

THE CHOLERA.

This fearful pestilence is certainly marching on with a steady pace. Its pathway is strewn with victims! Thousands and tens of thousands have fallen, and there are yet countless multitudes among the doomed.

At Charkey 53 persons had been carried off and on September 15 there were 688 sick at Kursk. At Worenesch, a town with a population of 44,000, the cholera broke out on the 4th of September, and 420 new cases and 150 deaths had occurred daily.

Account Current with Mexico.

It seems that our government intends to deal in the true mercantile spirit with Mexico, and to open with her a regular account current, in which each battle which we gain is charged against her, and she is to be credited with every piece of territory which we seize.

In thus reducing the war to a dollars and cents business, we descend from the elevated position, first assumed, of combating for justice and honor, and exhibit a huckstering disposition disgraceful to a great and powerful nation.

The conquest and annexation of Mexico, whatever coloring we may attempt to give to the act, will be considered by the civilized world as equal in atrocity to the seizure and partition of Poland, and will affix a stigma to our country which ages will not be able to efface.

AMERICAN TEA.

We learn by a communication in the "Washington Union," that the Hon. Jas. Buchanan, Secretary of State, has recently received a package of tea, grown in Brazil, from our consul at St. Catharine's.

WORKINGMEN SHOULD STUDY POLITICS.

I respectfully counsel those whom I address, (the workingmen of America,) I counsel you to labor for a clear understanding of the subjects which agitate the community—to make them your study, instead of wasting your leisure in vague passionate talk about them.

Military Contributions in Mexico.

The Secretary of the Treasury under the sanction of the President has issued an order that the export duty exacted before the war by the Government of Mexico be now collected at the port of exportation, by the same officers of the army or navy of the United States in the Mexican ports in our possession who are authorized to collect the import duties; abolishing however, the prohibition of export established in certain cases by the Mexican Government, as also all interior transit duties; dispensing also with the necessity of any certificate of having paid any duty to the Mexican Government.

The export duty is then as follows: on Gold, coined or wrought, 3 per cent. Silver, coined or wrought, 6 per cent. Silver wrought, with or without certificate of having paid any duty to the Mexican Government, 7 per cent.

Silver refined or pure, wrought or in ingots, with or without certificate of having paid the Mexican Government duty, 7 per cent.

Gold unwrought, or in a state of ore, or dust, 7 per cent.

Where gold or silver, in any form is taken from any interior Mexican city in our military possession, the export duty must be paid there, to the officer of the United States commanding; and his certificate of such payment must be produced at the Mexican port of exportation, otherwise a double duty will be collected upon the arrival of such gold or silver at the Mexican port of exportation.

GREAT FIRE IN IOWA.—The Western mail brings lamentable intelligence from Iowa. A fire in the prairies has swept over the greater part of Washington county, carrying devastation in its track.

A man has been arrested at Dillerville, Lancaster county, Pa., on suspicion of being the murderer of Roberts, in New Jersey. It is reported that he has made a confession.

A Mr. Goodman, a citizen of Tennessee, has made application to the Legislature of that State, for permission to sell groceries and liquors without license, giving as a reason that he is the father of twenty-two children, all of whom are living! His wife has reason to be proud of her "gude mon."

Dr. Keeler's Vegetable Panacea.

For the removal and permanent cure of all diseases arising from an impure state of the Blood and habit of the body, viz: Chronic affections of the Chest, Pleurisy, Bronchitis, Catarrh, &c.—Scrofula in all its stages, Tetter, Scald-head, Cutaneous affections of the body, face and extremities. Chronic Rheumatism, Chronic enlargements of the ligaments and joints, White Swellings, Syphilitic Affections, Constitutional disorders arising from debility, Mercurial and hereditary predispositions, &c. It is now admitted by Pathologists, that no original temperament, complexion, constitution, or form of body, confers complete immunity from Hereditary diseases; that scrofula, consumption and other affections having a similarity of origin occur in all; although observation convinces us, that individuals and families, possessing certain characteristics are more frequently the subject of these maladies than others. These diseases are a morbid condition of the whole system of nutrition—these products being but the effects of an alteration of the Blood and secretions,—the uterus, severely enlarged glands, inflammation, &c., being merely attendant phenomena. The cause exists prior to the phenomena, and must be destroyed before perfect health can be established. This may be done by Dr. Keeler's Vegetable Panacea, the most certain remedy for all diseases arising from an impure state of the blood and system of nutrition, ever presented to the notice of the afflicted.

Prepared corner of 3d and South streets, Philadelphia; and sold by John N. Prowell, and Jones & Imonton, Huntingdon, and by Druggists and Merchants throughout the county. Price—\$1 per bottle, large size, June 9, 847.
