The wonder of the age, pattere's own productions. These Paints differ from all others in the arkets, they are not class they require little oil owe casily, and cover with a heavier body that hite leads. They neither crack not peel, and dr

winto lepti. They neither crack nor peel, and dry readily, making an ENAMBL or STONE. COLORS—We have seven different colors, viz: three Browns, two Chocolates, Black and Yellow, and by combination make every variety and shade of color.

of color.

Bopy.—These Paints are superior in body (or covering property) to any yet discovered, and pound for pound will cover double the surface of white lead, sine, or other metallic Paints.

1ROS.—To Iron they furnish a perfect protection against rust, for they contain no metal, which like white lead acts destructively on the iron; in fact this Paint makes iron doubly valuable for building purposes.

tion against rust, for they contain no metal, which the white lead acts destructively on the iron; in fact this Paint makes iron doubly valuable for building purposes.

Briok Work.—They give to house walls a much heavier coating than other paints, and if sanding is required, nothing holds so firmly or finishes so well with it.

Old Roofs.—Give us a roof, never so old and leaky, Silver's Mineral Paints will make it cheaply new and more enduring than it ever was.

Silves toing this extraordinary Mineral as we prepare it for them, will be proof against the action of hot suns worms and safe water.

Captralastrs and Bridders are invited to make strict scratiny into the merits of these Paints. They will find a very great reduction might be made in the cost of painting. These Paints are purely mineral; all clays and other impurities are washed out in preparing them for the market. They cost but halfthe price of white lead, and the same quantity will cover twice the surface, and last six times as long, which in fact reduces the price to one-twelfth. Climate has no effect on this Paint, and is equally valuable in the cold Canadas or our sunny Florida.

Directions.—Use Linseed Oil, mix as thick as you can, and use as other paints. These Paints need but little dryer, and for priming and second coating in all housework they will be found far cheaper and more durable than lead.

Pealers and consumers can procure this Paint wholesale and retail of FIRENCH & RICHARDS, N. W. Corner lush and Market Streets, Phila. General Wholesale Agents; also Importers of Plate and Colored Window Glass, Dealers in Drugs, Paints, &c.
