CHRONIC REHEDINATION. The Electric Chains never fail to relieve the severe pains and swelling incident to this disease. The worst forms of this disease readily yield to a few applications of a chain, and in no Single in-stance have they failed to give instant relief, if they did not effect a permanent cure. All persons who are victims of this usual whiter complaint. are kindly invited to call and obtain a pamphle of **HORACE W. SMITH**, Agent for Hun tingdon county, who will also explain their mod Ingoin county, who wit also explain their mode of use. The electric chains can be sent by mail to any part of the United States, by addressing (post paid) any of the agents in the principal cities, or Joseph Steiner, 568, Broadway New York, Gen. Agent, 568 Broadway, N. Y. January 18, 1854.-1y.

times during the twenty-four hours. CHRONIC RHEUMATISM.

During the last teenly years, it can suffy do es-timated that ten homaon females have died year-ly from this one disease. PROLAPSUS UTERI. It is well known to medical men that this com-mon disease is beyond the reach of medicine, and that in proportion to the amount of medicine giv-en, the more the patient is doomed to suffer, and sooner will death close the scene. During the last 2 years more than one thousand cases of *Prolopsus Uteri* (falling of the womb) have been permanently curred in England and France. Most of those cases were ladies of high standing, who had previously tried all ther kinds of treatment with no benefit. Among the distin-guishel dhates that have been curred in Paris is the present Queen of France. In this country, du-ring the last year, one hundred cases have been curred in the citry of New York, many who have allowed their names to be published for the hene-fit of those suffering with similar complaints.— The mode of use is simply to apply one end of a 30 link chain to the spine just above the hips, and the other on upon the abdomen, and allow the chain to remain forme hour. This to be repeat-ed four times the twenty-four hours. CHRONIC HHEUMATISM.

verient, effectual, and strictly scientific mode of instantly relieving and permanently curing all NERVOUS DISEASES.
 Now we know that an annonneement similar to the above meets the eyo of the reader almost daily, and perhaps this may be classed with many others. But listen or you do us injustice. It is claimed that Puivermacher's Electric Chain, is the only magnetic remedical agent that is secured by patent, granted by this government, on the ground that it was a strictly useful and scientific article. The Chains are now on exhibition at the Crystal Palace, and attract much attention from the thousands who daily visit it.
 MODE OF USES.
 The mamor of using the chains is very simple. The chain is first moistened with common vinegar, and then one end of the chain is applied to the part where the pain is located, and the other end opposite to the first. The ends of the chain sloudd never touch each other. At the moment of application, the most carde pain is instantly relieved, wherever is located, by the passing through the part a constant current of uninterrupted electromagnetism. In the following diseases, no other remedy has ever given such complete and perfact satisfaction to the patient as Puivermather's Clains: Rhemathigr in the Res, Long standing Nervous Beadache, Palpination of the Heart, General Dollity, Dyspopsi, Fenale Diseases, Asthma, Contracted Joints, &ce.
