

STATESBURG, (S. C.) Dec. 12, 1847.

My DEAR SIR: In compliance with your request and in conformity with my promise, I have determined to give you very briefly my views on the all-engrossing topic of the day, I was detained later than I expected to be in Columbia, and have only this moment seen the President's Message and the Report of the Secretary of War, and am surprised to perceive that they persist in recommending a course of policy which will lead to still further useless expenditure of blood and treasure, and will finally have to be abandoned. With the reasoning on the subject of the acquisition of territory I have nothing to do, especially as the President seems to think Congress pledged to these conquests. I can only express my regret and my firm conviction that these territorial acquisitions will not add to our strength or prosperity.

The recommendation that most seriously alarms me is contained in the paragraph where the President says there can be no doubt that there exists a peace party in Mexico, and that it may become expedient for our commanding generals to give assurances of protection to such a party; in short, to create a party, make peace with it, and guarantee it in the possession of power. Nothing can be more chimerical—nothing could be more insecure than the execution of such a project, were it practicable.—Such a party would bear no proportion to the nation, and the members of it would require to be protected from public indignation and vengeance for long years to come, by a force not less formidable than that now in the country, without the chance of any indemnity, or the power of levying contributions of any sort.

If the peace government should agree to pay and subsidize their protectors, they must, from the nature of things, fail to do either. Pray, save us the disgrace of attempting such an intervention. The attempt might lead to an intervention of a different sort, that would possibly prove more successful. The President is apprehensive of foreign interference, first in California, and next in the establishment of a monarchy in Mexico. There is not the slightest risk of the former, and if the Mexican people are left to themselves, no chance of the latter. They were so entirely republican in 1822 that I did not hesitate confidently to foretell the downfall of Iturbide. They are much more so now; and no scheme of that sort could have even momentary success, unless the leaders considered it as the only chance of opposing us.—There exists a strong monarchical party, strong in wealth and station; the priests the former aristocracy, and the adherents of Spain. We may drive the numbers under their banners. Still the President is wrong: our armed intervention might bring on us a powerful foreign foe, but could not prevent the evil; whereas, if we hold back, my life for it, a monarchy would not exist in Mexico three years, with fifty thousand foreign bayonets to sustain it. The people are republican.

The President says he is convinced that the best means of bringing the war to an honorable close will be to prosecute it with increased energy and power in the vital parts of the enemy's country. Now, I am persuaded that so long as we continue to prosecute the war in the interior of Mexico, we shall have no peace with the nation, and all attempts to make peace with a faction will place us in a worse position than open war. I speak with the authority of a perfect knowledge of the nature of the country and the character of the people.

I was glad to find that the Secretary rejects the plan of overrunning the whole country, as too expensive; but I was surprised to perceive that he only estimates the number of men it would require to do this, or to maintain our present conquests, at seventy thousand men for the first, and some thirty-five or forty thousand for the second. He says nothing of the annual consumption of men during this prolonged contest. During the most favorable period of the peninsular war, carried on in a country friendly to them, the British forces lost annually sixteen per cent, one-fourth of whom died of wounds and casualties.—In Mexico we should lose at least twenty per cent, of volunteers. I remarked in the isthmus between the Caspian and Black seas that the Russian forces required to be recruited entirely in three years; that is to say, they required a renewal of one-third every year.

The conquest of that country by Russia affords us lessons we ought to profit by. The Russian forces overrun the Caucasian country, in 1796, and received the submission of the people. They conquered a peace. Well, in 1807 I passed through the heart of the country, which had been garrisoned with twenty thousand men for eleven years at a cost of between sixty and seventy thousand men, or six or seven thousand men a year. At that time it was necessary to wait the departure of a train from post to post, as it was unsafe to move with less than two pieces of artillery and a full company of infantry. This state of things continued until 1840, when the Caucasians organized a powerful opposition to their conquerors, and up to the present day have contended against them with advantage. The Caucasians

does not contain more than a million and a half of inhabitants, the Russian empire not less than sixty millions.—The Caucasians have no regular army; the Emperor six hundred thousand well-disciplined troops.

