not hear them, but by placing one hand on her cheek and the other on her shoulder, I could feel the grinding and crackling as the muscles kept them in constant motion.

Sometimes her jaws are locked for several hours, and even days; and at one time, if I remember right, they were locked twenty-five days, when all the nourishment she took was through the aperture caused by the loss of a tooth.

Her jaws have been so often dislocated, she can bite nothing except when the contraction of the muscles throws her teeth together, and then her tongue is often caught between her teeth, and severely bitten. She takes no nourishment except in a liquid state, and that with the greatest difficulty, as it causes strangulation; spasms, and severe distress.

These spasms sometimes throw her from her bed to the plastering over head; and sometimes on the floor; and any attempt to hold her increases her agony. Her hand is sometimes thrown up in her face with such force as to bruise her face and break the skin, and one of her eyes has thus been destroyed.

While conversing with her; her jaw was thrown out of joint, and drawn down in a most shocking manner, and she was thrown back three times with such force as caused the whole house to shake; and the moment the spasm ceased she finished her sentence; commencing at the very word where the fit had interrupted her, and with so calm a voice, that I asked her, in astonishment, if she felt no pain, when thus attacked. She said the pain was excruciating, if she would give way to her feelings, her screams might be heard half a mile; but as that would only distress others, she had learned to be quiet.

Her father is over 90 years of age; and had a shock of the palsy; from which he had partially recovered when I saw him. Her mother is over 70, and has had the care of this suffering child until prevented by sickness within a year and a half. At the time of my visit she was confined in the same room in a very feeble state."

**Jalapa.**  
The "American Star," a paper which yankee enterprise has just started at Jalapa, thus speaks of the place:

If there is any one place in Mexico that we deem superior to all else we have combined, that place is Jalapa. It is the prettiest town, has the handsomest buildings, loveliest gardens, and most delicious fruits of all others taken together; and what adds more than all these to the interest of the place is the fact, that it seems to be peopled with a race distinct from those we have encountered elsewhere—possessing more ideas of refinement and more intelligence, more industry and more neatness. The women are decidedly pretty, and there is not a man who will say ought to the contrary; and in their habits—we mean of course, "the upper ten,"—they approximate nearer to American refinement. Naught can be said of the men but what is to their advantage; and many a time, while passing up the principal street, we imagined ourselves in some thriving Yankee city. Taking Jalapa all in all, we are highly pleased with it and its people, and cannot conceive that there is any difference of opinion on that subject among us Americans.

A brutal father in Philadelphia waded a few days since with some wretch as unfeeling as himself that his son a mere lad, could drink three bottles of porter. The child in obedience to his father's stern command, drank off the contents of two bottles and a part of the third. Failing to accomplish the task, the unnatural parent became enraged, and thrusting the neck of the bottle into the child's mouth, poured the liquor down his throat. For a while the lad's life was despaired of, but the medical treatment finally restored him.

## IMPORTANT FROM MEXICO.

[From the North American.]  
MURDEROUS ORDER OF CANALES.

FREDERICKSBURG, 1 P. M.  
Our advices from New Orleans to the 14th, look gloomily for the prospects of any thing like a speedy pacification.—We have had the bow of hope spread before us, but it retreats as we advance, and fades from the sight. The Picayune publishes an order signed by Canales, issued in consequence of the late unworthy and atrocious massacre of Mexicans by our troops. This recommends retaliation, and directs that no quarter be given to any American, though unable to resist and without regard to age, sex or condition.

There is a bloody chapter in the history of the war about to be commenced, and straggling parties near our points of occupation on the Rio Grande will be the victims. Martial law has been declared throughout the whole valley of the Del Norte and every individual capable of bearing arms is summoned; and in default, is to be regarded as a traitor and instantly shot.

This order of Canales is addressed to the Adjutant General of the National Guard, and any failure to carry it into full effect will be regarded as a crime of the greatest magnitude. So stringent are the provisions of the order that not even the clergy are allowed to remain at home.

It is reported in New Orleans on the strength of private letters, that General Alvarez is marching from Northern Mexico, with upwards of 25,000 men, whom he means to scatter in Guerilla parties covering the whole country between Jalapa and Puebla—also between the former place and Vera Cruz; and that the inhabitants of many of the villages are arming and going forth to meet him as guerrilleros.

The New Orleans Mercury of the latest date has intelligence showing that Santa Anna's orders, and the movements resulting therefrom, correspond with those of Canales. The Guerilla warfare is about to be commenced with great activity on the part of the enemy.

We may also state that the Spanish paper in New Orleans "La Patria" publishes a letter to the effect that Santa Anna has issued, from Orizaba, over one hundred commissions to many guerilla officers, authorizing them to command small itinerant parties of fifty to two hundred men each. Some of these it is added, have already commenced their operations on the Jalapa road.—Eds. N. Am.]

There is no later arrival from Vera Cruz, and of course nothing further from Gen. Scott.

Gen. Taylor it was expected would be delayed some time longer at his present encampment, on account of the want of re-inforcements for the volunteers who are leaving him.

The volunteers who had arrived in N. O. were in wretched health and ragged.

## Important to Stove Dealers.

The attention of Stove Dealers in this place is invited to our assortment of Cooking, Parlor, Hall and office Stoves, and especially to **Atwood's Empire Hot Air Cooking Stove.**

As the best cooking apparatus ever invented, it having obtained a celebrity, wherever it has been introduced, never before attained by any Cooking Stove. The operation of baking being performed in this stove by hot air, instead of heat radiated from the open plates, renders it equal for baking to a Brick Oven, or to the Tin oven for roasting; making it unnecessary to turn or change the article while cooking, and removing all liability to burn. We are desirous to have the Stove introduced in this market, and to that end, liberal terms will be given to a responsible dealer, willing to take hold of them, and only one will be permitted to sell them in the place.

GILBERT & ALLEN, Wholesale Stove Dealers 223 North Second street, may 26-47 Philadelphia.
