

ARRIVAL OF THE HIBERNIA.

One week later from Europe.

The Steamship Hibernia from Liverpool, arrived at Boston, on Saturday the 22d instant, with dates to the 8th inst.

ENGLAND.—The parliamentary proceedings have been unimportant. Mr. Humes' motion for parliamentary reform, was rejected by a vote of 84 to 351.

IRELAND.—An express from Dublin, which left on Friday night states that the Catholic clergy of Arch Diocese of Tuam have resolved to adhere to the Conciliation Hall Repealers and to oppose the formation of a League. Martin is still at large. Devon Riley has written to the Attorney General, avowing the authorship of incendiary articles in the Irish Felon newspaper. The Irish papers are very fierce in their denunciations of the Government, and cannot fail to excite the attention of the authorities.

FRANCE.—The throes of the late commotion are rapidly subsiding. Armed men, with loaded muskets and instruments for casting bullets, have been discovered in the cellars of Paris. The destruction of property during the insurrection was less than at first supposed. Many houses were battered considerably, however, and in some sections of the city all was ruin. Order had been nearly restored. On the 29th a sentinel arrested two men in a cabriolet, with large sums of Russian gold and gun cartridges. Both were heavily armed with daggers and pistols. The insurgents used in the conflict iron balls pierced with copper projections on both sides. Gen. Changarnier has been appointed Chief of the National Guard of the department of the Seine. The legions of the Guard who were faithful during the revolt, have been disbanded. Best informed persons consider Caussidiere as one of the leaders of the late insurrection; and that Louis Blanc was privy, but not an active participator, shrinking from danger.

The organization was most perfect, as further developments of the police prove. Documents that have been found will show whence the money was obtained, and who promoted the insurrection.

The illustrious Chateaubriand died upon the 4th of July.

Several Irishmen have been transported for drilling and training openly, and in defiance of the laws.

There is nothing startling from Italy. The peace negotiations had failed. An insurrection of Galley slaves, that had broken out in Sicily, was quelled after a fearful slaughter of the combatants.

The Arch-duke John has been appointed Lieutenant General of Germany. An armistice had been concluded between Germany and Denmark.

The cholera is making terrible ravages in Russia.

Lamartine contemplates another tour to the Levant and the East.

LIVERPOOL MARKETS, July 8.—Cotton has advanced 1d on all descriptions. The demand is better, and especially for the lower grades. Upland fair brings 4½d; New Orleans 4½d; Mobile 4½. The stock on hand is 196,990 bales above the quantity on hand at the same time last year.—Corn 30s. to 30s. 6d. with a moderate demand.—Meal 13s. 3d. to 13s. 9d. Barrel Flour 27s. 6d. to 28s. duty paid. Wheat 6s. 6d. to 6s. 8d. per 70 lbs.

The present duty on Flour is 6s. per bbl., and on Wheat 10s. per quarter.

THREE DAYS LATER FROM EUROPE.

Boston, July 28.

The new Cunard steamer Europa, Captain Lott, arrived at this port this morning from Liverpool with European advices to the 15th inst.

The Republic of France.

Another alarming plot for the overthrow of the Republican Government of France has been discovered at Paris. The workmen of the Ateliers had intended to revolt, and the rising was to have taken place on the 14th inst. The time and signal was a 5 sous banquet, which was, as a matter of course merely a pretext to assemble the insurgents, and systematise their proposed movement. The Government has made itself acquainted with the entire details of the affair, and has taken rigid measures in anticipation. The entire plot was of a highly criminal character, one of their mottoes being "Pillage to the city of Paris."

Several of the intended Chiefs of the insurrection have been arrested and others are under strict surveillance.

Gen. Cavaignac has made every preparation to meet the emergency; and has by judicious energy placed the Republic beyond danger. Fifteen Prefects of nine different departments had been removed from their stations for implication in the insurrection in June.—A portion of the present government were in favor of the present government; while others, including among them, Cavaignac, firmly opposed any such harsh proceeding. All the political prisoners had been taken out of the city of Paris to detached points in the vicinity. The city was completely fortified.

IRELAND.

Important from Ireland.

The crisis is now fast approaching, and each party is preparing itself for the conflict—the Government by a rigorous censorship of the Press, the arrest of the

confederate missionaries, the employment of spies, and the augmentation of its armed resources; and the people by prodigious activity in the enrollment of clubs, the establishment of the League, the distribution of arms, the most complete fraternization of classes and boundless resolution and enthusiasm.

On Saturday night Mr. Duffy, of the Nation, was apprehended on a charge of treason and felony, and committed to Newgate, whither he was followed by Mr. Martin, of the "Felon," who had previously surrendered.

On Monday the proprietors of the "Tribune," Messrs. O'Dougherty & Williams, and Mr. Hoban, the publisher, were committed on like charge. The whole of them will be tried at the mission on the 8th prox.

Mr. Doherty was arrested in Cashel on Monday, and Mr. Meager in Waterford, on Tuesday, on charges of sedition, and will be tried at the present assizes in Tipperary and Limerick.

Mr. Meagher's apprehension caused the utmost excitement in Waterford. The chapel bells were rung; thousands of confederates assembled; and it required all the authority and influence of the gifted and chivalrous captive, aided by the catholic clergymen, to prevent the people from falling upon the military and police.

As it was, they stoned the authorities and cut off one body of troops from the other. They erected a formidable barricade, which impeded the progress of the troops, and for miles hunted and harassed the procession, but happily no lives were lost.

During the week, Messrs. Darcey, M'Gee and Honeywood, were also arrested for sedition, but the bills were thrown out by the Wicklow Grand Jury.

On Thursday, the excitement not only in Dublin, but throughout Ireland, was intense, and the note of preparation was everywhere sounded.

The flag of revolution is extended to England. The United Repealers and Chartists are rapidly organizing and arming. The Nation, notwithstanding its proclamation has appeared this morning.

On Monday the convicted Chartists in London, were sentenced each to two years imprisonment, with security for future good conduct.

The Queen's Ministers have abandoned their intention of permitting her to visit Ireland in the course of the next month.

CHILLS AND FEVER.—Wright's Indian Vegetable Pills are one of the best, if not the very best medicine in the world, for the cure of intermittent fever, because they excel all others in ridding the body of those morbid humors which are the cause, not only of all kinds of fever, but of every malady incident to man. Four or five of said Indian Vegetable Pills, taken every night on going to bed, will in a short time make a perfect cure of the most obstinate case of chills and fever; at the same time the digestive organs will be restored to a healthy tone, and the blood so completely purified that fever and ague, or disease in any form, will be absolutely impossible.

Beware of sugar coated counterfeits. The only original and genuine Indian Vegetable Pills have the signature of William Wright written with a pen on the top label of each box. None other is genuine and to counterfeits is Forgery. The genuine for sale by
