

**A GOOD SUGGESTION.**—It has been proposed that the Government cause envelopes to be manufactured with the pre-payment stamp engraved on them. There are but few people who send letters without pre-payment now, and those letters which are not pre-paid, ought not to be taken from the postoffice. Therefore, if the envelopes could be purchased with the stamp upon it, a great deal of trouble and vexation might be saved.

**A young gent** of Baltimore, at a party the other evening, threw himself in a tragic position before his lady-love, asking her to have him—she laughed at him—he desperately drew a pen knife, forgot one of the blades was opened: stabbed himself in the breast. The ladies screamed—the tragedian was carted home where it was discovered that he was more frightened than hurt.

**2 HOOPLAND'S GERMAN BITTERS.**—These celebrated Bitters prepared by Dr. C. M. Jackson, 120 Arch street, Philadelphia, are performing astonishing cures throughout the whole country.—We can bear witness to their curative powers in the case of a friend of ours who had the Liver Complain, and who had tried almost every other medicine, but without effect. After taking a few bottles of these Bitters he was entirely cured. To those who are similarly afflicted we recommend them to take the preparation, knowing that they will cure the disease spoken of, and many others to which "flesh is heir to." There is a spurious article made in Philadelphia. The only place to get the genuine article is 120 Arch street, Philadelphia, of Dr. Jackson, or his agents throughout the country.

**Birmingham Female Seminary.**  
The summer term of this budding institution closed on the 23d ult., with a public examination of the classes, which elicited good attention from a respectable audience.

The promptness, on the part of scholars, in answering, was indicative of an acquaintance with their respective studies, to be gained only by a commendable degree of application on the part of both teacher and scholars.

The essays written by the ladies and read at intervals throughout the day and evening, were indeed spicy and highly creditable, manifesting more than ordinary care in their preparation.

All the prospects of this institution seem to brighten, and though there has been some unavoidable delay in completing the seminary building, now under way yet (Providence favoring) it will be finished early; and there is already sufficient ground to expect, when it is completed, a large accession to the number in attendance, which has already been beyond expectation.

Those desirous of availing themselves of the advantages of this school, need not hesitate to come in, as arrangements will be made for the accommodation of all until the new building is ready to occupy.

Pains or expense will not be spared in securing the aid of a sufficient number of competent female teachers, as the school enlarges.

Persons neglecting to comply with the above notice it is desirable that all should be in at the opening of the session
