

FROM MEXICO.

A Battle between Gen. Cadwalader and the Mexicans.

The Ledger's special express from the South again brought on Saturday night important intelligence from Mexico. Our gallant townsman, Gen. Cadwalader, has had an opportunity to distinguish himself already, though but just arrived in Mexico. The news by the previous express stated that the Guerillas in great force had attacked a train under Col. McIntosh, and gained a temporary advantage by destroying some of the wagons. Gen. Cadwalader, then at Vera Cruz, mustered 600 men, consisting of a section detailed from the Howitzer battery, ten guns, attached to the volunteers regiment, under Lieuts. Blakely and Cochran; four companies 11th regiment (Pennsylvanians) under Col. Ramsey; one company of the 7th Infantry, and company K 3d Dragoons, (20 wagons accompanied. The Mexicans met him at the National Bridge in force posted on the ridge and in the chapparal, but Cadwalader charged and carried the heights, killed more than 100 of the Mexicans, losing in killed fifteen of his men. The action lasted several hours. Gen. Cadwalader had 1600 men altogether, having joined his 600 to the escort under McIntosh, the Mexicans 4000. The gallantry and skill of Gen. Cadwalader are highly praised. His good conduct in this affair confirms the high opinions that were formed of his character as a soldier. The late report left him on his way to Jalapa still contending with the enemy on the road. The next news will bring us an account probably of another victory over them which would make another stand.

Important if True.

The Baltimore Clipper of Thursday contains the following rumors: **Rumored Battle!**—Another Route of Santa Anna by Scott.

Our city was full of rumors last evening, in relation to another battle. So far as we could learn, the intelligence, which was brought by Southern passengers, was to effect, that Gen. Scott was on his march to Mexico, and when within six miles of the city, he encountered 3,000 Mexican cavalry, under Santa Anna. Gen. Scott immediately gave battle, ordering Capt. Bragg's battery to open the fire, which was done so effectually, that before the Mexicans had time to fire scarcely a single gun, they were compelled to take to the mountains, leaving about one hundred of their number dead on the field.

We give this intelligence as we received it, on the authority of rumor. If correct, Gen. Scott is now in possession of the Capital.

Highly Important.—Arrival of Despatches.—Herrera Elected President.—We learned from Washington last evening, that a bearer of despatches from the Army had arrived there with the intelligence that Herrera had been elected President of Mexico, and there was little doubt of a speedy establishment of peace between the United States and that Government.

[BY MONDAY EVENING'S MAIL.]

LATER FROM THE ARMY.

General Scott advancing upon the City of Mexico.

FREDERICKSBURG, Va. July 2.

The steamship Palmetto has arrived at New Orleans, bringing Vera Cruz dates to the 18th, and Tampico to the 20th, and Brazos to the 21st. An express received at Puebla by the Cordova route, announces that Gen. Scott had commenced his march from thence to the capital on the 16th. Nothing is said in regard to the overtures of peace. A thousand troops had left Vera Cruz on the 17th, under Gen. Pillow to join Gen. Scott.

Nothing further had been heard from Gen. Cadwalader. All the sick started on the 15th from Jalapa for Perote.—Gen. Shields was among the number. The dates from the city of Mexico were to the 9th. Santa Anna was then still in power. His resignation was withdrawn on ascertaining that the majority of Congress was anxious for its acceptance. The administration in consequence of this, entirely changed its policy, and has thrown itself into his arms. The public opinion there is greatly divided.

A quorum of Congress cannot be collected; such confusion and anarchy never before existed even in the city of Mexico. An important financial measure of Amaya's administration had been summarily abrogated by Santa Anna, in defiance, he says, to public opinion.—This has led to the resignation of Barrantoa, and the nomination of Lafragua as the head of the state department, causing dissatisfaction to the Puros, but the result is not yet known. Almonte was still in prison.

The state of Chihuahua had voted unanimously in favor of Santa Anna for President. The impression is that Congress will elect and Herrera be chosen. No mention is made of measures for the defence of the Capital in the papers.—They deem Gen. Scott's intention to march on the city a mere beast to keep up the spirits of his men.