Both the President and Secretary build up a system of line defence, as it is called, which they easily overthrow, because no military man would suggest such an anomaly. They suppose a frontier can only be defended by a chain of posts bordering on the line; whereas it is best secured by strong interior defences. But I did not intend to intrude my opinion on military matters. Settle what territory you intend to claim, and tell Mexico you intend to keep it. She will bluster and protest, but never attack you. Her leaders will have too much at stake to venture so far from the capital. She will have no means to equip armies and maintain them by long marches and distant campaigns; and I hazard nothing in saying that two or three strong places in the interior of our line would keep them in check for half a century, and in less time we might buy a title, if thought necessary. By adopting this plan peace would come at last with present indemnity, and instead of raising thirty thousand men, you would have troops enough to keep peaceable possession of our new territory, and might dismiss the volunteer force.

To succeed in levying the military contributions the President speaks of, and provisioning the army by force, the troops must be very much increased.—It requires a very large force to procure supplies without paying for them. They can only be gathered by formidable detachments and our army never has been and never will be sufficiently numerous to enable the commanding General to separate so many men from the main body.

I have given you my opinions very hurriedly, for it appears to me there is little time to lose in settling the course to be pursued. We can at this period withdraw our forces without dishonor; nay, the act would elevate us in the estimation of the world. The slightest reverse—a threat of foreign intervention—might render such an act difficult; if not impracticable. Before our troops evacuate the Mexican territory that people ought to be told what we intend to do. It is barely possible that they might be disposed to peace upon witnessing such a movement.

With regard to the details of the defence of the line—not the line defence—they can be determined very easily and I think we might be certain of remaining unmolested for twenty years, and for ever, with such precautions as might be taken at little cost.

With great respect and regard, I am, my dear sir, yours, truly,
J. R. POINSETT.

DR. LE ROY'S

Vegetable Universal Pills,

The only known Medicine that at the same time purges, purifies and strengthens the system.
LONDON, July 7, 1846.

DR. LE ROY'S Pills are a new medicine which has just appeared, and is fast taking the place of all others of the same class. These pills are composed of many ingredients, but the two principal ones are Sarsaparilla and Wild Cherry, so united that they act together; the one, through its admixture with other substances, purifying and purging, while the other is strengthening the system. Thus these pills are at the same time tonic and aperient; a desideratum long and eagerly sought for by medical men, but never before discovered. In other words they do the work of two medicines, and do it much better than any two we know of; for they remove nothing from the system but the impurities; so that while they purge they strengthen; and hence they cause no debilitation, and are followed by no reaction. Dr. Le Roy's pills have a wonderful influence on the blood; they not only purify without weakening it, but they remove all noxious particles from the chyle before it is converted into fluid, and thus make impure blood an utter impossibility. As there is no debilitation, so there is no nausea or sickness attending the operations of this most excellent of medicines which never strains or tortures the digestive functions, but causes them to work in a perfectly natural manner; and hence persons taking them do not become pale and emaciated, but the contrary; for while it is the property of the Sarsaparilla, united as it is with other ingredients, to remove all that is foreign and impure, it is equally the property of the Wild Cherry to retain all that is natural and sound; and hence a robust state of health is the certain result of their united operations.

Messrs. Robinson, Collins & Co.—Sirs: This is to inform you that I was afflicted for 20 years with a violent pain in my breast, so much so that I could hardly lay in bed at night. Cough attended, followed by emaciation and other decided symptoms of consumption. I applied to several eminent physicians, and took a great deal of medicine without any relief whatever. I was advised to try Dr. Davis's Compound Syrup of Wild Cherry and Tar, of which I took two bottles, which entirely relieved me of my complaint; therefore I can with confidence recommend it to all who are in a like manner afflicted, as a most valuable Medicine.

HUNT'S LINIMENT.

HAS now given abundant evidence of its healing powers, and proved itself the most extraordinary and wonderful medicine in the world.—In the short space of two years, it has acquired a reputation for curing disease and relieving pain far greater than any medicine ever discovered. Its wonderful cures have astonished the Medical Faculty, who now universally concede its great value. They speak of it in the highest terms, and commend its use.

It is condemned by none. On the contrary, its praise is universal. The cases of cures are so numerous that it would take volumes to recount them; and it is a fixed fact, and is not disputed, that as a Pain Extractor it has no equal. For the many astonishing cures, see the pamphlet, to be had of each agent. If you suffer with either of the diseases for which it is recommended, resort at once to its use and be cured. For the following diseases it is an infallible remedy:
Spinal affections, Rheumatism, Paralysis and all Nervous affections, Salt Rheum, Croup or Hives, Ague in the Breast and Face, Weakness of the Joints, Colds, Toothache, Sore Throat and Quinsy, Ulcerated Sores, Indolent Ulcers, Burns, Frosted Feet, Corns, Bunions, Fresh Wounds, Swellings and Bruises, Scrofulous Affections, Musquito Bites, and Poisons.

