

FOREIGN NEWS.

ARRIVAL OF THE EUROPA.

Two Weeks later from Europe.
The Royal Steamship Europa, Capt. Lott, with two weeks later intelligence from Europe, arrived at Halifax on Wednesday evening at 5 o'clock.

In nearly every department of trade and commerce increasing activity prevails, and greater buoyancy and hope abound.

Cotton is still advancing slowly, but all more surely. Sales to a large extent have been going steadily forward during the last two weeks.

The grain trade has been more than usually steady the last fortnight and prices have been well supported.

From the manufacturing districts the accounts are decidedly encouraging. Owners of goods are firm in their operations and are sanguine as to a good spring trade.

The stock and money markets are unusually buoyant. Public securities and railway shares are on the advance. The demand for U. S. 6 per cent still continues at advancing rates.

Parliament was opened by the Queen in person. The speech from the throne is rather lengthy; and, for a wonder, actually possesses a meaning, apart from the jingle of words. But it does not possess much general interest. The speech places the fact beyond a doubt that the government has no idea of stultifying their past free trade documents, but are resolved steadily to carry out their principles and their final consummation.

Lord John Russell said in debate that he had formerly been in favor of a fixed duty on corn, but the House not having chosen to adopt that mode, but having chosen to set corn entirely free, I hope no attempt—above all, I hope no successful attempt—will be made at renewing any duty upon that main article of sustenance.

This settles at once all speculation upon the course of conduct likely to be adopted by the present administration.

The excitement created in Europe by the reports of the boundless riches found in California had somewhat subsided, when the news by the last packet once more aroused the spirit of enterprise, and the newspapers again teemed with notices of all kinds of shipping adventures in connection with the auriferous region. It is no longer an El Dorado, but a veritable Terra Dora. The confirmed statements of mineral wealth in the California hills now leave no doubt that an immense tide of emigration will float towards that country.

The Rt. Hon. Sir Henry Lytton Bulwer, R. B. C., recently English Ambassador in Spain, has been appointed to succeed Sir R. Packenham as British Minister in the United States.

The ravages of the cholera continue about the same as when the Niagara sailed.

Later intelligence from India has been received, but it is wholly devoid of general interest.

The Bank of England accounts do not exhibit any particular feature worthy of notice.

Money continues plentiful and first class bills have been readily discounted as low as 2 per cent.

Money at call may be said to range at about 1/2 per cent.

The pacific tone of our government—the improved condition of the public revenue, and perhaps the increasing prospects of large remittances of gold from California have tended to this result.

France.

There is very little news from the continent of importance or general interest, except as it regards France. Immediately after the sailing of the Niagara, intelligence was received from England that the breach between the Assembly and the President had widened into a fearful gulf. A real or a sham plot was disclosed to the French Ministers, and for a few days Paris again assumed the appearance of a beleaguered city.

The streets were occupied by not fewer than 80,000 men, and Gen. Changarnier plainly intimated that the first barricade that was attempted to be raised would be the signal for a general slaughter. Whether the Red Republicans were surprised or unprepared to cope with the extensive military arrangements concentrating, certain it is that Paris for a few days trembled on the verge of a new revolution, the issue of which can scarcely be doubted, as Marshal Bugeaud was despatched from Paris to bring up a strong division of the army of the Alps, ostensibly to command Bourges during the State trials, but with no less object than that of overawing the Red Republicans in Paris.

The difference between the Guard Mobile and the army of the line only added fuel to the flame, which hourly grew in intensity.

The motion for getting rid of the propositions of M. Retau to dissolve the National Assembly, was only defeated by a narrow majority of 416 over 406.

Since that vote a greater tranquility has prevailed, and once more we have to announce that the struggle passed without mortal strife; numerous arrests were, however, made.—*Pub. Ledger.*

Two Tr.—It is said that a bowl containing tax water, set in an oven, when banking, will prevent pies, bread, etc. from being corched.

California Disorders.

Those who think that the disorders in California are magnified should read the following report from a U. S. Surgeon in San Francisco, dated Dec. 25th:

"I may as well give you in a word or two a picture of the state of society among the miners. Murder and highway robbery are every day occurrences. Many and many a poor fellow is way-laid, and his life taken without its ever being known to the world. It is a common thing to hear miners say, 'we have lost such a one; we do not know what has become of him,' and bodies are frequently found in the mountains half devoured by the wolves, and not recognizable.

"Let me give you a specimen of yesterday's work with me; and it is a fair average—probably I was a little more busy than usual. In the morning I visited the fort, and afterwards my patients in town: dined at 3 P. M., loaned out \$4,490 payable in June next, and entered into arrangements with Capt. Taylor to open a trading establishment with the Indians, at a place called Stanislaus. In the evening, visited some other patients, came home at 9 P. M. and went to bed; was woke up three times during the night, to dress wounded men, in a general row that took place in the hotel where I am living. I have just returned from an inquest that was being held on a body found dead on the road to the fort. This is a common occurrence here. Rarely a day passes that some one is not killed. A whole family, ten in number, were murdered near here last week.

"The people here are taking steps to organize a government: they are neglected: there are no regular customs offices, and the receipts from customs are \$20,000 a day. There are no post office arrangements, and more letters are carried from Sacramento to this place and Monterey, than there are on one-third the mail routes in the United States. There are no courts, no laws, no protection to citizens, and there are thousands of citizens requiring protection. There is no mint, and our gold goes to Valparazo and Mazatlan for coinage, and is sold for \$14 per ounce, and 6 per cent is paid to the Mexicans and Chilenos for the privilege of coinage, &c., &c. It is a fact as certain as anything can be, that if our wise acres at Washinton delay furnishing us with a government, and allow sectional prejudices and such things as Wilnot provisos to interfere with their duties and our rights, that the predictions so often made in the United States, of a separation from the Union, will be realized.

"Every man has something to do which he neglects; every man has faults to conquer which he delays to combat.—*Johnston.*

THE MARKETS.

Philadelphia, March 2, 1849.
The market is quiet, with but limited operations, in consequence of the unfavorable weather. Further sales of Flour have been made at \$1 96 per bbl. for common brands and \$5 for good. Rye Flour and Corn Meal are inactive and without change. Wheat is steady at 108c. per bu. for good red, and 115c. for white. Sales of yellow Corn at 57 1/2 a 58c. per bu., weight, and Southern Oats at 30c. Whiskey is dull at 22 1/2c. in hds., and 24c. in bbls.

CATTLE MARKET.—The offerings of Beef Cattle this week were 1100 head, including 300 driven to New York. There was a good demand, but at rather low rates; 1000 head sold at \$6 50 a 7 50, and \$8 per 100 lbs. 280 Cows and Calves sold at \$7 a 14 for dry, \$12 a 25 for Springers, and \$18 a 33 for fresh Cows. 1000 Hogs were offered, but the sales were dull at \$5 75 a 6 50 per 100 lbs. Sales of about 3000 Sheep and Lambs at \$1 75 a 3 50 for Sheep, and \$1 25 a 2 75 for Lambs. Hay is steady at 60 a 80c. per cwt. for Timothy, and Straw at \$4 a 5 50 per 100 bbls.
