## ARRIVAL OF THE HIBERNIA.

ONE WEEK LATER.

NEW YORK, May 27, 1844.  
The Hibernia has arrived with intelligence one week later from Europe. The new Government has been appointed in France, with a complete triumph to the moderate portion of the Provisional Government.

An order had been received at Bologna, from Paris, to put the whole line of coast in a state of defence, and to mount guns on the detached forts, which are built a little way out at sea. The gates of the upper town are to be repaired and fortified.

There have been some bloody conflicts between the Poles and the Prussians. A jealousy exists between the Poles and Germany, and the former will not send members to the Diet.

The Pope made a speech against the war with Austria, the people rebelled, and the Pope was forced to yield.

The Pope has declared war against Austria. Further skirmishes have taken place between the Italians and the Austrians, and the Austrian Army in Italy was perilous at the last accounts.

The Danes have blockaded the German ports.

The Prussians and allied army were at Wiele. Negotiations for peace were opened at Berlin on the 4th inst., between the British Ambassador and de Meyendorf.

An insurrection has occurred at Madrid.

Portugal has issued decrees for the suspension of the slave trade.

Germany is in an agitated state. An army of 50,000 men is stationed between Hamburg and Nuremberg.

Anarchy prevails in Hungary, and the Jewish population are suffering from persecution. A rupture between Hungary and Austria is threatened.

Corn has declined.

LIVERPOOL, May 13.—The French coast has been ordered to be put in a complete state of defence, and several new regiments of troops are to be fitted out immediately.

In France a new government has been formed by the election of a President and Vice President of Chambers, with Secretaries for the different departments.

Garnier Pages, Arago, Marie, Lamarine and Ledru Rollin, were elected an Executive Committee or directors. Dupont d'Eure has declined receiving office.

The Paris papers contain a long proclamation of the Republic setting forth the principles which are to govern its future intercourse with foreign nations, its domestic policy, &c., &c.

The triumph of the moderate republicans has been complete. Louis Blanc has withdrawn from all participation in the government.

ROME—REPORTED DESPOTISM OF THE POPE.—The repugnance of the Pope to declare war against Austria, the most Catholic Country in Central Europe, has drawn upon his holiness the whole weight of popular fury. On the 2d inst. a movement was got up at Rome to compel him to declare war against the Austrians, which he long resisted. The safety of the Pope, the cardinals, and indeed the city itself, being threatened, for the mob vowed they would set fire to it, the Pope at length yielded. The Ministry was dismissed, a new popular administration formed, and the terrorists became completely triumphant.

The concessions made are, that no priests shall in future fill any public employment, war shall formerly be declared, Pope Pius IX to be the head of government, a daily bulletin of the news from the seat of war to be published, and encouragement given to volunteers amongst the Roman youth to proceed to fight against the Austrians. The Romans were brought to this pitch of indignation by the cruelties alleged to be practiced by Radetsky towards his prisoners.

IMPRISONMENT OF THE POPE.—A report prevailed in Paris, May 12, that the Pope repenting his late hostility to Austria, had revoked his late declaration of war, that in consequence, the people had risen en masse and deposed him from his temporal authority—placing him under restraint in the Castle of St. Angelo. The Journal des Debats confirms the above. It appears that Rome has regularly rebelled against him, and the probability is that his holiness will be deposed as a temporal Prince. In fact, the entire executive authority appears to be exercised by the new ministry without any control on the part of the Pontiff.

[From the London Times of May 13.]  
Some of the journals announced that the Pope had been deposed, and the Republic proclaimed at Rome but the news seems to be premature.

SPAIN—MILITARY INSURRECTION.—A military insurrection took place at Madrid on the 7th inst. at 4 o'clock in the morning, which was suppressed after a sanguinary conflict, which lasted several hours. The number of dead was not known, but it was considerably greater than in the insurrection of the 26th of March. Among the killed was the Captain General Fulgoso, brother-in-law of Maria-Christina. Thirty four of the prisoners taken—one half of them civil-

lians, the other half military men—were tried and sentenced to death by a Court Martial, and were about to be shot when the post left.

AUSTRIA AND ITALY—PROGRESS OF THE WAR.—Letters from the army of operations on the Mincio and Upper Adige, of the 2d, state that the whole right bank of the Adige, above Verona, as far as Pontone, is in the hands of Charles Albert; that the Austrians were beaten in four several places on the right bank, on the morning of the 1st, and forced to cross the river and return to Verona, with a severe loss in killed and wounded, and of 400 prisoners. The bridge of boats at Pontone has been removed, but the King is to establish a flying bridge there and attempt to gain the left bank of the river.

RUSSIA.—All the ambassadors of Russia at the German courts are preparing to take their departure. The Russian minister plenipotentiary De Starve, at Hamburg, is about to give in his resignation, after fifty years of diplomatic services.

His majesty the emperor of Russia, has prohibited, after the 14th of April, to export Russian gold and silver coin from the whole of the western boundary of the empire until further notice.

There remains but little doubt as to the intended campaign of Russia; among other preparations, the creation of a bridge of boats at the fortress Nova Gierogrosk, across the Vistula, has an evident warlike appearance, since there is no main road leading from the fortress.

BLOCKADE OF VENICE.—The London Gazette publishes an official account from Count Figuelmont in which the blockade of Venice is made known.

BLOCKADE OF GERMAN PORTS BY THE DANES.—The same Gazette contains an official despatch from the Danish minister Knuth, announcing the blockade of Stettin, Stralsund, Rostock, Wismar, Pillau, and Dantzic—the four first from the 2d of May, and the last from the 3d, the blockade of the Elbe being fixed for the 10th.