The Government is urged by letters

from Puebla to fall upon Scott and crush him. They say he has really but 5000 men, though he pretends to have 7000. It is dreaded that he should be joined by Gen. Taylor. The propositions Mr. Trist is authorized to make is said to be as follows by the Mexicans:—Each Republic to name three commissioners to discuss the claims of the U. States, and if Mexico does not consent, the war to be prosecuted.

El Republicano of the 7th, publishes the intercepted despatch of Secretary Marey to Gen. Scott, dated the 30th of April, in which he says that the President supposes by the end of June, that Gen. Scott will have twenty thousand and Gen. Taylor ten thousand men.—The views of Gen. Scott are asked on many questions suggested, and gives instructions how to operate with the disaffected Mexican States.

Several other intercepted letters are given. Santa Anna reviewed the troops under Alvarez on the 6th. They have not all arrived, but were expected to reach 8000 in a few days.

The Vice Governor, Ojajca, had resigned. False alarms continued at Tampico. A party of Dragoons had gone 40 miles into the interior without finding any armed Mexicans, and the people appeared to be friendly.

There was nothing new at the Brazos. General Almonte was still in prison; there is no confirmation of the rumor that he had been condemned to be shot.

The department of Chihuahua gave its vote for Santa Anna for the President. The result is not yet determined.

The Louisiana regiment at Tampico is suffering severely with sickness.

GEN. TAYLOR'S ARMY.

The New Orleans Bulletin of the 18th ultimo says—

From a passenger on board the Mary Kingsland we learn that Gen. Taylor's headquarters were still at Walnut Springs, three miles from Monterey on the 1st inst. His whole force consists of about 4000 troops, of which, the larger portion are volunteers, and when all that are ordered to join him have arrived, will not have more than 6000 men—which includes all his garrisons in his rear on the line of the Rio Grande. It was understood that he would not attempt to move upon San Luis Potosi, unless he could have with him, for that object alone, at least 6000 efficient troops.

A Monterey letter in the N. O. Picayune dated June 1st, says—

Although we cannot advance upon San Luis, it is thought there may be some skirmishing on the road from here to Camargo. Urrea having again plucked up courage, became tired of mastery in activity, and being now at the head of a large force of hangers. It had been reported that he was at Tala, but the report was not credited; but I was yesterday informed at head quarters that positive information had been received that Urrea was at the head of 4000 cavalry this side of Victoria. It is probable that the force is over estimated.

There is a great deal of sickness here but not of a serious character, and but few deaths have taken place.

GREAT MEETING IN PHILADELPHIA.

On Monday evening last a large meeting of American Mechanics' and working men was held in the State House yard, Philadelphia, to take measures to protect the American Mechanic from the undermining effects of foreign labor.—Among others, the following resolutions were adopted:

Resolved, That a Committee of persons be appointed from the body of this meeting, whose duty it shall be to draft and prepare petitions to Congress and the Legislature of Pennsylvania, in accordance with the object of this meeting, and for obtaining the signatures of the mechanics and working-men of the city and county to said petitions, and forwarding them to Washington and Harrisburg at the next Session.

Resolved, That the emigration of paupers from Europe in such masses as they have been transferred to our shores within a few months is destructive of the morals of a free people, and tends to the subserviency of their rights and privileges, and that as freemen we should seek an antidote for the bane which may destroy us.

Resolved, That protection to the American mechanic is now needed—that our Legislature must apply the remedy, and that we will vote for no man to our State Assembly unless he pledges himself to apply an American antidote to cure effectually and radically the foreign poison.

CROPS IN NORTHERN PENNSYLVANIA.

The Wilkesbarre Advocate says:—"Passing through a portion of this valley a few days since, we were gratified with the favorable prospect presented by the growing crops. Generally they look well, and promise an abundant harvest. In the early part of the season fears were entertained, but rain seems to have timely fallen, and revived the then apparently drooping crops. There may be exceptions of here and there a field, but generally our crops promise well.—Apple and other fruit trees now give assurance that there will be an abundance of fruit."

