VEGETABLE CATTLE POWDER.
 PREPARED BY
BREINIG, FRONFIELD & CO.
 The discovery of BREINIG, FRONFIELD & CO.'S CELEBRATED CATTLE POWDER has set the whole community alive to a new fact in regard to feeding Cattle, both for the purpose of maintaining health and increasing the production of Fat, Butter and Milk. The effect of their POWDER has astonished every one, that has used it, and the demand has been so large, that the proprietors could scarcely supply it sufficiently fast for their sales.
 The immense popularity it has obtained from Farmers, Dairy Men and Horsemen, and the confidence and success with which they used it have set the heads of other Druggists at work to make an article, professing to be of equal merit, thinking to take advantage of our POWDER'S popularity, and by these means introduce other articles, into the market, which has no affinity to our preparation whatever. Every person knows, who has read anything of Agricultural Chemistry, that no powder possessing such qualities as that which we prepare, was ever known in any part of Germany, Europe or America. We advise all persons to read Prof. Leibig's works and see for themselves whether they or any one else, ever knew of a Cattle Powder in Germany, Europe or America, that ever professed to have the same virtues, which we claim for ours.
 The Discovery is of American Birth, and there is no Cattle Powder now known in the world, that was ever manufactured from the same combination of Chemical elements, as that of BREINIG, FRONFIELD & CO.
 Do not therefore suffer yourselves to be deceived, or think that our Powder is a humbug because you have tried those Mongrel Substitutes and found no good follow, but rather injurious results. Never give an opinion unless you have tried the only genuine VEGETABLE CATTLE POWDER in the world, as compounded and prepared by BREINIG, FRONFIELD & CO., No. 187 North Third Street, Philadelphia.
 N. B. Do not be imposed upon and allow your Animals to die or linger with disease because you have fed the wrong Cattle Powder. The Signature of BREINIG, FRONFIELD & CO. is on the end of each pack of the genuine Article.

\$1,000,000 Saved Yearly by Purchasing SILVER'S MINERAL PAINTS
 The wonder of the age, nature's own productions. These Paints differ from all others in the market; they are not clays; they require little Oil, flow easily, and cover with a heavier body than white lead. They neither crack nor peel, and dry readily, making an EXAMEL OF STONE.
 COLORS.—We have seven different colors, viz: three Browns, two Chocolates, Black and Yellow, and by combination make every variety and shade of color.
 COPY.—These Paints are superior in body (or covering property) to any yet discovered, and pound for pound will cover double the surface of white lead, zinc, or other metallic Paints.
 IRON.—To Iron they furnish a perfect protection against rust, for they contain no metal, which like white lead acts destructively on the iron; in fact this Paint makes iron doubly valuable for building purposes.
 BRICK WORK.—They give to house walls a much heavier coating than other paints, and if such is required, nothing holds so firmly or finishes so well with it.
 OLD ROOFS.—Give us a roof, never so old and leaky, Silver's Mineral Paints will make it cheaply new and more enduring than it ever was.
 SHIPS.—Using this extraordinary Mineral as we prepare it, and cover with it, will prevent the action of hot suns worms and salt water.
 CAPITALISTS AND BUILDERS are invited to make strict scrutiny into the merits of these Paints. They will find a very great reduction might be made in the cost of painting. These Paints are purely mineral; all clays and other impurities are washed out in preparing them for the market. They cost but half the price of white lead, and last six times as long, which in fact reduces the price to one-twelfth. Climate has no effect on this Paint, and is equally valuable in the cold Canadas or our sunny Florida.
 DIRECTIONS.—Use Linseed Oil, mix as thick as you can, and use as other paints. These Paints need but little dryer, and for priming and second coating in all household they will be found far cheaper and more durable than lead.
 Dealers and consumers can procure this Paint wholesale and retail of

 The liberal patronage which this School has received in the past, encourages the proprietor and friends of female education, to expect by proper exertion to make it both a permanent and important Institution; and no pains will be spared to sustain its growing reputation.
 Among other considerations which inspire hope as to its future success, the location is not unimportant. Three years actual experiment has developed a more philosophical, if not a truer reason for the existence of Birmingham than many which have been assigned—that it is the situation for a Female Seminary, surrounded as it is by most romantic scenery—retired—healthful—easy of access and in a place where one might almost grow wise in the study of Nature alone un-mocked by the works of Art.
 The school year is divided into two Sessions of twenty-two weeks each; the summer term commencing the last Tuesday in April, the winter term the last Tuesday in October.
 Charges to date from time of entering, and no deductions made for absence except in case of sickness.
 Tuition \$4.00 and \$5.00 per quarter—boarding \$1.50 per week. Music, Latin, French, Drawing, &c., extra.
