

MUCH IN LITTLE.

Disappeared—the comet.  
In town—Van Wagner and his tent.  
Master of Ceremonies—Dr. "Hobensack" at the Circus.  
Well represented—the churches in the circus on Friday.  
New name—"Gulliver" has dab'd the hand- some member "our humble instrument?"  
Quere—Where did the "humble instrument" go, on Sunday last, beside Camp-meeting?  
Yet another name—the "Hobensack's" or mill-burners, also call themselves fire-eaters!  
Dayard Taylor, the traveler and poet, will not return to this country before next March.  
Keep cool.—The hot weather is not yet over, and the Standard man had better not get excited.  
Rich—Wharton's letter on Milos' Road. It will be exposed next week. It's on a par with his answer to the "Call."  
The assessors' valuation of Boston is \$206,000,000. A small fortune! We'll go halves.  
Rule, very—"Little Johnny" on the over-dose of "Hobensack" administered in the billiard saloon a few evenings since.  
Benjamin Franklin organized the first fire company in Philadelphia, in 1738.  
Combustible property—mill-burners in New York—church-burners in Philadelphia, and mill-burners in Huntingdon!  
Why is a tobacco chower like a goose in a Dutch Oven? Because he's always on the "split."  
Amusing—That any of our subscribers should expect us to shield a band of disorganizers, and thus injure and oppose our regular ticket.  
Sweet Oil is said to be one of the most effective weapons that can be used against bug-begs.  
Left town—The Elephant and a large huddle of "Wharton's calls," to be read and laughed at, by all the sensible Democrats in the country.  
The Ohio State Fair, for '83, will be held at Dayton, on the 21st, 22d and 23d of September.  
A "striped snake" with two perfectly formed heads, was captured near Portland, Me., last week.  
Fanny—to see the democratic delegates yesterday, laughing at the manoeuvres of the "humble instrument" and his little tool—Johnny.  
In town—Andy Friedly, to tell his whereabouts. He says he is just inside the county line. "The humble instrument" had better consult his geography.  
The Alleghenian—is the name of a new Whig paper printed at Elensburg. It is ably edited and we hope the Whigs of Cambria will give it a cordial and substantial support.  
The Librarians of twenty-four of the largest libraries in the United States, have called a National Convention of Librarians, to meet in New York, September 15th.  
A son of Mr. Lutz, aged 10 years was drowned at Chicago, on Tuesday, by some ruffian, because he resolutely refused to steal fruit for them.  
At his dirty work.—There is a little puppy in this town, who prows around and lies about his neighbors. If he will come and pay off his own subscription to our paper, we will feel exceedingly gratified, and remove a blemish from our books.  
As might be expected.—William McMurtre, one of the signers to the "humble instrument" declaration, said on the corner, the other day, that they intended to have the \$800 balance of the contract of the new bridge at Huntingdon, refunded to the subscribers, by the County!  
Broad Top.—A great many of the contractors have commenced work along the line, and the road is progressing rapidly. Soon we may expect to hear the whistle of the Broad Top locomotive. It will be a great day in the history of Huntingdon that witnesses the arrival of the first coal train.  
Benton's in Bad Humour.—A Washington letter writer says, that a gentleman asked Benton if he ever visited the White House. He replied, with emphasis, "No sir, no sir; I never got to the buzzard's roost." Quer fellows, those Locofocos. Wonder if the "Tinder Box" has any roots in his yard?  
Wanted.—Three of Wharton's circulars; one to file, with a certain indictment and deed of trust, among the records of Huntingdon County; one to place, as a memorial, among the State archives, and one to send, as a natural curiosity, to the World's Fair. The "Hobensack's" will be immortalized.  
The editor of the Journal surrendered on the 20th of the same month, 1853, at Donaldson's Hotel in Hollidaysburg.—Standard.  
And the itemizer of the Standard "surrendered" not long afterwards, to "Hobensack," by whom he was held in the most "subject matter." Pity he had the worms.  
Camp Meeting.—Never do we recollect seeing a larger camp meeting in this country, than the one now being held near Alexandria.—"Every body and all their friends" appear to be in attendance. We have no doubt it will be productive of much good, as large numbers are making a public profession of religion.  
Too good to be lost.—A gentleman from Harrisburg, the other day inquired for the bridge against which the "humble instrument" "knocked out his brains." He was answered by a bystander, as follows—"I can show you the pier and one abutment. As to the 'knocking' it may be so, but I don't know about the brains, I think it would be rather hard to knock brains out of a pumpkin.  
S. N. Wharton, who failed to secure a re-nomination from the Whigs of Huntingdon, announces himself as an independent candidate for the Legislature. We hope the Whigs of that district will give him a lesson at the election that will give him satisfactory proof of the estimation in which disorganizers are held.—Lewistown Gazette.  
The Whigs of old Huntingdon are not easily bamboozled by a few disorganizers and interested locofocos. Our friend of the Gazette, more assured his hope will be fulfilled.  
A serious affray occurred in Cincinnati, a few evenings ago, between Dr. Fisher W. Ames and James C. Hall, late postmaster of the city, in which Ames shot Hall dangerously with a pistol, so that at the last accounts his life was despaired of. Ames was arrested in front of his own house, while swearing vehemently that he intended to kill Hall, and upon searching him, four double barrelled pistols were found, three of which were loaded, besides a sword cane splattered with blood, which latter he had drawn and used in the commencement of the fray. The two men and their families lived in adjoining houses, and for some months past a difficulty had existed between them.

