No More TERRITORY .- The Richmond Whig concludes an earnest article upon the subject of the Wilmot Proviso, and the danger it threatens to the stability

ine aanger it threatens to the stability of the Union, with this admonition : "It is for every lover of the Union--for every friend of his country--for ev-ery true born American, to resist the introduction of more territory into the Union. Let him make up his mind to stand by the Union, and to submit to receive no gift which will bring its con-tinuance into danger. Like the trojan horse, this fatal gift of Mexican territo-ry is fraught with danger and death like the unweary Trojan's, let us not break down the walls and admit it into the citadel. Let us repel it, and those who offer it to us. Then and then only can be safe : then and then only will we have done our duty to the Union, to ourselves and to mankind in general, whose hopes are wrapped up in the suc-cess of our great experiment." The HOFRORS OF WAR.--It would seem

Cess of our great experiment. THE HORRORS OF WAR.—It would seem that our men in Mexico are suffering dreadfully from the effects of the cli-mate of that country. As an instance of this, the Louisiana regiment, which is stationed at Tampico, under the com-mand of Col. De Russey, left their homes a few months ago one thousand strong ; and of this number not more than two hundred apneared on parade on the 16th and of this number not more than two hundred appeared on parade on the 16th of August. Hundreds have died, and hundreds are now languishing in the Hospitals. Our soldiers have more rea-son to fear the climate of the country than the steel or bullets of the enemy.

FROM YUCATAN.

The following letter gives some facts that we have not before seen, though news promptly reached here of the in-surrection in Yucatan.

Surrection in Yucatan. [Correspondence of the Picayune.] VERA CRUZ, AUG. 27, 1847. Gentlemen—On Sunday last the city was startled with intelligence from Yu-catan that the whole Indian population of that State had risen against the whites, and in some districts massacred entirely the white population, with the exception of the women, whom they only spared for a fate still worse than death.

exception of the women, whom they only spared for a fate still worse than death. The news was received here by the French consul in a communication from the French Consul at Campeachy, and the massacre he says was universal, no distinction being made except between Indians and whites. In some of the districts the whites have succeeded in reaching the cities and were there wait-ing succor. There is good reason to hope these will be able to defend them-selves until they are reinforced. At Campeachy they were in expectation of an immediate attack. The French brigs of war La Perouse and La Pilate have, it is understood, both been ordered to Campeachy, and there is a report that Com. Perry is about ordering down one of the vessels of our sqadron. There is, perhaps, some exaggeration in the accounts of the extent of the massacre, but of the main facts there is not a doubt. The Indians in Yucatan have been more oppressed than in any holders are generally absentees residing in Spain, and trust the management of their extates to stewards, who, to sub-serve their own interests, grind the un-fortunate Peon to the dus. An express arrived here on Tuesday from Alvarado to Com. Perry, with in-formation that the Guerillas had attack-ed that place the night before, and kill ed a surgeon and two marines in that town. The steamers Petrita and Scor-pienforce those in possession of the place. I refer you to the paper for the local news. D. S.

VICTORY ! VICTORY !

GLORIOUS NEWS FROM MEXICO MEXICAN OVERTURES FOR PEACE !

Americans Surrounding the City! By special express from New Orleans by special express from New Orleans the Philadelphia papers have received the N. O. papers of the 3d inst. contain-ing the following highly important news from Gen. Scott's army, brought by the steamship Fashion, which left Vera

Cruz on the 27th ultimo. [From the N. O. Times.] THE CITY OF MEXICO IN OUR POWER— BATTLE OF SAN ANGEL.—The sum of the intelligence brought by the Fashion, is of the most pleasing, as it is of the most important nature, since it announces an-other victory that has crowned the American arms—a victory that will, in all probability, be most blessed in its re-sults, bringing about a peace between the two hostile republics. It appears that the march of our army under Gen. Scott from Puebla, to within eight or nine miles of the capital, was uninter-rupted by any resistance on the part of the enemy. At El Penon—a position fortified by Santa Anna—the two hostile forces first came into collision, where, according to *El Sol de Anahuac*, a di-vision of the American Army made an onset on the enemy, the main body pas-sing through Guadaloupe, and, to the surprise of the Mexicans, appearing suddenly in their rear. A regular fight then ensued at a place called San Angel, situated at about six or eight miles Southwest of the capital; the result of which was that Gen. Valen-cia's division of the Mexican army was totally routed, when Santa Anna fell back with the remainder of his troops on the city. Here the greatest conster-nation prevailed, and, as the only means to stop the victorious career of the American arms, it was decided to solicit from Gen. Scott a suspension of arms. A flag of truce was dispatched to the famerican head quarters, for this pur-pose, with the view of giving time for the opening of negotiations for the re-newal of pacific relations. The Mexican Government intimated to Gen. Scott that it was ready to treat for peace on the propositions brought by Mr. Trist. Thus, at the eleventh hour, has the stub-bornness of our hither to intractable neighbor given way, and the best hopes may be entertained that we are on the eve of sheathing the sword, a consum-mation heartily to be desired by every friend of humanity. The American Commander-in-Chief at once

In regard to the train under Maj. Lally, In regard to the train under Maj. Lally, the intelligence is favorable. We are informed, from a very responsible source, that he is known to have passed Perote and been on his way in safety to Puebla.

