**Birmingham Female Seminary.**  
 The liberal patronage which this School has received in the past, encourages the proprietor and friends of female education, to expect by proper exertion to make it both a permanent and important Institution; and no pains will be spared to sustain its growing reputation.  
 Among other considerations which inspire hope as to its future success, the location is not unimportant. Three years actual experiment has developed a more philosophical, if not a truer reason for the existence of Birmingham than many which have been assigned—that it is the situation for a Female Seminary, surrounded as it is by most romantic scenery—retired—healthful—easy of access and in itself a place where one might almost grow wise in the study of Nature alone un-molested by the works of Art.  
 The school year is divided into two Sessions of twenty-two weeks each; the summer term commencing the last Tuesday in April, the winter term the last Tuesday in October.  
 Charges to date from time of entering, and no deductions made for absence except in case of sickness.

 "Dr. Hoofland's Celebrated German Bitters for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he had himself received an effectual and permanent cure of Liver Complaint from the use of these Bitters. We are convinced that, in the use of these Bitters, a fact worthy of great consideration.  "SCOTT'S WEEKLY" one of the best Literary papers published, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared using the meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."  
 "Dr. COMBE, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."  
 "Dr. GRAHAM, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."  
 "Call on the Agent, and get a Descriptive Circular, gratis, giving a large amount of Scientific Evidence, similar to that above, together with Reports of Remarkable Cures, from all parts of the United States."  
**AS A DYSPEPSIA CURE,**  
 Dr. HOUGHTON'S PEPSIN has produced the most marvelous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption.  It is a great Nervous Antidote, and particularly useful for men and women afflicted with Liver Complaint, Fever and Ague, or badly treated Fevers and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

 "SCOTT'S WEEKLY" one of the best Literary papers published, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared using the meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."  
 "Dr. COMBE, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."  
 "Dr. GRAHAM, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

**DR. J. S. HOUGHTON'S**  
  
**PEPSIN!**  
 THE TRUE  
**DIGESTIVE FLUID,**  
**OR, GASTRIC JUICE.**  
 Prepared from Remet, or the fourth stomach of the ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.  
 This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility. Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.  
 Half a teaspoonful of Pepsin, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.  
 Pepsin is the chief element, or Great Digestive Principle of the Gastric Juice—the "Solvent of Food," the "Preserver, Preserver, and Stimulating Agent of the Stomach and Intestines." It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a Complete and Perfect Substitute for it. By the aid of this preparation, the pains and evils of Indigestion and Dyspepsia are removed. It would be a healthy Stomach. It is doing wonders for Dyspepsia, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.  
**SCIENTIFIC EVIDENCE!**  
**BARON LIEBIG** in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared using the meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."  
 "Dr. COMBE, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals
