Tough Stories.
We have heard and read all manner of tough morns—of horses that took thirty-five feet a leap
—and hall stones which measured twelve inches in
liameter, and weighed we don't know how much,
But of all tough ones, we think a story recorded by
the Main Farmer rayther "takes the rag off the
cohish." It tells of a chiap down near the Aroostook
line, who took a gill of camphine in mistake for
gin, but whose life was saved by a project worthy
to every respect, of the most retined Yankee ingemuity. After the stomach pamp, and all sorts of
means of restoration had been tried in vain, the
refresher than a wick down the patient's throat,
touched a blaze to it, and burned out the camphine:
Of course the main revived immediately.

**Existo Machines appear to be "all the rage." Mr. John Taggart, of Charleston, Massi, who made a successful ascent, at Lowell, some time since, with a flying machine of his own invention, is now in New York, where he intends to make an ascent. His ascent from Jersey City, does not appear to have been so successful. He started, but handed in the "raging canawl," a few yards distant, while his balloon sailed away without him, and after performing various astonishing avolutions in the air, came down in the country, where the astounded neighbors, in looking at the carious affair with a lighted candle, went too near, setting free to the escaping gas, and nearly consuming the "flying machine." So we rather guess the New Yorkers will be disappointed for awhile.

Improvement in Daguerrectypeing!

VAN LOAN & CO., No. 118, Chesnut street, I Philiadelphia, have, by recent discoveries in their art, enabled themselves to take pictures at all times, with great certainty—as well in stormy as clean weather—which are justly pronounced by artists and seicific men, enabled. By working themselves, they not only produce pictures which are GOOD AND CHEAP! 1 but by far the best and cheapest which can be produced at any other establishment. Their charge for pictures in handsome improved cases, range from ONE DOILAR to three dollars, depending on the size of the picture, being scarcely one-half the prices charged at other establishments, for pictures of equal size—bit of inferior quality. Their Gallent or Pontants, consisting of some hundreds, embraces a collection of DISFINGUISHED AMERICANS worthy the attention of Visitors to their rooms, which are OPEN AT ALL TIMES.

The collection which they had deposited in the exhibition of the Frankin Institute, was constantly surrounded by dense crowds of admirers, who were loud in their praise of the artists' skill.

To guard against every possibility of mistace, they guarantee every picture to be of the best materials, and unless it is entirely satisfactory to the customer, NO CHARGE 18 ALDE.

TUSCARORA ACADEMY.

THIS flourishing institution is situated in Tuscarora Valley, Juniara county, Pa., eight miles south-west of Millintown, and six miles from the Perryville station on the Penn'a. Railroad.

It has been in successful operation for more than twelve years, and is believed to be equal to any Academy in the State in affording facilities to young men for acquiring a thorough academical education, either for business or for college. Being situated in a very pleasant neighborhood in the country, the pupils are removed from those temptations to idleness, dissipation and vice, which are the bane of similar institutions in town; and the whole surrounding vicinity will vie with any place in the State for healthfulness, and for the high tone of morality pervading the community.
