We are decidedly opposed to the indiscriminat puffing of the Mammoth Literary Humbugs whie are daily and weekly rolled out from the stear presses of our large cities. It is mainly devoted to family instruction and entertainment, and abounds wit well written articles and tales, designed for the advancement of morality, religion and truth.

Miln wood Academy. This institution, under the charge of the Messrs.

The Principals are gentlemen of very extensive acquirements, and high standing in society, and the success which has already attended the establishment of their Academy, is its best recommendation. We learn that the semi-annual exhibition, which took place on the 25th ult., was very largely attended, and passed of with great ceits.
The manner in which all of the students acquitted themselves was highly honorable to them, as well as creditable to the worthy gentlemen under whose themselves was highly honorable to them, as we, as creditable to the worthy gentlemen under whose ware their minds are being trained, and prepare for the important parts they will be called upon the perform upon the great stage of life.

We have official returns from thirty-one counties in the State, says the Daily News, including the city of Philadelphia, leaving thirty-one countour, which formerly formed part of Columbia, gives us an aggregate of 86,371 for Dungan Whig, and 90,579 for Morrison, Loco. This is an excedingly small rote. In 1848, when the total Whig vote of the State was 168,323, and the opposition 168,221, these counties, exclusive of Montour Yote of the state was 163,532, and the opposite of Monton which then formed a part of Columbia, gave John son, for Governor, 114,729, and Longstreth 112 664; thus showing a falling off in the Whig vo in one half the State, of 28,358; and in the Loc foco vote of 22,167. These facts fully explain the contract of the state of the s

The Fugitive Slave Law.
Anti-Slave Law meetings have been held in

iere for years, have acquired property, and are
slid to be respectable and useful citizens.

The Whigs of New York.

The breach between the different sections of our riends widens. The N. Y. Express, Albamy Regster, Buffalo Commercial, Troy Whig, and Oswego limes have taken out the Syracuse ticket from heir columns. It is said that Wm. H. Seward is o "stump the State," to use the modern expression, beginning at Albamy Hovasse made the to "stump the State," to use the modern expussion, beginning at Albany. However much the Whigs of that State may differ upon the principle of endorsing a Senator's course, we see no reason why they cannot unite in the support of a ticke that has Washington Hunt at its head.

We learn from the Hollidaysburg Register, that a widow woman, named Jenima Lewis, about 60 years of age, was found dead in her bed, at her residence in Garberstown, on Monday of last week. party, for a consideration, every means was ried to by the Globe editor, to crowd all the necratic candidates off the track—concentrate party vote upon Whittaker—and thus, by a the party vote upon Whittaker—and thus, by a rick, to have the Democracy sanction and ratify the "bargain" he had contracted! But in this he signally failed. The Democratic aspirants, "know-ing the animal" they had to deal with, proceeded cautiously. The indecent haste with which the Globe editor endeavored to drive them from the field, and the extraordinary zeal which he manifested in Whittaker's behalf, at once aroused their suspicions that there was a conspiracy on fost of which they were to be the victims! Rejecting the overtures of the Globe editor, and rebuking his didate, and was entitled to the support of the party. Here again the Globe editor was "headed," and he whined like a whipped school-boy over the frustration of his blans! But finding himself in a "tight place," he determined, "sink or swim," to frequencing of his plants! But finding himself in a "light place," he determined, "sink or swim," to adhere to his "bargain" and brave it out! Accordingly he came out boldly in his paper in opposition to Mr. Speer, repudiated the action of the "Committee of five," and appealed to the Democracy to rally upon Whittaker! But here again the Globe editor was subjected to a moritfying defeat. The Democracy, refusing to follow his lead, stood by their own candidate, Mr. Speer—and had it not been for the disorganizing efforts of the Globe, the probability is he would have been elected.

But the most ridiculous part of the whole performance, is the Globe's attempt to humbug the Democracy into the belief that Mr. Speer is a very "desperate" and had man, and that the triumph of the Whigs in this county, was the result of his (Speer's) "efforts to unite the Democracitic party!" Well now, that's rich—decidefly! What profundity of wisdom! What logical reasoning!

—"So young, so wise,
They say do ne'er live long!"

Mr. Speer, like a true party man, labored to unite the Democracy, maintain the party organization, and concentrate the party vote! Which Will They Bo!

