Office of the Drake's Ferry and Broad Top R. R. Co.

Cassville, Oct. 13, 1853.

To the President and Directors of the Pensylvania Railroad Company.
Your memorialists respectfully beg leave to call your attention to the construction of the Drake's Ferry and Broad Top Railroad, and its importance to the prosperity of Philadelphia and also as a source of revenue to the Pennsylvania Railroad.

A Railroad, twelve miles in length, with a descending grade, will connect the Broad Top Coal Basin with the Pennsylvania Railroad at a point ten miles east of Huntingdon, fifty-seven miles cast of the Allegheny Bituminous Coal Field, and one hundred and ninety-two miles weat of Philadelphia.

When this connection is made, semi-bituminous Coal of the best quality can be shipped to Havre de Grace by canal boats, in one hundred and sixty-seven miles, or delivered in the city of Philadelphia, by railroad, in two hundred and four miles, enabling Pennsylvania to gupply the cities of Philadelphia, New York and Boston with the best fuel for Locomotives and Ocean Navigation—affording to your citizens the best and cheapest fuel for manufacturing purposes, and giving to Philadelphia an article of export hilberto unknown to her commerce.

article of export hitherto unknown to ner commerce.

Large expenditures have been made in constructing a Railroad and Canal to the semi-bituminous coal basin of Cumberland, while the State of Pennsylvania held within her own limits and within twelve miles of her public improvements, and upwards of one hundred miles nearer the cities of Philadelphia and New York, an inexhaustible deposit of somi-bituminous Coal vastly superior to the Cumberland Coal.

York, an inexhaustione deposit or semi-orusing Coal, and Coal, You, gentlemen, selected to watch over and protect the interests of the City of Philadelphia, cannot be indifferent to the speedy construction of a work destined to add so much to the commercial and manufacturing interest of her citizens, and also so largely to the revenues of the Pennsylvania Railroad.

As a means of obtaining an economical supply of fuel for your work shops and locomotives, the Drake's Ferry and Broad Top Railroad is deserving of your aid; but when viewed in relation to the future commerce of Philadelphia, its importance cannot be over estimated.

deiphia, its importance cannot be over estimated.

When the great chain of the Railway from the Atlantie to the Pacific, of which the Pennsylvania Railroad will become an important link, shall have been completed, this deposit of semi-bituminous Coal, so near to Tidewater, will then, and not till then, be duly appreciated.

At present the citizens of Philiadalukia value.

ted.
At present the citizens of Philadelphia point proudly to the Delaware, Lehigh and Susque-hanna Anthracite Coal fields as the best gems within the State, foregrid of this, the only semi-bituminous Coal Basin east of the Allegheny and within the State of Pennsylvania.
Your memorialists therefore ask your favorable consideration of the proposed improvement, and respectfully solicit your aid and influence in the immediate prosecution of this important work.

By order of the Board of Directors of the D. F. and Bread Ton Railroad.