This Liniment is sold by all the respectable Merchants and Druggists throughout the country, and by the Proprietors at Sing Sing, N. Y.

ITS WORKS PRAISE IT.

Burns, Scalds and all kinds of Inflamed sores cured.

TOUSEY'S UNIVERSAL OINTMENT, is the most complete Burn Antidote ever known. It instantly (and as if by Magic,) stops pains of the most desperate Burns and Scalds. For old sores, bruises, cuts and sprains &c., on man or beast, it is the best application that can be made. Thousands have tried, and thousands praise it. It is the most perfect master of pain ever discovered. All who use, recommend it. None can tell how soon some of the family will need it.

Observe each box of the genuine Ointment has the name of S. TOUSEY written on the outside label. To imitate this is forgery.
Boatmen, Livery men, Farmers, and all who use horses, will find this Ointment the very best thing they can use for collar galls, scratches, kicks, &c. &c., on their animals. Surely, every merciful man would keep his animals as free from pain as possible.—Tousey's Universal Ointment is all that is required. Try it.

Bites of Insects.—For the sting or bite of poisonous insects, Tousey's Ointment is Unrivalled. Hundreds have tried and found it good.

Piles Cured!—For the Piles, Tousey's Universal Ointment is one of the best Remedies that can be applied. All who have tried it for the Piles recommend it.

Old Sores Cured.—For old, obstinate sores, there is nothing equal to Tousey's Ointment. A person in Manlius had for a number of years, a sore leg that baffled the skill of the doctors.—Tousey's Ointment was recommended by one of the visiting physicians, (who knew its first virtues,) and two boxes produced more benefit than the patient had received from any and all previous remedies. Let all try it.

Burns and Scalds Cured.—Thousands of cases of burns and scalds, in all parts of the country, have been cured by Tousey's Universal Ointment. Certificates enough can be had to fill the whole of this sheet.

Violent Bruises Cured.—Testimonials on testimonials, in favor of Tousey's Ointment for curing bruises, have been offered the proprietors. Hundreds in Syracuse will testify to its great merits in relieving the pain of the most severe bruise. All persons should try it.

Scald Head Cured.—Sores or cases of scald head have been cured by Tousey's Ointment. Try it—it seldom fails.

Salt Rheum Cured.—Of all the remedies ever discovered for this most disagreeable complaint, Tousey's Universal Ointment is the most complete. It was never known to fail.

Chapped Hands can be Cured.—Tousey's Universal Ointment will always cure the worst cases of chapped-hands. Scores of persons will state this.

Sore Lips Cured.—For the cure of sore lips, there was never anything made equal to Tousey's Ointment. It is sure cure for them. Try it.

It is a scientific compound, warranted not to contain any preparation of Mercury.

Price 25 cents per box. For further particulars concerning this really valuable Ointment, the public are referred to pamphlets to be had gratis, of respectable Druggists and Merchants throughout the United States.

CLICKENER'S SUGAR-COATED PILLS,

The Only Effectual Purgative, cured within the last year
OVER 200,000 PERSONS

of the following Complaints:
Headache, Giddiness, Rheumatism, Piles, Dyspepsia, Scoury, Small pox, Jaundice, Pains in the Back, Inward Weakness, Palpitation of the Heart, Rising in the Throat, Dropsy, Asthma, Fever of all kinds, Female Complaints, Measles, Salt Rheum, Heartburn, Worms, Cholera Morbus, Coughs, Quinsy, Whooping Cough, Consumption, Fits, Liver Complaint, Erysipelas, Deafness, Itchings of the Skin, Gout, Gravel, Nervous Complaints, and a variety of other diseases arising from impurities of the blood, and obstructions in the organs of digestion.