Harmonious Democracy

The one term wing of the Locofoco party of Perry county, held a Taylor meeting in Bloomfield, on the 9th inst., and nominated a second Locofoco ticket. This movement has produced great con-fusion among the regular Locos, who cling to the waning fortunes of Polk, Shunk and Jesse Miller.

A LESSON FOR THE WHIGS .- The whigs of Rhode Island have permitted the Locofocos to elect a member of Congress! Had they stuck to their ticket, and avoided quarreling among themselves, this misfortune would have been prevented. After a ticket is settled, it is the duty of all who profess to be governed by *principle* to support and vote it. We hope the Whigs in other parts of the Union will profit by this Rhode Island misfortune.

A FAILURE .- The Reading Journal says there were just 322 men, all told, at the recent Locofoco Harvest Home in Berks county, most of whom were office holders, including the Governor and Heads of Department. The balance were office seekers !

The Harmonious Democracy.

The Harmonious Democracy. "War to the Knife' between the Shunkites and 'One Termers." The 'Muncy Luminary' gives rather an amusing description of the Lycoming County Locofoco County Convention, which met at Williamsport last week, which furnishes another evidence of the 'union and harmony' existing in the Lo-cofoco ranks, and the 'enthusiasm' that prevails in favor of 'old Shunk.' The Convention, it appears, commenced with a row, and resulted in a regular 'knock down and drag out fight,' with 'ground and lofty tumbling by the whole company,' and afforded considerable amuse ment to a large number of good-natured Whigs who had been attracted to the house to witness the sport. The first speaker who addressed the meeting was a little 'balmy,' as the saying is, and his remarks were as scorching to the Shunkites as they were amusing to the Whigs. He pitched into 'old Hunkerism' like a isand of bricks, declaring that 'Shunk the was a d-n-d rascal, and IRVIN would de-feat him !' This alarmed the Shunkites, and they called for another orator, who made his appearance, but the first speaker was determined not to yield the floor. The scene that now ensued beggars all description. Both orators took off their coats and went on, as the Luminary says, 'like two mad bulls'-first one speaking, and then the other—all the while the house in a perfect storm of shouts, laughter, noise and confusion, worse confounded-until finally one of them struck some one in the crowd, a A GENERAL MELEE ENSUED. T This is a faint picture of scenes which Loco-foco meetings constantly exhibit. If those speeches could only be reported verbatim it would be a rich specimen of Locofoco oratory.

CHANGING THE TUNE .- The Pennsylvanian with other Locofoco papers of the country attributed the high price of Now, provisions to the Tariff of 1846. however, the Pennsylvanian alters its and thus predicts a farther fall in tune breadstuffs:

breadstuffs: "The summing up of the whole mat-ter is, then, that the crops of the pres-ent year in wheat, will, at all events, equal those of 1846, and the price of breadstuffs cannot, with such facts sta-ring us in the face, added to their de-pression abroad, fail to fall still lower than they now are."

pression abroad, fail to fall still lower than they now are." CURIOUS WILL.—The following is an extract from the will of a gentleman of Philadelphia, lately deceased. His wife, children and mother-in-law had conspi-red together to ruin his reputation: "Whereas, my daughter refused me a night's lodging in her house when I had no place of abode, I therefore leave her one cent, and to her henpecked hus-band, half a cent, as a man who allows his wife to insult her father in his pres-ence, is ao man. To my other children I recommend a perusal of the fifth com-mandment. To my mother-in-law I be-queath six cents, provided she buys therewith a rope to hang herself, for hav-ing swindled the Elect out of a gold watch she wears, under a pretence of benevolence and Christian conduct and behaviour."

behaviour." A JUVENILE ARONAUT.—The Cincin-nati Commercial tells of a novel balloon adventure that happened in that city during the storm on Tuesday last. A little girl was seated upon the top of a hay wagon holding an umbrella over her head; the sudden gust which came up carried her entirely clear of the wagon, through the air to the sidewalk, upon which she alighted safely. The um-brella served of course as a parachute, and she clung stoutly to it.

So much for electing a Whig Canal Commissioner. (OSTIVENESS, headache, giddiness, pain in the side and breast, nauses and sickness, varia-be appeite, yellow or swarthy complexion, &c., are the usual symptoms of a disordered liver. Wright's Indian Vegetable Pills are certain to re-move the above complaints, because they remove from the body those morbid humors which are the cause not only of all disorders of the liver, but of every ma'ady incident to man. A sing e 25 cent box will in all cases give telief, and perseverance according to directions, will most assuredly drive every particle of disease from the body. *O'T Beware of singur conted counterfeils...CO* The only original and genuine Indian Vrgeta-ble Pills have the signature of William Wright written with a pen on the top label of each box.
