The N. Orleans Picayune of the same date says:
From Capt. Lauman, of the Pennsylvania volunteers, we learn that the work of fortifing Rio Frio was going on rapidly. The English Courier, who arrivid at Vera Cruz the night before the New Orleans, left, said positively there were 20,000 Mexicans engaged in the work.

were 20,000 Mexicans engaged in the work.

Other accounts reduce the number to 12,000, but on this subject the explanation we take it, is that any number of men can be raised to defend the city—that there is scarcely a limit to the hosts that can be concentrated, if the means of feeding them can be procured. But that these hordes are well armed and equipped, or possess any discipline, we have no faith. Their very numbers will prove an obstacle when the day of trial comes.

comes.

The new recruits suffer much upon their arrival. As soon as landed they march off for Santa Fe, through the deep sand, the weather excessively hot and a frightful scarcity of water. Many of them give out and are carried back to the city to be placed in the hospitals and suffer with diarrhea. In the hospitals at Jalapa there are said to be about 800 sick.

and safter with districts, in the hospitals at Jalapa there are said to be about 800 sick.

We learn with great pleasure that Major Gaines, Borland, Cassius Clay, Midshipman Rodgers, and all the other American prisoners, had been released, and were at liberty in the city.

We saw a letter by the last arrival, from an officer in General Scott's army, and whose situation was highly favorable for obtaining correct information, which said peace would shortly be made.

We regret extremely to learn that sickness prevailed to a great extent at Vera Cruz. There were 49 deaths the day of the departure of the N. Orleans, and 1500 to 1800 were in the Hospital, these however, included the wounded and others—those that had been sent from Cerro Gordo.

and others—those that had been sent from Cerro Gordo.

The news on the whole, we think is favorable as regards peace, or at least of a disposition on the part of the enemy to make it, if the terms should be admis-

A letter in the New Orleans Dana, dated Jalapa, May 21st, has the following:

A train of 200 wagons arrived yesterday afternoon from Vera Cruz, and proceeded this morning, in company with Gen. Twigg's Division, towards Puebla and the city of Mexico. Capt. Walker's gallant band of mounted men accompanied the tram, and during the journey had two sharp skirmishes with a superior force of Mexican lancers or robbers. The last took place at Santa Fe, at an early hour in the morning of Wednesday last which resulted in the complete route of the enemy, over 200 in number, who had 10 killed and many wounded. Our men had several wounded, but none dangerously. The 2d Dragoons, who were first attacked by the Lancers, while reposing in slumber, had 6 killed and 11 wounded.

Walker, in person, pursued the

wounded.

Walker, in person, pursued the wretches, as far and well as the darkness of the occasion would admit, captured six prisoners, who were handed over to the dragoons, and almost instantly shot dead. Capt. Walker has 180 men, only 100 of which are mounted.

They are a fine body, and their gallant commander is now the "the kion" of Jalapa.

FREDERICKSBURG, June 17.

The Southern mail is just in, bringing New Orleans papers of the 10th.

Santa Anna, has written another letter, stating that he would positively resign unless his plans for the defence of the Capital were adopted.

The greatest activity prevailed among all classes of the citizens of Mexico to place their Capital in a proper state of defence.

All accounts seem to indicate that a

All accounts seem to indicate that a hard fight will take place before General Scott will be able to enter the city of Mexico, and he will doubtless be opposed at Rio Frio.

The exact amount of Gen. Scott's forces is not known; but he must have received additions to his army, from the new recruits which are still daily ariving at Vera Cruz.

No improvement in the health of Vera Cruz.

The Eagle gives a report that Almonte had been imprisoned on an accusation of holding correspondence with General Scott.

It has been ascertained that only one man was killed at the time Col. Sower was murdered.

A naval expedition against Tobasco, under the Commodore in person, was about to start.

The letter of resignation of Santa Anna is published in the Union. We have not room for any more than an extract:

"The views of the external enemy, and the conflicting intetests of parties in themterior, are directed to me individually, as a common target for all and I find myself placed in a position—I will not say dangerous, for I do not fear dangers—but extremely difficult, and in which I can render no service. The attempts at a revolution are public, and the government holds in its hands the thread of them; and it is also publicly known that the enemy dare not advance from Puebla upon Mexico, as he loudly threatens to do, unless he is aided by a revolutionary movement in this capital. I can arrest this revolutionary movement in this capital. I can arrest this revolutionary movement in this capital. I can arrest this revolutionary movement by a single word; and it is my duty to utter it, as the last and most efficient service which it is left me to render—that word is the formal resignation, which I tender in this note, of the provisional presidency of the republic, with which the nation honored me."

The letter accompanying the above to the Union, is dated at the city of Mexico, May the 29th. It states it was very doubtful whether Santa Anna's resignation would be accepted by Congress. Later from Tampico—The Yellow Fever—Fatal Affray.

Liverpool, June 4th, 1847.

CORN MARKET.

Notwithstanding the strang speculations entertained previously to the departure of the last steamer, that the corn market would maintain its upward tendency, the usual fineness of the weather, promising a favorable home harvest, had the effect of materially depressing prices, and of course contracting the extent of average transactions.

The advices, however, brought by the Caledonia, of light stock in the American ports, have created considerable activity, which aided by the dreaded relaxation that has taken place in the pressure of money market, have largely tended to re-establish a freer desire to speculate.

money market, nave largely tender, to re-establish a freer desire to speculate.

The reports, though not authenticated, of a probable failure of the potato crops, both in Ireland and Jersey, have also had their own influence. The markets have, in point of fact, fallen 20 shillings per quarter from the highest point; but though flour had declined to 40 shillings, and may be fairly quoted at 43s. for best Western. Some averages 37 to 38 shilling per barrel. American wheat 10s. 6d. to 12s. 6d per 70 lbs. Indian corn is tolerably steady at 52s. for prime yellow, and in some instances owing to the increased demand from Ireland, white has commanded 2s. per quarter above the currency of yellow.

Corn Meal ranges between 2Ss. and 31s. with a tendency to the higher quotations.

The New Orleans Delta of the 8th instsusy—
Our correspondents—whose letters are to the 23d ult, from Jalapa—all represent Santa Anna as being engaged in fortying Rio Frio with a large force.—Gen. Scott is pushing on to meet him with great haste. Ere this the battle has occurred, and the last obstacle to the entry of our army into the capital will be removed.

The N. Orleans Picayune of the same date says:
From Capt. Lauman, of the Pennsylvania volunteers, we learn that the work of fortifing Rio Frio was going on rapidly. The English Courier, who arrivital tvera Cruz the night before the New Orleans, left, said positively there were 20,000 Mexicans engaged in the Work.

Gen. Taylor for the Presidency.

We saw a few days ago in the proceedings of an abolition society in Boston, a long resolution, severely condemning Mr. Webster for not denouncing slavery in the city of Charleston, during his late visit. Would it not be more consistent in those fanatics to go to Charleston themselves and denounce slavery, instead of condemning Mr. Webster for his omission? It is very much a fashion now-a-days for demagogues to sit quietly at home, out of harm's way, and denounce others for not doing what they are afraid to do themselves.—[Bucks Co. Intel.

is no instance in which this piece of advice is more
valuable than to persons who have a cough or cold,
for if they neglect what may appear to them very
trifling in the beginning, it may lead to inflammaton of lungs, and finally consumption. To all
who have a cough, we would say, procure a bottle