Experience has proved that nearly every disease originates from Impurities of the Blood or Derangement of the Digestive Organs; and to secure Health, we must remove those Impurities and restore the blood to its natural state. Therefore, when the slightest derangement of the system is indicated by Costiveness, or any other sign, it admonishes us that superfluities are gathering in the System, which should be immediately removed by an effectual purgative. This fact, as stated, is universally known; but people have such an aversion to medicine, that unless the case is urgent, they prefer the disease to the cure, generally. Since the invention, however, of

Clickener's Vegetable Purgative Pills, this objection does not exist, as they are completely enveloped with a coating of pure white sugar (as distinct from the internal ingredients as a nut shell from the kernel) have no taste of medicine, and are as easily swallowed as bits of candy.—Moreover they neither nauseate or gripe in the slightest degree. They operate equally on all the diseased parts of the system, instead of confining themselves to, and racking any particular region. Thus, for example, if the Liver be affected, one ingredient will operate on that particular organ, and by cleansing it of that excess of Bile it is constantly discharging into the stomach, restore it to its natural state. Another will operate on the

Blood, and remove those impurities which have already entered into its circulation; while a third will effectually expel from the system whatever impurities may have been discharged into the stomach; and hence they

Strike at the Root of Disease,

Remove all In pure Humors; open the pores externally and internally; promote the Insensible Perspiration, obviate Flatulency, Headache, &c., separate all foreign and obnoxious particles from the chyle, secure a free and healthy action to the Heart, Lungs, and Liver, and thereby restore health even when all other means have failed.

The entire truth of the above can be ascertained by the trial of a single box; and their virtues are so positive and certain in restoring Health, that the proprietor binds himself to return the money paid for them in all cases where they do not give universal satisfaction.

ASTONISHING CURES.

Wm. BOND, the celebrated Boston cracker baker, 98 Nassau street, Brooklyn, states that his wife has been afflicted with Asthma for 30 years, and could not find permanent relief from the best medical advice which New York and Brooklyn could produce, was induced to try this great remedy. She is now nearly well. His daughter, who was suffering from the same disease, tried it, and was also cured by it. Mrs. Bond is now so well that she is able to rise from her bed early in the morning and attend to her usual duties through the day without any annoyance from her distressing malady.

HENRY JACKSON, 13th street, near the Catholic Cemetery, came to the store for the purpose of obtaining a bottle of the Olossonian, having been afflicted with the Asthma for more than 30 years, and was so exhausted on his arrival that he could not speak. He purchased a bottle and rode home. Four days afterward he walked from his residence to the office without fatigue, a distance of over two miles, to tell of the wonderful relief which he had experienced from using about one half of one bottle.

Consumption of the Lungs.

Mr. COMFORT, 35 White street, was so low in the month of December last, that he was given up by his physician. His friends entertained no hope of his recovery. He was persuaded to try the Olossonian, and to his surprise it has so far restored him to health that he is now able to walk about the streets.

Mrs. ATTREE, the wife of Wm. H. Attree, James Harman, Esq. and George W. Hays, Esq., can bear testimony from their own experience of the healing properties of this Great Remedy in Consumption of the Lungs.

Spitting Blood.

Mrs. THORNBURN, 352 Monroe street, who had been troubled for a great length of time by a severe cough, and raised quantities of blood, was relieved by one bottle of the Olossonian, and declares it the greatest remedy in the world.

DENNIS KELLY, 26 Water street, was also relieved from the same complaint, although he was very much reduced when he commenced taking it—having been under the care of his physician during the past winter. Although he coughed constantly and was very much troubled with night sweats, two bottles of the remedy enabled him to return to his daily work. He was entirely relieved.

DAVID HENDERSON, 60 Lighthouse street, George W. Burnet, formerly of Newark, N. J., Henry Lisbon, 199 Rivington street, and numerous other persons have been speedily and permanently cured of the same complaint by this remedy.

CURE FOR CONSUMPTION.

7,000 Cases of obstinate Pulmonary Complaints Cured in One Year!

WISTAR'S BALSAM OF WILD CHERRY.

The Great American Remedy for Lung Complaints and all affections of the Respiratory Organs.

We do not wish to trifle with the lives or health of the afflicted, and we sincerely pledge ourselves to make no assertions as to the virtues of this medicine, and to hold out no hope to suffering humanity which facts will not warrant.

We ask the attention of the candid to a few considerations.

Nature in every part of her works, has left indelible marks of adaptation and design.

The constitution of the animals and vegetables of the torrid zone, is such that they could not endure the cold of the frigid zone, and vice versa. In regard to disease and its cure, the adaptation of remedies is not less striking.

