NEW-YORK, Offer one of the most extensive Stocks and complete assortments in the country of BOOKS & STATIONERY,

HRODKES & STATIONERRY,

FOR CASH ONLY.

The amount of goods in our line purchased by country merchants is usually quite small compared with their dry goods, hardware, and other bills, and this very circumstance absolutely compels jobbers in the book business, who sell on time, to get larger profits in order to make up for the losses and extra expenses necessarily involved in a credit business of small amounts. It is also easy for the merchant to make arrangements to buy his book bill for eash; though it might not be so convenient for him to purchase his larger bills in this way.

These considerations have led us to adopt in our business, from this date, January, 1854, the following principles, viz. SMALL PERGITS, UNNARYING PHICES, AND TERMS ALWAYS CASH.

Being ourselves the sole publishers of a number of the leading and most extensively-selling School Books in the country, as well as works in other departments, our facilities are unsurpassed.

Call upon us, or send an order, and jadge for yourselves, if the saving you can make by buying of us for each is worth while.

Our location is very central, and easily found stand on the Aster House steps, and look straight forward across the corner of the Park, and you cannot avoid seeing our signs.

NERVOUS DISEASES.

Now we know that an announcement similar to the above meets the eye of the reader almost daily, and perhaps this may be classed with many others. But listen or you do us injustice. It is claimed that Pulvermacher's Electric Chain, is claimed that the only magnetic remedical agent that is secured by patent, granted by this government, on the ground that it was a strictly useful and scientificarticle. The Chains are now on exhibition at the Crystal Palace, and attract much attention from the thousands who daily visit it.

MODE OF USE.

The manner of the ging the chains is very simple.

from the thousands who daily visit it.

MODE OF USE.

The manner of raing the chains is very simple. The chain is first moistneed with common rangar, and then one end of the chain is applied to the part where the pain is located, and the other end opposite to the first. The ends of the chain should never touch each other. At the moment of application, the most acute pain is instantly relieved, wherever it is located, by the passing through the part a constant current of uninterrupted electromagnetism. In the following diseases, no other remedy has ever given such complete and perfect satisfaction to the patient as Pulvermacher's Chains: Rheumatism, Painful and swelled Joints, Pains in the Back, Denfress, Blündness, Paralysis, Neuralgia in the Face, Long standing Nervous Headache, Palpitation of the Heart, General Deblity, Dyspepsia, Female Diseases, Asthma, Courtracted Joints, &c.

will be given to any person who will produce so

by Professors Mott, Van Buren, Post and Carno-chan, of New York; are also in daily use in every Hospital in that city. The chains will last for years, are always ready for use, and produce no

ly from this one disease.

It is well known to medical men that this common disease is beyond the reach of medicine, and that in proportion to the amount of medicine given, the more the patient is doomed to suffer, and sooner will death close the scene.

During the last 2 years more than one thousand cases of Prolapsus Uteri (falling of the womb) have been permanently cared in England and France. Most of those cases were ladies of high standing, who had previously tried all other kinds of treatment with no benefit. Among the distinguished ladies that have been cured in Paris is the present Queen of France. In this country, during the last year, one handred cases have been cured in the city of New York, many who have allowed their names to be published for the benefit of those suffering with similar complaints. The mode of use is simply to apply one cit of the sufficient of the control of the c

the other chain for one hour. This to be repeated hour times during the twenty-four hours.

CHRONIC RHEUMATISM.

The Electric Chains never fail to relieve the secre pains and swelling incident to this disease. The worst forms of this disease readily yield to a few applications of a chain, and in no single instance have they failed to give instant relief, if they did not effect a permanent cure. All persons who are victims of this usual winter complaint, are kindly invited to call and obtain a pamphlet of HORACE W. SWITH, Agent for Huntingdon county, who will also explain their mode of use.

The electric chains can be sent by mail to any part of the United States, by addressing (post paid) any of the agents in the principal cities, or Joseph Steinert, 568, Broadway New York.
