Birmingham Female Seminary.

The summer term of this budding institution closed on the 23d ult., with a public examination of the classes, which elicited good attention from a respectable audience.

The promptness, on the part of scholars, in answering, was indicative of an acquaintance with their respective studies, to be gained only by a commendable degree of application on the part of both teacher and scholars.

The essays written by the ladies and read at intervals throughout the day and evening, were indeed spicy and highly creditable, manifesting more than ordinary care in their preparation.

All the prospects of this institution seem to brighten, and though there has been some unavoidable delay in completing the seminary building now under way yet (Providence favoring) it will be finished early; and there is already sufficient ground to expect, when it is completed, a large accession to the number in attendance, which has already been beyond expectation.

Those desirous of availing themselves of the advantages of this school, need not hesitate to come in, as arrangements will be made for the accommodation of all until the new building is ready to occupy.

Paids or expense will not be spared in securing the aid of a sufficient number of competent female teachers, as the school enlarges.

The winter term will commence Tuesday Oct. 28th and it is desirable that all should be in at the opening of the session.

Rev. Israel W. Ward, A. M., Principle, Rev. Thomas Ward, A. M., Associate, Oct. 23, 1851.

TUSCARORA ACADEMY.

The twenty-seventh semi-annual session of this institution will commence on Monday the 27th of October, inst. The whole expense, per session of 22 weeks, for Board, Tuition, Washing, &c., need not exceed \$44, and with economy may be less. For further particulars, address [post-paid.]

W. HUTCHISON, I. PEIGHTAL, B. LEAS, County Commissioners.

5 DR. HOEFELAND'S GERMAN BITTERS.—That this medicine will cure liver complaint and dyspepsia, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calomel in all bilious diseases; it acts as specifically upon the liver as calomel; calomel prostrates the system—the bitters strengthen and never prostrates the patient, and will give renewed life and health to the delicate invalid, and restore the liver to its functions, and give digestion and appetite in those severe cases wherein the ordinary medicines fail in producing any effect.
