

ERRATA.—The removal of our office will not cause any omission or delay in our usual weekly issue of the "Journal," as we, in our veridancy, supposed it would. The truth is, and we pride in owning up to it, we had entirely mistaken both the speed and spirit of our compositors. They are not to be thrown off the track, or much impeded in their progress by slight obstructions. They will 'make time' despite all difficulties, not palpably insurmountable. In this instance even the very youngest of them worked like a devil—not for the purpose of disproving our ill-omened prediction—but to get the paper out.

TO LET.—The spacious and pleasant room and cellar next door to the "Elephant." Terms reasonable. For particulars apply at this office.

THANKS.—Being a comparative stranger to the Editorial Fraternity in whose ranks we have enrolled our name, we feel doubly indebted to 'the generous few' who, knowing us, have not hesitated to endorse our capacity to discharge successfully the duties of our position. We will ever cherish, as we shall strive to merit, the good will and confidence of our "elder brothers."

ANNIVERSARY.—St. Petersburg was founded on this 27th day of May, A. D. 1703, by Peter the Great.

THE WEATHER.—After a severe storm of wind and rain slightly mixed with hail, on Wednesday evening of last week, Jack Frost paid us a couple of quiet, but rather impressive visits; and it is feared that in some localities this hoary refrigerator has, in these his last "morning calls," done material damage to buds, blossoms, and young fruit—"by biting them."

A GEM OF THE NIGHT.—The planet Venus now near its greatest eastern elongation, and consequent superior brilliancy.

RELIGIOUS.—The Sacrament of the Lord's Supper will be administered in the Presbyterian Church on Sabbath next.—Services to commence at 11 o'clock in the morning. Preparatory meetings on Friday evening and Saturday morning and evening. Assisting Pastor, Rev. Mr. Hughes, of Spruce Creek.

LOCK JAW.—The Lancaster Gazette gives as a certain preventive and remedy, the application of beef's gall to the wound. Besides its anti-spasmodic properties, the gall draws from the wound any particle of wood, glass, iron, or other substances that may cause irritation, when other applications have failed to do so.

HUNTINGDON, April 19, 1852. To the Commissioners of Huntington County: GENTLEMEN:—In pursuance of the thirty-second section of an act, entitled "An Act for the regulation and continuance of a system of education by Common Schools," passed the 7th day of April, 1849, I herewith transmit to you a statement of the amount to which every district in your county is entitled, out of the annual appropriation of \$200,000, for the year 1852, as follows:

\$1,000,000 Saved Yearly by Purchasing SILVER'S MINERAL PAINTS.

The wonder of the age, nature's own production. These Paints differ from all others in the market; they are not clays; they require little Oil, flow easily, and cover with a heavier body than white lead. They neither crack nor peel, and dry readily, making an ENAMEL OF STONE.

COLORS—We have seven different colors, viz: three Browns, two Chocolates, Black and Yellow, and by combination make every variety and shade of color.

BOARDS.—These Paints are superior in body (or covering property) to any yet discovered, and pound for pound will cover double the surface of white lead, zinc, or other metallic Paints.

IRON.—To iron they furnish a perfect protection against rust, for they contain no metal, which like white lead acts destructively on the iron; in fact this Paint makes iron doubly valuable for building purposes.

BRICKS.—They give to house walls a much heavier coating than other paints, and if sanding is required, nothing holds so firmly on, finishes so well with it.

OLD ROOFS.—Give us a roof, never so old and leaky, Silver's Mineral Paints will make it cheaply new and more enduring than it ever was.

STAIRS.—Using this extraordinary Mineral as we prepare it for them, will be proof against the action of hot suns worms and salt water.

CAPITALISTS and BUILDERS are invited to make strict scrutiny into the merits of these Paints. They will find a very great reduction might be made in the cost of painting. These Paints are purely mineral; all clays and other impurities are washed out in preparing them for the market. They cost but half the price of white lead, and the same quantity will cover twice the surface, and last six times as long, which in fact reduces the price to one-twelfth. Climate has no effect on this Paint, and is equally valuable in the cold Canadas or our sunny Florida.

DIRECTIONS.—Use Lined Oil, mix as thick as you can, and use as other paints. These Paints need but little drying, and for priming and second coating in all housework they will be found far cheaper and more durable than lead.

Dealers and consumers can procure this Paint, wholesale and retail of

FRENCH & RICHARDS, N. W. Corner 10th and Market Streets, Phila. General Wholesale Agents; also Importers of Plate and Colored Window Glass, Dealers in Drugs, Paints, &c. March 11, 1852-3m.

Birmingham Female Seminary.

The liberal patronage which this School has received in the past, encourages the proprietor and friends of female education, to expect by proper exertion to make it both a permanent and important Institution; and no pains will be spared to sustain its growing reputation.

Among other considerations which inspire hopes as to its future success, the location is not unimportant. Three years actual experiment has developed a more philosophical, if not a truer reason for the existence of Birmingham than many which have been assigned—namely, that it is the situation for a Female Seminary, surrounded as it is by most romantic scenery—retired—healthy—easy of access and in itself a place where one might almost grow wise in the study of Nature alone un-mocked by the works of Art.

The school year is divided into two Sessions of twenty-two weeks each; the summer term commencing the last Tuesday in April, the winter term the last Tuesday in October.

Charges to date from time of entering, and no deductions made for absence except in case of sickness.

Tuition \$4.00 and \$5.00 per quarter—boarding \$1.50 per week. Music, Latin, French, Drawing, &c., extra.