Franklin's Paper in Philadelphia.

This paper, published and edited by Benjamin Franklin, first made its appearance on December 24, 1728. It was first called "The Universal Instructor in all Arts and Sciences," which title was afterwards changed to the running notice, "Containing the freshest advices, foreign and domestic." Franklin continued the paper weekly until 1755, when it passed necessarily into several other hands, and finally expired. In 1804, in the 76th year of its age, the paper changed hands in all these years, in size, paper, and editorial. Its size, at first, was that of an eight by ten. The paper was thin, yellowish, and coarse. Its price was ten dollars a year, and in matter there was little variety. Tales, poems, fables, with a little foreign news, several months old, were all it could send forth. The advertisements now seem odd and out of date, and one could find the places to which they refer. Persons leaving for Europe are spoken of as intending for Europe, and a cargo of negroes, just arrived, are daily advertised, and persons wanted to look at the cargo. Altogether, the sheet, in its best estate, would not equal any village sheet which our country now produces.  
ENGLISH EMIGRATION.—A London correspondent of the Tribune calculates that death and emigration have removed 36,149 persons more from Great Britain in the three months ending June 30th, than have been born within the same period, by so much diminishing the population. The previous quarter showed a diminution of 28,000.

THE LOCOMOTIVE IN EGYPT.—On the 6th of June, a locomotive was run for the first time five miles on the Egyptian Railroad, much to the astonishment of the Bedonias, who were gathered along the line, for some time until they found they had no chance of keeping pace with the locomotive.  
HOW DAVID OUTLIVED.—The Raleigh Register of Saturday, claims the re-election of this gentleman over Mr. Shaw, his Locofoco opponent. It says that the Rev. W. S. Morrison, Principal, supplied with the complement of accomplished Teachers.

No. 38. [Extract of a letter from Mr. John W. Yethel.]  
HARRISBURG, Jan. 22, 1851.  
Mr. Hoxes, Dear Sir—I have sold a number of boxes of Cooper's Vegetable Compound for you. Agents, (preparing by you.) Every person who has heard speak of them, since purchasing, says that they performed a complete cure in three days.  
One individual who purchased a box of me, said he had no hopes of his curing him, as he had had chills and fever for full three years, and high fever, and had tried all the popular remedies of the day, without success. He now had a great deal of money to Physicians also—but those Pills had been so strongly recommended to him, that he thought he would try them. Much to his surprise, he was cured in three days; but expecting it would come back, he never called on me until three months afterwards, when he acknowledged he believed it was a perfect cure. For my own part, I do honestly believe they are the best medicine ever discovered for the cure of Fever and Ague.  
Yours, &c.,  
JOHN WYETH.  
This celebrated medicine is for sale at Reed's Drug Store, Huntingdon.

POISONING.  
Thousands of Parents who use Vermifuge composed of Castor Oil, Colomel, &c., are not aware, that while they appear to benefit the patient, they are actually laying the foundation of a series of diseases, such as salivation, loss of sight, weakness of limbs, &c.  
In another column will be found the advertisement of Hobensack's Medicines, to which we ask the attention of the subscribers upon the grounds, as well as their Children's health. In Liver Complaints and all disorders arising from a course of biliousity, should make use of the only genuine medicine, Hobensack's Liver Pills.  
We have also to recommend, what we acknowledge he believed it was a perfect cure. For my own part, I do honestly believe they are the best medicine ever discovered for the cure of Fever and Ague.  
JOHN WYETH.  
This celebrated medicine is for sale at Reed's Drug Store, Huntingdon.

IMPROVED STOCK.  
THE subscriber now offers for sale twelve thorough bred Colewold and two full blooded South Down Ducks, five full blooded Ewe Lamb, and a few of the best of the Thirteen thorough bred Chester White Pigs, about six weeks old.  
One full blooded Heifer and two Bull Calves of the Durham Short Horned breed.  
This stock was intended for the Pittsburg Agricultural Fair, but owing to the difficulty, delay, and danger of transporting stock across the mountains; the subscriber declines taking them. For information direct to Eagle Foundry, Huntingdon County Penna.
