DR. MARCHESI'S UTERINE CATHOLICON. Respectedly offered to the citizens of this county, as a preparation of earnest importance to families, and destined to become a household word with the health and happiness of Females. This CATHOLICON will cure 95 chronic diseases of the female, accidental to the respectable female, married or unmarried, and usually known under the name of Female Complaints. Of these are Profluvia Uteri, or Falling of the Womb; Fluor Albus, or Whites; Chronic Inflammation and Ulceration of the Womb; Incidental Hemorrhage, or Flooding; Painful, Suppressed, and Irregular Menstruation, &c., with all their accompanying evils, (Cancer excepted,) no matter how severe, or of long standing. MANY PROMINENT PHYSICIANS in the city of New York and other places, finding themselves without a remedy in intractable cases of the above complaints, and having due regard for the welfare of their patients, have recommended the use of this medicine; and, after witnessing its salutary effects on new patients, with increasing approbation, not only by resorting to it in their treatment of all the diseases for which it is intended, but in some instances accepting the agency of it to alleviate the sufferings of those with whom they are consulted. The influence of this composition upon the female constitution is of the most friendly kind; the most delicate and feeble female need have no fears from the use of it, for it contains no mercury, no opium, or any article which can prove in any way injurious, being made entirely of vegetable extracts, and prepared to taste like a pleasant cordial. The modus operandi of this remedy, in the cure of this class of diseases, is through the general influence of mercury, the peculiar determination to the female organs. ADDITIONAL PROOF of this Catholicon being worthy of the confidence of the afflicted, is a Successful, Safe, and Cheap Remedy, will be found in the pamphlet together with important observations touching the nature and symptoms of the diseases, to which the attention of Ladies and Practitioners is respectfully invited. THE INGREDIENTS, as certified by high medical authority, (See pamphlet) will favor them with their custom, and that no pains will be spared to render satisfaction. The Hotel is convenient to the Rail Road station, and the lowest attention will be given to baggage, &c., in having it conveyed to and from the depot. [April 18, 1853.—1y.]

DR. MARCHESI'S UTERINE CATHOLICON. Respectedly offered to the citizens of this county, as a preparation of earnest importance to families, and destined to become a household word with the health and happiness of Females. This CATHOLICON will cure 95 chronic diseases of the female, accidental to the respectable female, married or unmarried, and usually known under the name of Female Complaints. Of these are Profluvia Uteri, or Falling of the Womb; Fluor Albus, or Whites; Chronic Inflammation and Ulceration of the Womb; Incidental Hemorrhage, or Flooding; Painful, Suppressed, and Irregular Menstruation, &c., with all their accompanying evils, (Cancer excepted,) no matter how severe, or of long standing. MANY PROMINENT PHYSICIANS in the city of New York and other places, finding themselves without a remedy in intractable cases of the above complaints, and having due regard for the welfare of their patients, have recommended the use of this medicine; and, after witnessing its salutary effects on new patients, with increasing approbation, not only by resorting to it in their treatment of all the diseases for which it is intended, but in some instances accepting the agency of it to alleviate the sufferings of those with whom they are consulted. The influence of this composition upon the female constitution is of the most friendly kind; the most delicate and feeble female need have no fears from the use of it, for it contains no mercury, no opium, or any article which can prove in any way injurious, being made entirely of vegetable extracts, and prepared to taste like a pleasant cordial. The modus operandi of this remedy, in the cure of this class of diseases, is through the general influence of mercury, the peculiar determination to the female organs. ADDITIONAL PROOF of this Catholicon being worthy of the confidence of the afflicted, is a Successful, Safe, and Cheap Remedy, will be found in the pamphlet together with important observations touching the nature and symptoms of the diseases, to which the attention of Ladies and Practitioners is respectfully invited. THE INGREDIENTS, as certified by high medical authority, (See pamphlet) will favor them with their custom, and that no pains will be spared to render satisfaction. The Hotel is convenient to the Rail Road station, and the lowest attention will be given to baggage, &c., in having it conveyed to and from the depot. [April 18, 1853.—1y.]