The Moss of Iceland and the Pine and Wild Cherry are justly celebrated for the cure of all diseases of the Lungs and Liver, which are so fearfully prevalent in all Northern latitudes. From a combination of Chemical Extracts procured from this Moss and those Trees DR. WISTAR'S BALSAM OF WILD CHERRY is chiefly formed.

IT CURES! Wherever Wistar's Balsam of Wild Cherry is introduced, it at once attains that high reputation which it so richly deserves.—What can prevent its sale when every hand can be witnessed its wonderful cures? The worst cases of Asthma, recent and dangerous Coughs, (and also those that are of long standing,) Bronchitis and Consumption, (in its early stages,) are always cured by this remarkable medicine.

Important to those afflicted with Diseases of the LUNGS & BREAST.

Will miracles never cease? More evidence of its surpassing health restorative virtues!

[From Dr. Baker, Springfield, Washington county, Ky.]

SPRINGFIELD, Ky., May 14, 1845.

Messrs. Sanford & Park.—I take this opportunity of informing you of a most remarkable cure performed upon me by the use of Dr. Wistar's Balsam of Wild Cherry.

In the year 1840 I was taken with an inflammation of the bowels, which I labored under for six weeks, when I gradually recovered. In the fall of 1841, I was attacked with a severe cold, which seated itself upon my lungs, and for the space of three years I was confined to my bed, I tried all kinds of medicines, and every variety of medical aid, without benefit; and thus I varied along until the winter of 1845, when I heard of Wistar's Balsam of Wild Cherry.

My friends persuaded me to give it a trial, though I had given up all hopes of recovery, and had prepared myself for the change of another world. Through their solicitations I was induced to make use of the Genuine Wistar's Balsam of Wild Cherry. The effect was truly astonishing.

After five years of affliction, pain and suffering, and after having spent four or five hundred dollars to no purpose, and the best and most respectable physicians proved unavailing, I was soon restored to entire health by the blessing of God and the use of Dr. Wistar's Balsam of Wild Cherry.

I am now enjoying good health, and such is my altered appearance, that I am no longer known when I meet my acquaintances.

I have gained rapidly in weight, and my flesh is firm and solid. I can now eat as much as any person, and my food seems to agree with me. I have eaten more during the last six months, than I had eaten in five years before.

Considering my case almost as a miracle, I deem it necessary for the good of the afflicted, and a duty I owe to the proprietors and my fellow men, (who should know where relief may be had) to make this statement public.

May the blessings of God rest upon the proprietors of so valuable a medicine as Wistar's Balsam of Wild Cherry. Yours, Respectfully,
— WM. H. BAKER.

Read the following from Dr. Jacob Hoffman, a physician of extensive practice in Huntingdon county:

Dear Sir:—I procured one bottle of Dr. Wistar's Balsam of Wild Cherry, from Thomas Read, Esq., of this place, and tried it in a case of obstinate Asthma on a child of Paul Schwebel, in which many other remedies had been tried without any relief. The balsam gave sudden relief, and in my opinion the child is effectually cured by its use.

Yours, &c.,
JACOB HOFFMAN, M. D.

BWARE OF COUNTERFEITS.

Those who counterfeit a good medicine for the purpose of adding a few dollars to their pockets, are far worse than the manufacturers of spurious coin. For while the latter only rob us of our property, the former take property, and health and life away. Dr. Wistar's Balsam of Wild Cherry is admitted by thousands of disinterested witnesses to have effected the most extraordinary cures in cases of pulmonary and athenic character, ever before recorded in the history of medicine.

The young, the beautiful, the good, all speak forth its praise. It is now the favorite medicine in the most intelligent families of our country. Such a high stand in public estimation has been achieved by its own merits alone. And so long as a discerning public are careful to get Wistar's Balsam of Wild Cherry, and refuse with scorn, counterfeits, and every other article proffered to them as substitutes, so long will cures, positive cures, cheer the fringes of many a despairing family.

The true and genuine Wistar's Balsam of Wild Cherry is sold at established agencies in all parts of the United States. Sold in Cincinnati, on the corner of Fourth and Walnut streets, by SANFORD & PARK. General Agents for the Western States, REED & SON, Huntingdon; Mrs. Mary Orr, Hollidaysburg; Morris & Nicodemus, Martinsburg.
