\*\*Resoleed\*\*, That we have full confidence in the honesty and capacity of President FILLMORE, and congratulate the country upon having such a man to manage her destinies, at this crisis. In his past acts we have a sure guaranty and index to his future conduct. The eventful life of our Republican President is full of teaching to the rising generation, and a clear illustration of the fact that in in a Republic, virtue and intelligence alone are safe passports to honor and distinction.

\*\*Resolved\*\*, That in the selection of his Cabinet\*\*, President FILLMORE has fulfilled the expectations of his constituents. His constitutional advisers are men of tried wisdom and patriotism, and deeply imbued with Whilg principles. To their counselt he honor and welfare of the country may be committed with entire safety.

\*\*Resolved\*\*, That while we deprecate the shameful waste of time by Congress in useless debate, we are thankful that the country has been saved from greater evils, in the defeat of the so-called Compromise Bill.

\*\*Resolved\*\*, That this Government has strength enough to defend itself against domestic broils, as well as against foreign invasion and that vignity to the unreasonable demands, or intimidation account of the supercilions threats of Texas, would bring dishonor upon the Nation.

\*\*Resolved\*\*, That is the duty of Congress, without further delay, to admit California into the Union as a State, independent of all other measures.

Resolved, That it is unwise and unfair to mingle the agitating question of Slavery with all other measures which have no affinity with it. The Genius of Liberty will not permit the Demon of Bondage to keep even step with it in its onward march, nor mingle the rejoicings of Freedom with the groans of Slavery.

Resolved, That we are in favor of PROTECTION TO AMERICAN INDUSTRY, and that the wants of the country call loudly for the modifications of the present Tariff, which have been recommended by our late President, Gen. justly reward the industry of the Farmer, the Mechanic and the Manufacturer, and secure a livelification to the industrious toiling multitude throughout the country. That we have entire confidence in his Excellency Governor JOHNSTON, and that his administration is fast elevating the good old Commonwealth to the rank from which it had been degraded by a long continuance of missrale.

Resolved, That the interests of the Tax Payers of the Commonwealth to the rank from which if had been degraded by a long continuance of missrale.

Resolved, That the interests of the Tax Payers of the Commonwealth ery mightly for a change in the Canal Board, it being apparent that "Indians are about," for "moceanis tracks" are as plainly to be seen along our public works now, as they were in the palmiest days of the old Chief of the Kickapoos.

Resolved, That the course of the Locofoco candidate for Canal Commissioner, in the last Legislature, is proof that no remedy of the evil could result from his election. A man who voted to increase the pay of the Canal Commissioners, with a view of becoming a candidate for the office; and who voted to raise his own pay from \$1,50 to \$3 per day, as a member of the Legislature, would be an unsafe hand to entrust with the taxes wrung from a tax-ridden community.

Resolved, That J. Potre Brawley, the candidate for Surveyor General, is obnoxious to the charges brought against his compect, Mr. Morrison, and that he is so notoriously unworthy of the confidence of the people, that many of his own partizans, in his own county, have boldly proclaimed their opposition to him.

Resolved, That in JOSHUA DUNGAN, HEN-NY W. SNYDER, (a scion from the old stock,) and JOS, HENDERSON, the Whig candidates for the offices of Canal Commissioner, Auditor General and Surveyor General, we recognize men eminently qualitied for the discharge of the duties of the offices for which they have been nominated, and we feel assured that they will make faithful, efficient and obliging public officers.

### The Southern Protest.

The following is the protest against the pass: the bill for the admission of California into nion, presented to the Senate, by Messrs. Mas

sition which we have made to this measure, and of the reasons by which we have been governed.—Upon the pages of a journal which the Constitution requires to be kept so long as the Senate may have an existence, we desire to place the reasons, upon which we are willing to be judged by generations living and yet to come, for our opposition to a bill whose consequences may be so durable and portentous as to make it an object of deep interest to all who may come after us.

We have dissented from this bill because it gives the sanction of law, and thus imparts validity to the unauthorized action of a portion of the inhabitants of California, by which an edious discrimination is made against the property of the fifteen slaveholding States of the Union, who are thus deprived of that position of equality which the Constitutes the only sure and stable foundation on which this Union can repose.

Because the right of the slaveholding States to a common and equal enjoyment of the territory of the Union has been defeated by a system of measures which, without the authority of precedent, of law, or of the constitution, were manifesty contrived for that purpose, and which Congress must sanction and adopt should this bill become a law. In sanctioning this system of measures, this Government will admit, that the inhabitants of its territories, whether permanent or transient, whether lawfully or unlawfully occupying the same, may form a State without the previous authority of law, without even the partial security of a territorial organization formed by Congress, without any legal eensus or the representation which they may claim, and without engand the provided by law and which are necessary to ascertain the true sense of the people.

It will admit, too, that Congress having refused to provide a government, except upon the condition of this Government may, at its own discretion, since such inhabitants to meet in convention, under such rules as it or its agents may prescribe, and to form a constitution saftering not only their ow

sening even similarly eventure of its having the a sasent of a majority of the people for whom it was f designed. With a view of all these considerations the undersigned are constrained to believe that this is dovernment could never be brought to admit a State presenting itself under such circumstances, if it were not for the purpose of excluding the people of the slaveholding States from all opportunity of settling with their property in that Territory. Because to vote for a bill passed under such circumstances would be to agree to a principle which may exclude forever herafter, as it does now, the States which we represent from all enjoyment of the common territory of the Union; a principle which destroys the equal rights of their constituents, the equality of their States in the confederase, the equal dignity of those whom they represent as men and as citizens in the eye of the law, and their equal title to the protection of the Government and the Constitution.

Because all the propositions have been rejected which have been made to obtain either a recognition of the right of the slaveholding States to a common enjoyment of all the territory of the United States or to a fair division of that territory best ween the slaveholding and non-slaveholding States of the Union; every effort having failed which has been made to obtain a fair division of the territory proposed to be brought in as the State of Califorinia.

But lastly, we dissent from this bill, and so-

oroposed to be brought in as the State of Califia.

But lastly, we dissent from this bill, and semly protest against its passage, because, anctioning measures so contrary to former pretent, to obvious policy, to the spirit and intent he Constitution of the United States, for the prose of excluding the slaveholding States from retriory thus to be erected into a State, this permuent in effect declares that the exclusion lavery from the territory of the United States in object so high and important as to justify a degard, not only of all the principles of sound jucy, but also of the Constitution itself. Again his conclusion we must now and forever note.
