

"A Pair of Passes."

Probably no two PASSES are so famous in our history as those given by Arnold to Andre and Polk to Santa Anna.

To show how much the affinity the last has to the first, we copy both:

Arnold's Pass to Andre. Head Quarters, Robinson's House, Sept. 22d, 1780.

Permit Mr. John Anderson to pass the Guards to the White Plains, or below, if he Chooses, He being on Public Business by my Direction.

"A Whig lie!" exclaimed the Tories of the Revolution. Luckily, however, the original pass of which the above is published as a copy, was preserved, and is still in existence.

Polk's Pass to Santa Anna. The Commander of our Naval forces in the Gulf is hereby directed not to obstruct the passage of Santa Anna and Suite to Mexico, should he desire to return thither.

JAMES K. POLK, President. May 15, 1846.

"A Whig lie!" thundered some of the parasites of the Executive. It happens that President Polk, in his Message of 7th Dec. last, admits that he gave permission for Santa Anna to return. Polk's friends have been challenged in vain to prove that the above is not a true copy of the original Pass!

"To Pass the Guards to the White Plains, or below, if he Chooses," writes Arnold—"Obstruct not the Passage of Santa Anna to Mexico, should he attempt to return," says Polk.

"He being on Public Business, by my Direction," quoth Arnold—"It remains to be seen whether his return may not yet prove favorable to a PACIFIC adjustment of existing difficulties," very demurely cogitates Polk.

The rivers of American blood shed by the treasonable plots of which these PASSES are but the open sesame! with the other parallels between them, our readers can carry out at their leisure.—Wyoming Record.

Life Officers. "Federalism goes for life officers."—Carlisle Democrat.

The truth of this is illustrated, says the Pa. Telegraph, by the nomination of Gov. Shunk, who has been in office upwards of thirty years, or almost ever since he was old enough to fill one. In his support therefore the Locofocos are only acting out their principles—they go for "life officers," for pampering the old office-holder who has grown grey in sucking from the public Treasury; while the Whigs go for a new man, one term and a distribution of offices. How republican, how democratic are the principles of the Whigs, compared with the acts of their opponents, who go for "political aristocracy."

Inflammatory.

During the recent bread riots in France, some very inflammatory hand-bills were circulated. The agitators charged the scarcity upon the Government, and endeavored to turn the matter to political account. "A day of vengeance is come!" said one of the placards, "and the people should move. First seize the grain, then burn the houses of the rich, murdering those therein, if agreeable—it is better to die from murder than to die from hunger. Courage! Forward!—Huzza for pillage, for blood, for death!"

Hor Shot.—The Locofoco editors in Reading, some of them, insist that Gen. Taylor is a Locofoco; and they were to have a meeting of "Taylor Democrats" on the evening of the 3d inst. The Journal throws the following missile into their camp:

The following is an extract of a letter received a few days ago, by Mr. John Hepler, of this city, from his son, William P. Hepler, who is now, and has been serving under Gen. Taylor since the commencement of the war. Mr. Hepler, it seems, wrote to his son some months since, desiring to know positively what were the politics of Gen. Taylor.

His son says:

"You also request to know whether Gen. Taylor is a Whig or Democrat, because both parties claim him. HE IS A WHIG. I HEARD HIM SAY SO WITH MY OWN EARS TO AN OFFICER OF THE ARMY. I suppose you would like to know what I am. I am a loco to the back bone, but if old Zack runs I will have to give him a hard push, no matter who runs against him, for I think he is more fit for the White House than the one who now occupies it.

GEN. WOOL IS ALSO A WHIG—SO ARE ALL THE OFFICERS OF THE STAFF, AT LEAST ALL WHO OCCUPY ANY PROMINENT POSITION." WM. P. HEPLER.

The Hon. Edward Bradley, Congressman elect from the western District of Michigan, died at the Croton Hotel, New York, on Thursday last.

Arrival of the Hibernia.

Seventeen Days Later From Europe. Decline in Flour—Potatoe Crop promising—Excellent promise of the Harvest.

The Steamship Hibernia, arrived at Boston on the 2d inst., bringing Liverpool dates to the 20th July. A Liverpool date of the 20th states that during the last ten days the weather has been almost uninteruptedly fine, and each day strengthens the expectations entertained of an abundant harvest of grain throughout the British islands and all Europe. The heavy decline in corn was checked. Since the 12th, the market has again given way, the prospects of still receiving large supplies from the United States, and by way of the Mediterranean, added to the fine weather which prevails in all quarters, depressed the market, which presents every aspect of a downward movement. The potatoe crop is represented to be free from danger, and this fact contributed not a little to affect prices. During the last week, however, the market has become much firmer, the prices of the 12th became current, and were maintained throughout the week, and yesterday in Mark Lane a further advance of 1s. took place. The trade in Indian corn was, however, quite paralyzed, and flour in barrels was quite neglected.

