TURKEY AND RUSSIA.

A telegraphic despatch, published in the Paris Moniteur, under date of Bucharest, Oct. 25th, states that two Russian steamers and eight gun-boats forced a passage through the Danube on the 23d, and encountered a brisk fire from the Turkish fort, Isaltchi. The Russian fleet had a detachment of troops on board, and the fire killed a Colonel and three other officers, and twelve sailors were also killed, while the wounded amounted to forty. The loss on the part of the Turks is not given, but it is pretended by the Russians that the fort was set on fire by shells thrown from the steamers and gun-boats.

It is reported that the Czar had said, in answer to a request of England and France that he would rather back out then fight there.

In regard to the attitude of the combined fleets of England and France in the Sea of Marmora, the Turkish government is said to have declared their movements unintelligible, and that they were worthless allies. If they are apprehensive of the safety of the Sultan, the Turkish government undertakes to, guarantee the Sultan's safety, and it has no use for fleets at Constantinople, except as active allies. The arowed of the presence of the fleets in any other quality would be an arowed of weakness that would wrong Turkey in the eyes of Europe.

Murder and Horrid Atrocity.

Jacob Scheib, some two months azo, married in Buffalo a widow who had a family of children, the eldest a boy of some 12 or 13 years, moved to Blue Island, about three quariers of a mile from the yillage, and lived in a shanty. A man named Cender, last week loaded a double barrel shot gun, which he had lately purchased, for the purpose of trying it, and after practicing some time, annoyed Scheib by firing in his yard and about the latter's dwelling.—Scheib remonstrated, and from words they came to blows: Neither was much injured, and afterwards Cender took a seat in Scheib's shanty, directly behind the stove. At about 11 o'clock at night high words again ensued between them, and Cender raised his gun, pointing it at Scheib's breast, threatened to shoot him; the latter being but about three fiet from the muzzle of the gun, opened his shirt bosom, and dared Cender to fire. Cender at once fired and lodged the whole charge in his victim's right breast, killing him instantly.

But now follows the most borrible part, which the son testifies to. Mrs. Scheib leaving the body in its fallen position, after placing something under the head of her dead insisand, undressed herself and went to bed in a small apartment partitioned off in the back part of the shanty. Cender followed, and occupied the same bed. The wife and the murderer of her husband, within the sight of the warn, but life less corps, lay in each others arms! The boy immediately went in earch of assistance, and those whom he brought found the guilty pair together as he had left them. In reply to their questions, she stated that Scheib shot himself. Further assistance having been procured, and a warrant issued, the murderer was arrested, and upon the Coroner's inquest, the woman confessed that Cender shot her husband. Center for the shanty.

### The Root of the Evil.

The monatory affairs at New York, seem to have reached a crisis. The best commercial paper brings from 12 to 15 per cent. per. month. In referring to the subject, and tracing the causes, the Courier and Enquirer truthfully re-

causes, the Courier and Enquirer truthfully remarks:—

The increase of foreign dry goods imported in September, 1853, was sixty per cent. beyond those of September, 1852. For the nine months of 1853, (ending Sept. 30,) the increase was full; fifty per cent. beyond the import for the corresponding period of 1852. The aggregate for 1852 exceeded seventy-seven millions in value, against less than fifty millions in 1852. This is the root of the evil. This identical increase of twenty odd millions brings about the export of coin. This would have been the case or nearly so, if the Banks had not curtailed ten millions in their loans since August 1, but the two causes combined together, added to the increased value of money abroad, are fully sufficient to account for the present stringency in this market.

A Line of Steamers Arandoned.—By recent advices from Genca, we learn that the great transatiantic Steamship Company, with a capital of \$50,000,000, (mostly English capital) is about to abandon the enterprize. The depression of stocks in Piedmont, and the pressure upon the money and market there, have entirely changed the plans of the Company, and the most we may expect from it at present, is the equipment of but one single steamer, for the service between Genca and N. York.

Secretary Marcy writes to Josiah Fos Leary Secretary Marcy writes to Josiah Fos-re of Sandwich, whose son, a samen on board the "Lenox" was hadly injured in the affair at the Chineha Island, that "the Government of the United States is by no means insensible to the wrongs inflicted upon its citizens in the attack upon them by an armed force of Peru, on board the U.S. merchant ship Defiance.— Ample reparation will be demanded for the acts of violence which have been perpetrated at the Chinea Island."

IMMESSE RAILROAD RECEIPTS.—The Eric Railroad receipts for October have been of unprecedented magnitude; no less than \$225,899 from passengers and mails; 327,186 from freights—total \$552,995. This is an increase of \$176,000 over the same month last year.—The Hudson River Railroad receipts were \$153 258—an increase of near \$50,900 from the last year.

The Koszta Cave.—The Washington Union publishes the correspondence between Baron de Bruch and Minister Marsh about the release of Koszta, permitting his return to the United States. The Union, speaking evidently authoritatively, asys.—"The correspondence will be read with a protest by those who think as we do, that there are conditions and terms amexed to the release of Koszta not entirely fit to have been made."

have been made."

Mr. Soule.—The Cadiz correspondent of the Havana Diario writes, Oct. 7th, from Madrid that Mr. Soule's presence there makes something of a sensation; but adds that Mr. S., by some publications in the Paris Sizele propitiatory, had paved the way for a reception.