BLAIR COUNTY.

The following resolutions were passed at the late county Meeting held in Blair county. They breathe the true spirit throughout, and will be read with interest. "IRVIN & PATTON, Protection, Reform, and One Term," is becoming the rallying cry of the People everywhere:

Resolved, That in the exercise of an inalienable right, we declare our conviction, that the true interests of the people of Pennsylvania demand the rejection of Gov. Shunk and the elevation of Gen. JAMES IRVIN to the gubernatorial chair.

Resolved, That Maj. JOS. W. PATTON, is eminently qualified for the Office of Canal Commissioner—that he is a man of unimpeachable integrity; sound judgment, energetic and faithful—and that as acquaintances and friends, we commend him to the hearty support of all who are in favor of an economical, honest and judicious management of the public works.

Resolved, That in Gen. JAMES IRVIN and JOSEPH W. PATTON the people of Pennsylvania have men of eminent worth—unquestionable capacity—faithful and devoted friends of Pennsylvania interests—men who can never be brought under the control of Southern influence, or be made acquiesce, by the force of party drill, in any extension of the area of Slavery.

Resolved, That Gen. IRVIN'S firm and able advocacy of the policy of Protection to American Industry—his active and efficient support of the Popular Tariff of 1842, and his watchful regard whilst in Congress for the interests of the Farmers, Manufacturers, Miners and laborers of our Commonwealth, should secure for him their unanimous support.

Resolved, That Francis R. Shunk has been long enough an office-holder—that the \$70,000 which he has drawn from the coffers of the State are more than his services have been worth—and that a decent regard for the proprieties of a Republican government should have induced him to retire, rather than push himself into a nomination over the shoulders of better men.

Resolved, That whilst we mourn the necessity that has called to the battle field the soldiery of our country, to wage a war with a sister Republic, we are nevertheless proud of the honor they have done the American name by their invincible courage and soldierly bearing.

Resolved, That Generals WINFIELD SCOTT and ZACHARY TAYLOR are entitled to the unqualified thanks and heart-felt gratitude of the American people, for the gallant and skillful manner in which they have led our Armies thus far through the war.

Resolved, That Gen. WINFIELD SCOTT has not only shown himself a skillful and valiant officer, but has exhibited a wisdom, prudence, and soundness of judgment at the head of our army in Mexico, which places him among the wisest and best Statesmen of the age.

Resolved, That the conduct of the Administration of James K. Polk, and the Locofocos in Congress, towards Gen. Scott and Taylor, has been reprehensible in the extreme; and that we regard with feelings of the highest satisfaction the triumphant manner in which these valiant patriots have vindicated their own reputations.

Resolved, That President Polk, by granting Santa Anna that "pass" into Mexico, to lead the Mexican Armies and prolong the war, has forfeited all claims to the confidence of the People.

Resolved, That we regard the adoption of the ONE TERM principle as essential to the pure, honest, faithful and economical administration of Government, and that we invite all who desire "a consummation so devoutly to be wished" to join with us in making a *one term* of Gov. Shunk.

GEN. JACKSON ON THE TARIFF.

WASHINGTON, April 26, 1824.

"I will ask, what is the real situation of the agriculturalist? Where has the American farmer a market for his surplus produce? Except for cotton, he has neither a home or a foreign market. Does not this clearly prove then that there is too much labor employed in agriculture? Common sense at once points out the remedy. Take from agriculture in the United States six hundred thousand men, women and children, and you will at once give a market for more breadstuffs than all Europe now furnishes us. In short, sir, we have been too long subject to the policy of British merchants. It is time that we should become a little more Americanized, and instead of feeding the paupers and laborers of England, feed our own, or else in a short time by continuing our present policy we shall be rendered paupers ourselves. It is therefore my opinion that a careful and judicious tariff is much wanted to pay our national debt, and to afford us the means of defence within ourselves on which the safety of our country depends; and last, though not least, give a proper direction to our labor, which must prove beneficial to the happiness, independence, and wealth of the community."

