TRUMBELL COUNTY, OHIO, July, 1847.

July, 1847.

Am by birth a native of Centre county, in your State, and having once worked in the employ of Gen. JAMES IRVIN of that county, whom I have observed, through the medium of the public journals of the day, has been nominated on the part of the Whigs as a candidate for Governor, I might here say that nothing of a political or public nature has transpired for some time back, in your State, that has given me more pleasure than this announcement in the papers.

your Stale, that has given me more pleasure than this announcement in the papers.

It may be that any thing I may say will not influence one vote in favor of Gen. Irvir, just inasmuch as he has befriended me, as well as other poor persons, in years past and gone, I cannot withhold my feeble efforts towards upholding and vindicating his most meritorious character, I have been acquainted with Gen. Irvir from my infancy up. I knew him in private life, long ere he was called on by his fellow-citizens to accept an office at their hands—at a time when no political claims or influences could be brought to bear on any of his charitable and philanthropic acts, many of which were personally known to me. I have known him to take several orphans into his family, and raise them as his own children, (for he never had any of his own) and when they became of age, and sometimes sconer, would assist them in settling down in useful occupations for themselves, as a parent would do for his own children. These, and many acts of a similar nature, are well known to those personally acquainted with him—acts which not only bespeak a sound head and pure heart, but acts which are well worthy of imitation by every good citizen in the land, as exemplifying the christian in the most enlarged sense of the word.

I well remember when Mr. I rvin was residing at Onkhall, Mills, in Contra

christian in the most enlarged sense of the word.

I well remember when Mr. IRVIN was residing at Oakhall Mills, in Centre county, engaged in agricultural pursuits, that he was so universally popular in his own neighborhood, that if any of his neighbors had disputes to settle, they in many cases chose him as an umpire. And in many cases, no doubt, he used his influence in settling disputes, which if they had entered into law-suits, would have involved the parties in difficulties which night have destroyed the peace of many families and created a turmoil and discord among neighbors.—In short, so universally was he admired as an honest and upright man, that it was not uncommon to hear persons say that they WOULD RATHER HAVE JAMES IR. VIN'S WORD THAN MANY A MAN'S NOTE.

A few years since, when Gen. Irvin

WOULD RATHER HAVE JAMES IR. VIN'S WORD THAN MANYA MAN'S NOTE.

A few years since, when Gen. Irvin was a candidate for Congress, some persons who were opposed to him in politics, propogated the story that he was going to have every Democratic hand turned off from his works that would not vote for him, and that he had told some of them this. But the base slander, so far from operating against him, only redounded in his favor, as many democrats who were working for him at the time, came out openly and said, that they could not nor would not stick to a party that would use such base means to gain their end, and I believe that some of them had their names appended to a certificate and published in some of the neighboring papers utterly denying that any overtures or threats of the kind had ever been made either by Mr. Irvin or any of his clerks or managers, and that henceforth they were going to support him at the polls; and the result was as you remember, that he was elected to Congress from that district, being I think the first whig that had been elected from that district for years. His course while there you and your readers are probably better acquainted with than the writer, not having resided in your State for several years. It is true Gen. Invin was not educated a lawyer, and thereby become accustoned to public

Inviv. for years, and who was formerly in his employ as a laborer. It is a most triumphant vindication of the General's character against the slanderous charges of the Locofco papers as a "wealthy iron-master," the WORKING-MAN'S FRIEND, and is regarded as such by all who know him. He has been represented by the Locofco papers as a "wealthy iron-master," who "dispiess and oppriesses the poor," &c. Messrs. Robinson, Collins & Co:—Sirs: This is to inform you that I was afflicted for 20 years with a violent pain in my breast, so much so that I could hardly lay in bed at night. Cough attended, followed by emaciation and other decided symptoms of consumption. I applied to several eminent physicians, and took a great deal of medicine without any relief whatever. I was advised to try Dr. Davie's Compound Syrup of Wild Cherry and Tar, of which I took two bottles, which entirely relieved me of my complaint; therefore I can withconfidence recommend it to all who are in a like men.er willieted, as a most valuable Medicine.

Important to Stove Bealers.

THE attention of Stove Dealers in this place is invited to our assortment of Cooking, Parlor, Hall and office Stoves, and especially to Attwood's Empire Mot Air Cooking Stove,

As the bestcooking apparatus ever invented, it having obtained a celebrity, wherever it has been introduced, never before attained by any Cooking Stove. The operation of baking being performed in this stove by hot Air, instead of heat radiated from the oven plates, renders it equal for baking to a Brick Oven, or to the Tin oven for roasting; making it unnecessary to turn or change the article while cooking, and removing all liability to burn. We are desirous to have the Stove introduced in this market, and to that end, liberal terms will be given to a responsible dealer, willing to take hold of them, and only one will be permitted to sell them in the place.

The in now admitted by Pathologists, that no original temperament, complexion, constitution, or form of body, confers complete immunity from Hereditary diseases; that scrofuls, consumption and other affections having a similarity of origin occur in all: although observation convinces us, that individuals and families, possessing certain characteristics are more frequently the subject of these maladies than others. These diseases are a morbid condition of the whole system of nutrition—these products being but the effects of an alteration of the Blood and Secretions,—the ulcers, abuses, enlarged glauds, inflamations, c., being merely attendant phenomena. The cause exists prior to the phenomena, and must be destroyed before perfect health can be established.