Judging from the many amendments attached to the appropriation bills, the expenditures of the Government will reach some \$55,000,000 the present year. Now taking into consideration the fact that the Bounty Land Bill appropriates an almost unlimited quantity of land for military bounties, and thereby diminishes the revenue from the public lands to almost nothing, the receipts of the Government will not near come up to the expenditures. So that at the next session, Congress will tures. So that at the next session, Congress we have either to revise the tariff and increase t luties, or else lay a direct tax upon the people. THE LATE ELECTION. Why the Whigs were Defeated.

If it be true, that "an honest confession is good for the soul," our neighbor of the Globe doubtless begins to feel easier and breathe more freely.—
The last number of that paper contains a puerile production, of nearly two columns, which details as scheme of political trickery and treachery that should make an honest man hang his head and blush! The editor, unwittingly perhaps, shows clearly and conclusively, that all we have charged upon him is true. In undertaking to "define his position," and show "why he opposed Mr. Speer," the Democratic candidate for Sheriff, he complete ty exposes the trickery that was resorted to by him to "choke off?" Messrs. Madden, Miller, Wray, Speer, and All the Democratic candidates, in order to subserve the interests, and secure, if possible, the election of the renegade Whig to whom he had "sold out," and to whom he had promised the support of the Democratic party. The evidence of a "bargain and sale" between the Globe editor and Whittaker, is as palpably apparent asif written upon the heavens with a pencil of sunbeams. According to his own decharations he was "pledged to Capt. Whittaker," is as palpably apparent asif yarty, "bluff oft?" all the Democratic candidates, in and and any positive and final arrangement, thus exhibiting a disposition to "bolt?" from the action of his party, "bluff oft?" all the Democratic candidates," and a union of the party "in favor of John Whittaker," between him and Whittaker had been consummated early in the campaign.

Repeal! Repeal! Repeal!

The Fugitive Slave Bill passed by Congress, at the close of the late session, has created great excitement in the public mind. Instead of producing peace and quiet, it has aroused a whirlwind of popular indignation throughout the Free North, that will cease only when the foul blot shall have been wiped from the disgraced records of the Nation. Large meetings have already been held in many of our large cities and towns, and public sentiment seems to be strongly against this iniquitous law, and in favor of its speedy repeal.

In reference to this Fugitive Slave Bill, it is truly and eloquently observed by a writer, that over the length and breadth of this great confederacy of Independent States the genius of slavery flaps her sable wings, and there is no spot so sacred to freedom that the trembling fugitive from bondage may not be torn from it by the teeth of dogs or the hands of remorseless men.

The general features of the bill are well understood. It is precisely what the most rabid slaveholder and man-stealer desired. It is the foulest libel upon our vaunted "free institutions," that ever blackened the Statute Book. It smothers the sacred impulses of Christianity, and transforms the loveliest virtues into felonies. It sanctions the vilest outrages, and visits with chains and penalties the heathenish culprit who dares to obey the plainest injunctions of Holy Writ.

It provides for the appointment of Commissioners, before whom the pirate is to appear and make oath that the runaway is his "chattel," whereupon the Commissioner grants a certificate commanding the Marshal of the District to seize said cluttel and convey it to the plantation of said claimant. Only one interested witness need perjure himself for a license to enslave a freeman. The judgment of the lowest officer of the Judiciary is the first and last link in "the endless chain of technicalities," by which a citizen may be doomed to life-long Slavery.

By this simple process all the safeguards of personal liberty secured by the

we elected 14, and the Whigs only 10 members to the 23d Congress. This result is anything bu pleasant, and was brought about by the apathy o the Whigs themselves. They had seen a Co the Whigs themselves. They had seen a Congress engaged for ten months in a disreputable squabble upon matters not of political importance, while the want of Protection to their own industry was every day bringing them nearer and nearer to distress, without any attempt to procure a legislative remedy; and they became, as it were, stricken with despair, and insensible to the efforts required of them. Had the Whigs in Congress kept their eyes continually upon the subject of a reform of the Tariff, and not been led away from this practical issue, the people would have had hones, practical issue, the people would have had hopes, and their energies would have been excited to a triumphant meeting of the question. There was very little general interest felt in the question, and it was not properly understood, or its importance felt. That the people of this county are decidedly opposed to any tinkering with the Constitution, is evident from the large majority they gave against the Amendment.