Ohio is a great place for Strawberries. One cultivator, near Cincinnati, has 100 pickers engaged on a patch of sixty acres, who gather 100 bushels of the delicious fruit a day

[Correspondence of the North American.]

EASTON, June 26, 1847.

Gentlemen:—The prospects of the coming grain crop are good, indeed excellent, and in some sections of this county I never saw it look better.

The prospects of IRVIN and PATTON are equally as good, and from all the advice I can receive here, next fall will tell a different tale for "Old Northampton," from what she has heretofore told. I am assured by our Whig friends that the "skies are bright." Not only are a large portion of the Locofocos dissatisfied with the nomination of Shunk, but many of them will vote openly for Irvin. Since the campaign of 1844, several of their prominent men (disgusted by the course of Mr. Polk on the Tariff,) have left the party altogether. Among them may be mentioned Dr. James Brady, who occupied a conspicuous place in their ranks. Northampton will not and cannot give more than 300 majority for Shunk. Polk had over 1100. This is the candid opinion of honest men of all parties.

Yours,

A Good Whig.

Capt. Lincoln's Charge.

The New Orleans Delta says—"The fine milk-white charger rode by this gallant officer at Buena Vista, is now here in charge of the 2d Kentucky Volunteers, who, with a delicacy and sensibility worthy of the bright fame of this distinguished regiment, have made arrangements to send this favorite horse of the lamented deceased to his distinguished and patriotic father in Boston. We are told that when Capt. Lincoln fell, he was in the rear of the Kentucky Volunteers, of whose gallantry he had just expressed a desire to be a witness. After delivering an order to the Illinois regiment, he wheeled his charger, and halting for a moment, cried out to the 2d Kentuckians, "I must see how these Kentucky boys fight." The words had scarcely escaped his lips, when he fell from his horse, pierced by a half-dozen bullets.—His horse was uninjured, and is as noble a charger as ever "snuffed the battle." He was purchased at the sale of Capt. Lincoln's effects, by that heroic woman, whose sobriquet, "Great Western," is so familiar to our readers, and who, with characteristic liberality and magnanimity, readily yielded him to the solicitation of the Kentuckians, who desired to have him sent to Gov. Lincoln."

The Louisville Journal says—"We know that Gen. Taylor condemned the Locofoco interference with the tariff for we read his condemnation of it in his own hand writing in a letter to a friend and relative."

MR. ADAMS.—John Quincy Adams is said to be in the enjoyment of excellent health since his return from Washington.

Dr. Kellers Vegetable Panacea.

For the removal and permanent cure of all diseases arising from an impure state of the Blood and habit of the body, viz: Chronic affections of the Chest, Pleurisy, Bronchitis, Catarrh, &c.—Scrophulous in all its stages, Yellow, Scald-head, Cutaneous affections of the body, face and extremities, Chronic Rheumatism, Chronic enlargements of the Ligaments and joints, White Swellings, Syphilitic Affections, Constitutional Disorders arising from debility, Mercurial and hereditary predispositions, &c.

It is now admitted by Pathologists, that no original temperament, complexion, constitution, or form of body, confers complete immunity from Hereditary diseases; that scrophulous, consumption and other affections having a similarity of origin occur in all, although observation convinces us, that individuals are more frequently the subject of these maladies than others. These diseases are a morbid condition of the whole system of nutrition—these products being but the effects of an alteration of the Blood and Secretions.—The ulcers, sores, enlarged glands, inflammations, &c., being merely attendant phenomena. The cause exists prior to the phenomena, and must be destroyed before perfect health can be established. This may be done by Dr. Keller's Vegetable Panacea, the most certain remedy for all diseases arising from an impure state of the blood and system of nutrition, ever presented to the notice of the medical world.

Prepared, corner of 3d and South streets, Philadelphia; and sold by John N. Prowell, and Jones & Simonton, Huntingdon, and by Druggists and Merchants throughout the county. Price—\$1 per bottle, large size. June 9, 1847.
