

Three Days Later from Europe. ARRIVAL OF THE STEAMER ARABIA.

The news by this arrival possesses no feature of striking importance.

ENGLAND.—The British Parliament is in session, but nothing of importance has transpired.

The Milan Insurrection.

LONDON, Wednesday, Feb. 9, '53.—Intelligence has just been received by Submarine Telegraph, via Paris, that an insurrection broke out on the 6th inst., at Milan.

"Berne letters of yesterday (7th February) contains a telegraphic despatch from Bellinzona, announcing that day before yesterday seditious outbreaks had broken out in several cities of Lombardy, and Milan especially, a barracks had been attacked by a troop of 400 insurgents.

FRANCE.—The recent political arrest continues to cause much excitement. Fourteen persons connected with the newspapers of Paris are to be prosecuted.

The Government views with suspicion the movement of the Russian troops.

The insurrection of Milan, and the assembling of large bodies of Austrian troops near the frontier, is deemed far from being satisfactory.

The latest accounts from Malin represent the insurrection as entirely quelled.—A number concerned in it had been shot and hung.

During the progress of the insurrection, proclamations from Kossuth and Mazzini were posted in the streets.

PARIS, Friday Night. The public mind in Paris is seriously divided by the armaments in Germany and the movements of Russian troops, and a want of confidence in the maintenance of peace is felt and expressed.

Official despatches received on Thursday in Paris represent the movement in Lombardy to have entirely failed.

The insurrection in Milan has made the pretext for assembling an immense body of Austrian troops near the frontier, and the state of Europe altogether is deemed far from satisfactory.

HUNGARY.—The accounts from Hungary concur in stating the Austrian Government to be in continual fear of a fresh insurrection, and it is uncertain at what moment a popular outbreak may occur.

WOOL IN THE UNITED STATES.—The Economist says: "By recent scientific researches on the part of Peter A. Brevne, Esq., of Pennsylvania, it has been established that the United States can outrival the world in wool as in cotton.

This subject is attracting considerable public attention at this time. In his late message Governor Bigler called the attention of the Legislature to it; and the Senate has appointed a special committee to examine and report upon it.

WE have frequently heard the celebrated German Bitters, sold by Dr. C. M. Jackson, 120 Arch street Philadelphia, spoken of in terms of the highest commendation, and we honestly believe that it is one of the best medicines advertised for the complaints for which it is recommended.

B., an experienced teacher, who was formerly in connection with the Academy. No effort will be spared, either on the part of Teachers or Trustees, to render the School worthy the patronage of parents and guardians who wish to give their sons and wards a thorough, practical education without exposing them to the immoral influences of more populous communities.

THE Academy year is divided into two sessions, of five months each. The Summer Session commences the third Wednesday of April, (April 20th, 1853.) The Winter Session commences the third Wednesday of October, (Oct. 13th, 1853.) The entire expenses of a student need not exceed forty-five dollars per session. A. C. BLAIR, A. WILSON, JOHN BREWSTER, B. N. BLAIR, D. S. MCKINNEY, A. M., Trustees.

SHIRLEYSBURG FEMALE SEMINARY AND JUNIATA ACADEMY.

THE Summer Session of these Institutions commences on WEDNESDAY THE 4TH DAY OF MAY, and continues five months. A fund of \$1500 has been procured, to be applied to the purchase of a superior philosophical apparatus and a complete library. With these facilities for instruction, the Principals and Trustees of these Institutions offer to all, and especially to those seeking to qualify themselves for teaching, advantages equal to those enjoyed by the academical student in our colleges.

These Institutions are in the same village, though entirely separate, and some distance apart, thus affording to parents the opportunity of sending their sons and daughters together. Believing that the same principles sought to be carried out in our common school system, should, and will eventually, extend to the highest branches of a liberal education, the Principals and Trustees view what they have done only as the nucleus for further and more extended efforts, which, as they proceed, will enable them to afford to all classes, a liberal course of education, at an expense more commensurate with the limited means of a large number of the youth of our State, who are engaged in the praise-worthy endeavor to obtain an education. And with this reputation, they commend their Institutions to the patronage and kind assistance of all friends of a sound, liberal and general education.

TERMS—FEMALE SEMINARY: Board, lights, washing and tuition, for the Summer Session of 22 weeks, \$45 00 No incidentals. Day scholars, the usual prices, according to studies. Music, Latin, and French, extra.