The cotton market has been steady since the 10th and sales pretty large. There had been an advance of 1-8d. in prices since the 10th, and the market closed steadily at quotations.

In cured provisions a limited business had been done. Transactions in bacon are limited. Prices have receded 2 to 4d. Pork is in limited demand. American neglected, and prices, if any thing lower.

The reports from the manufacturing districts are of a satisfactory and encouraging character.

Parliament was to be prorogued on the 24th.

There is nothing of importance from Ireland.

Extraordinary Occurrence.

On Tuesday, the 27th ult., the family of Mr. George Christman, of Chesnut-hill township, Monroe county, Pa., during the thunder storm, were severely injured by a stroke of lightning, under very peculiar and almost unprecedented circumstances. Mr. Christman, his wife and a young woman residing with them were engaged in domestic avocations—Mr. Christman writing upon a table before him, and the two ladies sitting upon chairs in the room, when the subtle fluid descended the chimney, lit upon the table before Mr. Christman, severed one of its leaves, and split the chair upon which he was sitting without injuring him, except stupefying him with wonder—glanced over the body of Mrs. Christman, severely scorching her, without, however, destroying her clothing, upon which she exclaimed, "I'm burning up!"—and attacked the young lady in the same manner, but did not injure her so much as Mrs. Christman. They are all out of danger, but justly congratulated themselves upon having escaped death by providential interposition. Mrs. Christman, who had been previously long suffering from rheumatism, has been entirely cured of that disease by the severe operation she has undergone. The house was not injured.

Poisoning Americans in Mexico.

We mentioned some time since the rumor, not our own, that the Mexicans at Jalapa and elsewhere in Mexico were poisoning the milk and other products, and then selling them to the Americans. That this infamous course was attempted to kill our soldiers, there is the best evidence. We have taken some pains to gain the history of the matter, and we find it to be as follows:—[Union.]

In Mexico there grows a small bean called Pisonillo, (pronounced penonlejo,) which, when infused in milk and drank, causes a chronic disease that soon carries off its victims, they die while unconscious of the real cause.—This bean, it is said, was used in Havana, many years ago, with considerable success in destroying the English. The Mexicans use an herb called the huaco, (pronounced wha-co,) to relieve them of the poisonous effects of the pisonillo and the bite of poisonous reptiles, by chewing the weed and swallowing the extract. The extract is also used to put in the place of a bite of a poisonous reptile, and always with success. A Mexican never travels, if it can be avoided, without a small package of the huaco weed, to be provided for against accidents.—N. O. National.

Aid and Comfort.

We perceive by the late New Orleans papers, that liberal extracts continue to be copied into the Mexican papers from the Federal prints in this country. This fact is distinctly stated, and may be useful as a matter of future reference.—Carlisle Volunteer.

Certainly, but why complain that Mexican papers copy extracts "from the Federal prints in this country?" The great leader of the Federal party in this country, Mr. Polk, passed the great leader of the Federal party in Mexico, DON SANTA ANNA, into that Republic, and placed him at the head of the Mexican Army, to fight against such American Whigs as Taylor, Scott, Clay, Ringgold, and others—why, then, should not the sayings of such Federal papers as the Carlisle Volunteer be "copied into the Mexican papers" of Mexico?

The Letheon.

The Berks and Schuylkill Journal gives the following account of the amputation performed upon the person of Mr. HENRY PRINZ, of Reading, whose leg was dreadfully crushed and mangled on the railroad at Baumstown, on Saturday evening. The operation was performed on Sunday morning, by Drs. HEISTER and WHITMAN, the patient having first been put under the influence of the Letheon.

"During the operation he was entirely insensible to pain, and laughed and joked while the knife and saw were separating the quivering flesh and cutting through the bones, muscles and arteries. The leg was amputated above the knee joint, and we are told that the unfortunate man never once winced under the dreadful operation or experienced the slightest pain or disagreeable sensation. We are further assured that after the limb was bound up, and the effects of the ether had passed off, the pain was by no means severe. The system of the patient was not prostrated by the operation, and the wound is much more likely to be speedily healed, than in cases where the sufferer is doomed to feel the exquisite torture of the operation."

HEAVY RAIN.—Adams county (Miss.) was on Sunday last visited by one of the heaviest rains ever known since 1804.—So rapidly did it fall, that the whole country was soon under water. Bridges and fences were washed away, cattle were drowned, the cotton and corn torn up. The damage is said to be immense. Col. Bingham lost one of his best horses. Much valuable stock was lost. Our informant states that the rain continued for three successive days, but that the damage from the flood occurred principally on Sunday.—Gleaner.

TEN MORE REGIMENTS CALLED FOR.—It is said that the administration decided on Saturday to call out ten additional regiments, under the Act of 13th May, 1846. It has been the impression that the government had nearly exhausted the authority given to it by that Act. But a different construction has been made; so that the administration, it would seem, do not look for a speedy peace.

From the Columbus Enquirer of the 20th.—THE WAR—MORE TROOPS.—The Secretary of War, by order of the President of the United States, has made a requisition upon the Governor of Georgia for five additional companies of mounted men—to consist, each, of 1 Captain, 3 Lieutenants, 4 Sergeants, 4 Corporals, 2 Musicians, 1 Farrier and Blacksmith, and 80 Privates—aggregate 95 men—to be commanded by a Lieutenant Colonel.

"Aid and Comfort to the Enemy."

—We are decidedly opposed, says the Boston Chronotype, to Mr. Polk's sending any more Cushions (Cushing's) or Pillows to Mexico, they give too much repose to the Mexican army.

SHALL THERE BE FUNERALS ON THE SABBATH?—A distinguished clergyman of Pittsburg, proposes this question to the consideration of the religious public. It was to have been discussed on Tuesday evening, at the First Presbyterian church of that city.

When that question is decided, we suppose the next that will be proposed, will be, whether there shall be any deaths on Saturday.

A RAILROAD ACCIDENT.—The Columbia, Pa. Spy of Saturday, says: "A railroad collision occurred yesterday afternoon about four miles below Lancaster, by which two men were killed and a lady seriously injured. The men killed were passengers on a section boat bound for Pittsburg, and were accompanied by their wives."

Good.—Mexico, says the Mobile Herald and Tribune, declines treating; therefore, Gen. Scott will have to liquor—(lick her.)

We learn from the Carlisle Herald that the Cumberland Valley Railroad Company has made arrangements to lay a new track on the road between Carlisle and Harrisburg, and will commence the work without delay.

The Hon. REVERDY JOHNSON, of Baltimore, in a letter to the N. Y. Courier, avows his preference for Gen. Taylor as the Whig candidate for President.

IMIGRANTS.—There arrived at the Port of Philadelphia, during the week ending on the 7th, upwards of 800 imigrants.

WE the undersigned, citizens of Franklin township, do mutually agree to pay our equal proportion of expenses, according to the amount of Tax levied on us individually, for the purpose of employing counsel to advise us whether the act of assembly, authorizing Supervisors of this township to subscribe a certain portion of stock for the purpose of locating and making a Turnpike road from Water-street to Centre county line, be legal and constitutional. We, the undersigned, viewing the above act as being illegal and arbitrary, as it benefits but a part of the inhabitants of said township, and being unwilling to pay taxes for the benefit of the few, we do mutually agree that should we find from the advice of able counsel that we are not legally bound to pay any taxes that may be levied for making said turnpike road, to stand by and defend each other should any action be brought against either of the undersigned, for resisting the payment of said taxes, each agree to pay their proportion of expenses that may accrue on said action in proportion to the amount of taxes levied on each, always having due respect to the laws of our land in regard to the above matter.

Valuable Ore-Bank & Water-Power For Sale.

The subscriber wishes to dispose of about 300 acres of very rich Ore and Coal Lands situate on the waters of Sandy Creek, in Perry township, Jefferson county, Penn'a. The property is situate on three branches of Sandy Creek, which unite upon the premises, affording abundant power for several Furnaces, Forges, Rolling-Mills, &c., all within about one fourth of a mile of the Ore bank. The Ore is of the same kind, but of a richer quality, than is used at the Great Western works in Armstrong county. There are also on the premises abundance of Bituminous Coal, Limestone, and Sandstone. The Creek is now navigable, for Arks, &c., in time of high water, from within seven miles of the property, and could, with little expense, be made so from the premises. There is a Saw-Mill in operation on the premises. The land is all well timbered, and well timbered lands may be purchased in the immediate neighborhood at from one to two dollars per acre. This property undoubtedly affords facilities for the manufacture of Iron, possessed by few situations in Pennsylvania, and to an enterprising capitalist acquainted with the business is a location much to be desired. As this advertisement is merely intended to draw the attention of those acquainted with the iron business to the lands, the subscriber deems it unnecessary to dwell longer on the advantages possessed by this property, as those wishing to purchase will of course call and examine it. Those desirous of further particulars are invited to call on the subscriber living on the premises, or on Mr. Gaskell, Agent of the Holland Land Company, at Punxsutawney, Jefferson county.
