

have comparatively speaking, suffered but little, being built on a solid rock foundation; and we can only hear of one of Gen. Herrera's houses, occupied by Messrs. Gibbs & Co., being in a dangerous state.

The custom house has suffered little; some slight constructed outward ornaments having been demolished, and part of the roof having been carried along with it.

The consequent heavy rain, however, on the 4th inst., has damaged a number of packages, the extent of which we have not ascertained. A few houses situated on the top of the hill (Main Top), a sailors' resort, came tumbling down with a crash.

In those parts, however, spreading along the beach, the Almandrale, Calle Nueva, and others, where the ground is loose and sandy, considerable damage has been done, and above two hundred houses are unfit for habitation. More than two hundred families have been obliged to pass the first day and night in the street, partly from fear of renewed shocks, partly from the danger attending the stay in their houses.

In the course of the following day, tents and wooden houses were erected in the Plaza de Victoria, for the homeless. The captains of vessels of all nations in the port placed at the disposal of all who wanted either from necessity or fear, a refuge, and have since then received the thanks of the government for their hospitality.

Much damage has been done to stores where liquors, glassware, and other breakable materials are kept. We are happy to say, not a single life has been lost, nor can we hear of a severe fracture.

On the 4th inst., at 12 o'clock, P. M., a heavy rain set in, which lasted uninterruptedly for 12 hours, and cooled the atmosphere considerably, but destroyed still more property, pouring into the roofless houses, and compelling those who had taken refuge in the plaza, and were living in tents to seek shelter.

The loss is generally estimated, including the damage done to buildings, at one million of dollars.

The principal public buildings which have suffered are the Adonana, the churches Merced and Martz, the cartel of the national guard, the Hospital, and the Temple St. Domingo.

Commissioners have been appointed to examine the houses, and to condemn those which are in an unsound condition.

Business has only been interrupted for one day, the Custom House having been closed by order of the Intendente.

Casa Blanca, as well as Quillota, have suffered severely, and in some parts in the latter places, as well as in the capital, the ground has opened and thrown up a quantity of hot water.

The damage done in Santiago is similar to that in Valparaiso, with the exception that there being a larger number of public buildings in the capital, the pecuniary loss must be severer.

The principal public buildings more or less damaged are the mint, a splendid new building in the Plaza at the same time the residence of his Excellency, President Bulnes, the Cathedral, the temple San Francisco, the Church de la Compania, (which has been closed since,) the old palace completely ruined, and the court house.

There was an abortive attempt made to overthrow the government of Chile on the 20th of April.

PORTSTOWN

Ahead!

HENRY CORNPROBST
Has just received at his "BASIN STORE" a tremendous stock of goods from Philadelphia, which he is enabled to sell at greatly reduced prices, in consequence of having purchased the same much lower than usual.

His stock embraces everything required to supply the wants of the community and consists in part of a most splendid variety of
DRY GOODS, BOOTS AND SHOES,
QUEENSWARE, HARDWARE
AND GROCERIES.

All of which will be sold 90 per cent. lower than similar articles can be had for in Huntingdon. Persons who have any regard for economy should give him a call, when he will take great pleasure in convincing them that his store is the place to save money. His stock of

FISH, SALT, &c.

is very large, and as he has all his goods brought on in his own boats, it is reasonable to suppose that he can sell lower than anybody else.

I am sincerely grateful to the community for the very liberal share of patronage I have heretofore received, and trust that my great reduction in prices will be the means of having it continued and greatly increased.
