A Strange Admission. We clip the following from the Globe of last week:

THE APPROPRIATIONS.—We learn from Harrisburg that the appropriations made to pay the debts on the public works will prove to be entirely inadequate on some of the divisions.

According to the Globe, therefore, under Locofoco rule, with great professions of love for the Laboring classes constantly on their lips, they have allowed the debts on the Upper Division of the Juniata to pile up to the enormous sum of SIXTY THOUSAND DOLLARS!

"Take your county paper by all means, and do not allow the Gazette to interfere with it.—There are none of you who are not able to subscribe two dollars for a local journal and two dollars for a good city weekly, nor do we see how you can do without either.

Mr. Ely Moore, Marshall of New York, who travelled the country last fall making speeches for Cass, is said to be a defaulter to the government for the sum of TWENTY THOUSAND DOLLARS!

OUR STATE WORDS.—The Columbia Spy, in speaking of the business done upon our State works, says:

"Since the opening of our canals, the increase of business on the State railroad has been so great that many of the most powerful engines have been making two trips a day, and, in fact, we heard of one engineer, more ambitious than the rest, who attempted to run three—but his engine 'broke down' on the 'third heat.'"

Free Schools—a good Movement. The School Directors of this borough have resolved to keep the Public Schools open ten months in a year, and have levied a tax which will enable them to carry out their resolution.

Characteristics. JESSE MILLER, late Secretary of the Commonwealth, who has acquired the title of the "Joe Miller" of Pennsylvania Locofocoism—the Prophet and file leader of that party, is out in his paper—the Harrisburg Keystone—in opposition to the Law abolishing Militia Trainings!

Post Office Insolvency. In nine cases out of ten, when papers "not lifted" by those to whom they are sent, are returned to us by Postmasters, the Law is not complied with by these officers.

Canal Commissioner—Our duty. Though the time for selecting the Whig Canal Commissioner, says the Miner's Journal, is somewhat distant, a portion of the Whig Press are suggesting the names of their respective friends whom they consider suitable, for that office.

Locofoco abuse of Gen. Taylor. The Locofoco papers, notwithstanding their foul-mouthed abuse of Gen. Taylor during last fall's campaign, are now storming and ranting by the column against the old hero, because a few Locofoco party-serving Postmasters have been turned out of office.

Simon Drum's Removal. Simon Drum, who has been only fifty years Post Master at Greensburg, Westmoreland county, Pa., it seems has been suspended in office, and because he happened to have a son in the Mexican War, who died fighting the enemy, the locofoco press raised an awful howl over the removal of the father.

Sword Presentation.

The sword of honor made under direction of the Virginia Legislature for presentation, on behalf of the State, to Gen. Taylor, was delivered on Tuesday last. The Virginia deputation having been introduced to the President by Mr. Preston, Mr. Daniel, on their behalf delivered an eloquent address, to which the President replied as follows:

GENTLEMEN:—I receive, with emotions of profound respect and gratitude, the sword voted by the Legislature of the State of Virginia, which you have been deputed to present in her name.

It need hardly be said that this token of approbation and of confidence bears with it unusual interest and value. It is from the State of my extraction and nativity—a State distinguished through the American annals for the abilities, the valor and the patriotism of her children, and which yields to none in devotion to the cause of constitutional liberty. This offering of her representatives will be cherished with jealous care and handed down as a precious inheritance to our arms.

You allude to the services which have had the good fortune to elicit the approval of my countrymen. The recent campaigns in Mexico, so far as military combinations and actions of commanders are concerned, have now become matters of history; but no history can fully record the sufferings, the privations, the courage, and the constancy of the common soldiers. To the steadiness and discipline of the rank and file ably led as they were by the platoon and regimental officers, our success must be mainly ascribed. Without such officers and men, no invasion, no good fortune, could have averted disgrace from our arms.

I beg through you to convey to the able and distinguished Governor of Virginia, to the Legislature, and to the people of the State over which he worthily presides, my most sincere and heartfelt acknowledgments for the high honor I have this day received, and allow me to present to you, gentlemen, my thanks for the very handsome manner in which you have discharged the trust confided to you.

The weapon is said to be superb, and on its blade is the following inscription:

"Presented by VIRGINIA to her distinguished son, Maj. Gen. ZACHARY TAYLOR, for his gallant and good conduct at the battles of Palo Alto, Resaca de la Palma, Monterey, and Buena Vista."

"Did you present your account to the de-

partment?" inquired a lawyer of his client. "I did, your honor."

"And what did he say?"

"He told me to go to the devil."

"And what did you do then?"

"Why, then I came to you."