ARRIVAL OF THE STEAMSHIP UNITED STATES.

Four days later from Europe.—Attempt to overthrow the French Government—Alliance between Austria and Russia—England mediating between Holstein and Denmark.

NEW YORK, May 31.—The steamship United States arrived this morning at 6 o'clock.

The negotiations of peace between Denmark and Holstein are going on under the mediation of England, with prospects of favorable results.

The Emperor of Austria has concluded an alliance, offensive and defensive, with the Emperor of Russia.

Charles Albert has the Austrians before Verona.

Twenty-six persons engaged in the late emeute were shot in Madrid.

At Liverpool, the Cotton Market was firm without change. Corn has slightly advanced. American white 28 a 30s. Yellow 31s, 32s. per 480 lbs. Indian meal 13a 13s 6d per bbl.

There was a bold but unsuccessful attempt to put down the French government on Monday. A large number marched to the Chamber—forced the gates—dissolved the Assembly, and proclaimed a new Government, composed of Blanqui, Raspail, Hubert, Ledru Rollin, Barbes, Louis Blanc, and others.

The troops of the line were called out, and the National Guard, and the Guard Mobile placed under arms.

After much uproar and confusion, the populace became intimidated by the troops, left the Assembly, and marched to the Hotel de Ville.—Meanwhile the Assembly resumed its session, and the National guard followed to drive out the populace. The National Guards and the troops of the line maintained their allegiance to the National Assembly.

Three's last quoted were 44—fives 65. The European Times says lower qualities of American Cotton had advanced 1-8th, with fair transactions. There is an improving aspect in commercial affairs generally.

Fourteen or fifteen failures are reported in Norway and Sweden, principally at Christiania.

English Funds fluctuate according to Continental advices. On the 16th, Consols were 82 7-8 to 83 1-4.

Lord Ashburton is dead. The National states, that the difference which existed between M. Ochsenbein and the Swiss Diet, and which induced the former to tender his resignation, having been arranged, M. Ochsenbein would as formerly, preside over the Diet as President.

M. Pagnerre had been appointed secretary of the executive commission, with a deliberating vote in the council of ministers.

The Presse states that orders have been sent to Brest to complete the Breslau ship of the line, and to prepare to arm two more ships of the line and a frigate.

It is understood that M. Ledru Rollin strongly insisted on having one of his followers installed in the ministry of the interior, so that although a member of the executive commission, he should still wield the same powers over the country as before. He required that M. Flocon or Julius Fabre should be nominated to that office.

This being resisted, M. Ledru Rollin threatened to resign.

## LATER FROM MEXICO.

Arrival of a Bearer of despatches—Prospects of Peace Clouded—Herrera not elected—Pena y Pena Provisional President—Deaths by drowning—Suicide of Lieut. Brereton.

COLUMBIA, S. C. May 31  
The Overland Express of to-day brings New Orleans papers of the 26th inst.

The steamship New Orleans had arrived with Vera Cruz dates of the 22d, and from the city of Mexico to the 18th. Lieut. Conner, a bearer of despatches to the Government, is among the passengers of the New Orleans.

The prospects of peace are not so favorable as reported by previous arrivals. The opposition party is daily growing stronger, and the endeavors to create a revolution continue.

Herrera has not been elected President, but Pena y Pena has again been chosen Provisional President.

The conviction of Tilden, Dutton and Laverty for murder and burglary and their sentences to be hung, is confirmed.

Mr. Harris and Mr. Pinckney were drowned on the 15th, by the swamping of a boat while crossing the bar at Tuspan.

Lieut. Brereton, while on his way from the Rio Grande, jumped overboard from the steamship Telegraph in a fit of insanity.

IMPORTANT NEWS—THE CENTRAL RAILROAD.

PITTSBURG, May, 1848.

The election on Saturday night last resulted in favor of authorising the County Commissioners to subscribe one million of dollars to the Central Rail Road.

All doubts relative to the early completion of this great work are now at an end.

The acqueduct near Blacks Eddy, on the Delaware division of the Pennsylvania canal, was partially washed away, about noon on Sunday. It will require about two weeks to repair the damage.

A DETERMINATION OF BLOOD TO THE HEAD, as it is called, can be accounted for upon no other principle than from the presence of corrupt and stagnant humors in the venous circulation, which prevent the return of the vital fluid to the heart. When the passages are checked up, and it becomes as it were, prisoner in the head, there is a distension or swelling of the blood-vessels, a pressure upon the brain, headache, giddiness, palpitation of the heart, anxiety, and other dreadful results.

Wrights Indian Vegetable Pills are certain to prevent the above unpleasant complaints, because they expel from the circulation those humors which are the cause of all disordered motions of the blood. They also aid and improve digestion, and therefore will most assuredly give health and vigor to the body.

Beware of sugar coated counterfeits. The only original and genuine Indian Vegetable Pills have the signature of William Wright written with a pen on the top label of each box. None other is genuine and to counterfeit this is Forgery. The genuine for sale by

## The Markets.

PHILADELPHIA, June 1, 1848.

There is very little activity in the market, under the influence of the late foreign advices, and Flour is dull at \$5, 50 per bbl, which is now the uniform asking rate for Penna and Western brands. Small sales for home use at \$5 75-87 1-2, and one lot at \$6 per bbl. We notice only small sales of Corn meal amounting in all to about 1,200 bbls. at \$2.25 for Penna. There is but little demand for grain and prices are lower. Sales of about 25,000 bu Wheat during the week, closing at 117 1/8c. for good reds, and 122 1/2c for white. Rye is dull at 75c.
